

Eyewash Weekly Inspection Form

An emergency eyewash fixture is provided to flush tepid water to the eye, diluting any hazardous materials that may have come into contact with the eyes.

General Requirements:

Initial and date in the corresponding box verifying the eyewash station is checked weekly for the following:

- The pathway to the eyewash station is clear of obstructions.
- The eyewash fixture is free of obstructions in all directions.
- The nozzle dust caps/covers are in place and operating properly.
- To test the eyewash station, flush water until clear water flows continually through eyewash head without any leaks, rust, dirt, etc. for approximately 5 seconds. (If problems are evident, call EH&S x7124).
