Biomedical and health informatics is a rapidly growing field. Health information technology is one of the few industries that has grown at a double-digit rate, even during a severe recession. There's a huge and rapidly increasing demand for what we do.

– Jiajie Zhang, Ph.D.
SBMI Dean & Professor

CURRICULUM DESIGNED FOR INFORMATICS

To earn a UTEP MBA with a Business Informatics for Healthcare concentration, students must satisfactorily complete the 36 semester credit hour curriculum which includes 27 semester credit hours of MBA core course work and nine semester credit hours of concentration specific course work listed below. The Certificate of Business Informatics for Healthcare program includes two designated MBA core courses plus three SBMI concentration courses:

- HI 5300: Introduction to Health Informatics
- HI 5301: The US Healthcare System
- HI 5313: Introduction to Electronic Health Records

The SBMI courses can be taken online, at your convenience and are instructed by our faculty members who are thought leaders in the field of informatics.
