

## How to Set Up My VPN: Windows Setup

- 1 Download the application.
  - [64 Bit Downloads Windows](#)
  - [32 Bit Download Windows](#)

- 2 Double-click the msi to install.

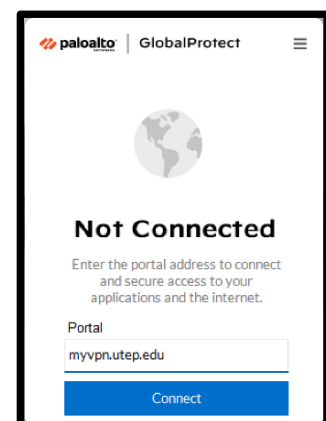

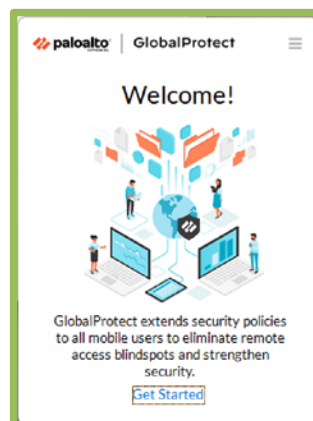

- 3 On the screen click Next and then again on the three following screens. Then click on close.

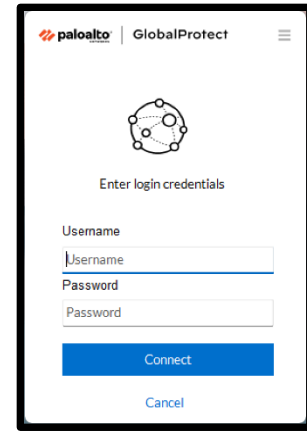

- 4 Select the GlobalProtect globe icon from the system tray.

- 5 Select [Get Started](#) to get the portal information. Enter the portal address: [myvpn.utep.edu](https://myvpn.utep.edu).

- 6 Then click on Connect. On the next screen, enter your UTEP credentials, then click on Sign In.

- 7 Approve the DUO Push notification you will receive on your cellphone.

- ✓ You are setup!
