This form is provided for the purpose of informing students about the academic milestones that they will be expected to reach in order to earn their Ph.D. degree as well as when they are expected to complete these milestones. Advisors are expected to work with each student to customize the list of responsibilities included in the agreement. Students are expected to reach each milestone within the specified time period in order to make satisfactory progress through the program. Students who are not making satisfactory progress may lose funding, be placed on academic probation, or be dismissed from the program. If a student has ongoing concerns or grievances related to his or her Milestones Agreement, the student may obtain third party consideration of those concerns by following the institution’s policies and procedures regarding academic grievances.

Academic Advising

Upon entering the doctoral program, all students will be assigned a faculty mentor. The mentor will be a member of the department, which can be either assigned by the chair of the department or the program director.

Academic advising includes the following elements that are designed to assist students in maintaining good academic standing and making satisfactory progress through the program. Advisors are responsible for the following:

- Ensuring that annual (or more frequent if the program desires to make more frequent reviews a requirement) reviews between student and advisor and/or supervising committee occur. The results of this review will be included in the program’s annual doctoral progress report.
- Providing suggestions on course selection.
- Reviewing the student’s Degree Plan to determine if the student is making progress consistent with the expectations of the program and reaching milestones according to the timeline provided on this form; working with the Doctoral Studies Committee and student to determine if modifications are necessary.
- Clarifying the timetable for completing any remaining course requirements, examinations, and other requirements.
- Providing the student with assistance in understanding the requirements for successful completion of the dissertation.
• Providing the student with assistance in assembling a dissertation committee.
• Providing the student with experiences and information that will optimize the student's career opportunities and success.

Requirements for all Doctoral Students
