Internship Report

September 1, 2021 – August 31, 2022

The Career Center's Internship Team manages student **self-reported** work experiences that offer students the opportunity to gain valuable employment skills. An internship is a supervised work experience related to the student's major or career goals; the experience should have an intentional learning objective. This report focusses on non-credit paid and unpaid internships and fellowships. For-credit internships are summarized on page 20 only as supplemental information.

DEFINITIONS

Cooperative Education (Co-op) Alternating/Parallel: An alternating co-op experience typically consists of alternating semesters of full-time study and full-time major-related work (i.e. the co-op attends school full-time for a semester, then works full-time for one semester, returns to school for one semester, returns to work one semester). A parallel co-op experience allows students to attend school and work in a major-related field at the same time. The term co-op and internship are often interchangeable as defined by the employer, but there are still a few employers that continue to have a traditional co-op program.

Fellowship: A major-related work experience for graduate students, often connected with research or graduate study.

Internship: Semester-long, supervised work experience related to a student's major or career goal for which the student may or may not earn academic credit. The work experience may be part-time or full-time, paid or unpaid, and primarily in an off-campus environment. An important element that distinguishes an internship from a short-term job or volunteer work is that an intentional "learning agenda" is structured into the experience.

UTEP Student Employment: On-campus work experience that is typically not major-related, but students gain employment skills. **EFFECTIVE 2020-2021 AY, UTEP student employment experiences are not included in this report.**

What interns are saying...

"The teams I worked with were great and supportive. Everyone from the recruiter to the partners reached out to make sure I was set up for success."

"I truly had to get out of my shell and figure out different ways to communicate with peers for this experience."

"In my internship I learn how to solve problems using different approaches, testing each one and coming up with the best solution."

"My courses helped me provide a strong foundation for the teaching position I took up. And I was able to build on this foundation and further my teaching skills."

"This is the best experience I've ever had in my life, please encourage students to do more internships."

"I believe the internship provided me with real world situations that I would not have learned in class."

"I learned how important it is to be held accountable for your own actions and that doing a job right the first time will save you a lot of time."

"I learned how to work with different teams, adjust to deadlines, and have more input on projects."

"This was a great internship experience. Very busy and hands on. I was able to implement my personal project into policy."

INTERNS & CO-OPS: Employer Evaluations

Employers submitted evaluations to gauge student learning. Program goals were met in the six skill areas surveyed.
