The University of Texas at El Paso

## 2024-2025 Transfer Guide for El Paso Community College

College of Engineering AS-ENGI

## BACHELOR OF SCIENCE IN CIVIL ENGINEERING AND CONSTRUCTION ENGINEERING MANAGEMENT

The courses listed below can be taken at El Paso Community College in partial fulfillment of UTEP's Bachelor of Science degree in in Civil Engineering or Construction Engineering Management and completion of its Core Curriculum requirements. Completion of the entire Core, or blocks within the Core at EPCC will satisfy completion of the Core or comparable blocks at UTEP. Questions concerning these requirements should be directed to the Engineering Edge Center (engradvising@utep.edu) at (915) 747-5460.

EPCC Course			EPCC Course Title	UTEP Equivalent		UTEP Core
1. Co	mmunica	tion (6 cr				
			Complete the following:			
	ENGL	1301	Composition I	RWS	1301	$\checkmark$

Additional Courses Required for the Engineering Degree in Civil Engineering and Construction Engineering Management at EPCC/UTEP						
	ENGR	2302	Engineering Mechanics: Dynamics	MECH	2340 <sup>6</sup>	
	ENGR	2308	Economics for Engineers and Scientist	CE	2326	
	ENGR	2332	Mechanics of Materials	CE	2334	
<sup>6</sup> ENGR	2302 transfe	rs as MEC	H 2340, which is equivalent to CE 2338, a required course listed in	the BSCE degr	ee plan at UTEP.	

ENGR 2302 does not count towards BSCEM degree plan.

## ADDITIONAL COLLEGE OF ENGINEERING NOTES

- **TRANSFER HOURS:** A student may transfer a maximum of 66 semester hours, limited to lower-division courses, from two-year junior or community colleges. A maximum of 98 semester hours of courses is transferable from accredited U.S. colleges and universities.
- **ACCREDITATION:** Transfer credit for engineering courses is restricted to ABET accredited curricula or is awarded on the basis of departmental recommendation.
- **COMPETENCY EXAMS:** Transfer students may be required to take competency exams and/or take specified courses that the department feels they must have in order to establish the quality of their degree.
- **UPPER DIVISION COURSES:** Credit for upper division engineering courses will be given only on the basis of departmental recommendation.
- SECONDARY ADMISSIONS REQUIREMENTS: The academic records of all transfer students are reviewed by the College of Engineering to determine eligibility for admission into an engineering program. International students must meet the additional requirement of an overall minimum GPA of 3.0 in mathematics, chemistry, physics, and engineering for all institutions attended.
- **TRANSFER CREDIT:** that is to be applied toward undergraduate engineering degree requirements must be approved by the Dean of Engineering. Transfer credit evaluation should be completed when the student transfers to the College of before completion of the lower-division requirements
