Administrative Experience:

Provost and Vice President for Academic Affairs, April 2020 – present; Interim, January 2019-March 2020

In this position I report to the President and represent the University in her absence. I oversee the Division of Academic Affairs, with responsibility for approximately 2,000 FTE. I chair and provide support to the Council of Deans and work closely with chairs, program directors, and the Faculty Senate. In faculty affairs, I manage the recruitment, hiring, credentialing, retention, development, promotion/tenure review, and post-tenure review of faculty. My office is responsible for strategic planning, development, evaluation, and continuous improvement of academic programs. I oversee student advising and academic support programs; promotion of new, integrated, and holistic pedagogies; and the University's student success plan, the UTEP Edge, that seeks to integrate high-impact practices with the goal of preparing students for leadership and success, both on campus and beyond. My office also has a compliance function related to principles of accreditation and state and federal regulations. We hear student and faculty grievances and work to resolve them. Finally, we facilitate and manage academic agreements with other universities, governmental agencies, and private entities. My direct reports include eight academic deans, the Dean of the Graduate School, the Dean of Extended University, the Dean of the Library, four vice provosts, the Associate Vice President for Academic Resource Management, and the Director for Administration and Communication.

Vice Provost, 2018; Associate Provost, 2012-2017

This position reported to the Provost, and the portfolio shifted during my time in the office, including faculty affairs, policy, community engagement, research, and student success. Direct reports included the Director of Academic Personnel Services; the Campus Office of Undergraduate Research Initiatives; the Center for Civic Engagement; the Unit for First Year Retention, Success and Transition; the Entering Student Program; the Miner Learning Center; Developmental English; Developmental Math; the Technology Implementation Manager; and the Communications Specialist.

I was responsible for faculty recruitment and evaluation, working in a shared governance context to develop academic policy, managing conflict of interest and commitment, and handling faculty grievances and conduct issues. I coordinated institutional efforts related to community engagement, chairing the Provost's Council on Community Engagement and leading strategic work around engaged scholarship and service learning. I coordinated cross-college efforts to develop grant proposals, developed internal incentive programs for UTEP researchers, and liaised with the Office of Research and Sponsored Projects on interdisciplinary research, export control, international research collaborations, and grant

preparation and review. I wrote UTEP's Compliance Certificate for its successful fifth-year accreditation review by SACSCOC. I also heard student grievances, write and edit reports, and was involved in strategic planning.

Working collaboratively with key leaders across the University, my team in the Provost's Office accomplished the following outcomes over six years in the role:

Community Engagement:

- Moved the Center for Civic Engagement (CCE) from the Office of Undergraduate Studies to report jointly to Academic and Student Affairs
- Financially stabilized the CCE with a combination of internal and external funding and refocused from a central service learning mission to a broader role of promoting and supporting engaged scholarship
- Recruited Administrative Faculty Fellows to assist the CCE in building a core faculty community of engaged scholarship practice and writing grants to fund related activities
- Led a University-wide task force to gather data and develop a strategic plan for community engagement, and obtained external funding for the work of the Task Force
- Developed and led the standing Provost's Council on Community Engagement, with representation from all divisions on campus
- Put in place events and awards to recognize engaged scholars and their community partners
- Started a University-wide Community Engaged Scholarship Institute to enhance faculty development
- Systematized tracking of service learning and volunteerism with the use of database software, documenting 1.5 million hours of community service in 2017
- Submitted UTEP's first application for the President's Honor Roll from the Corporation for National and Community Service and received Honor Roll Recognition
- Submitted UTEP's first application for the APLU C. Peter Magrath Community Engagement Award, winning the Southern Region's W.K. Kellogg Foundation Community Engagement Scholarship Award and becoming one of four finalists for the national award
- Won the Governor's Award for Higher Education Community Impact in 2018

Undergraduate Research:

- Moved the Campus Office of Undergraduate Research Initiatives (COURI) from the College of Science to the Provost's Office with an expanded mission to serve the entire University
- Increased undergraduate research staff from three to fourteen and supported efforts that brought in over \$40 million in public and private external funding to support innovative models of early engagement in research
- Started initiatives within COURI to support undergraduate research, scholarship, and creative activity in the arts and humanities

- Developed an annual RFP and faculty-led review process to fund UTEP students as mentored research assistants over the summer
- Developed a series of workshops to assist students in applying for summer research experiences for undergraduates (REUs) and for prestigious fellowships to fund graduate education (e.g., GRFP, Ford)
- Developed national and international partnerships for student participation in summer REUs at UTEP and other institutions
- Introduced a University-wide non-credit research course to track and assess student involvement in mentored undergraduate research, scholarship, and creative activity

Student Success:

- Established the CRLA-accredited Miner Learning Center, using a course-based peer tutoring and supplemental instruction approach to keep faculty closely engaged in the process
- Implemented legislatively mandated co-requisite developmental education courses in Math and English, requiring collaborations among faculty in Developmental English, History, Developmental Math, and Math
- Institutionalized UTEP Prep, an innovative summer bridge program for students with significant financial need
- Developed the infrastructure for automatically tracking course attendance of freshmen students in large, challenging lecture courses, and providing the data to faculty in real time
- Coordinated two large-scale pilot projects involving structured block scheduling of courses to ensure course availability and efficient scheduling for first-semester freshmen
- Directed a \$2.5 million Title V grant to use technology to improve performance in large classes, use innovative advising approaches with at-risk students, and improve communication between faculty and advisors

Research:

- Developed RFP, internal and external review, recognition, and grants management processes for internal Arts and Humanities Career Enhancement Grants and teaching reductions for grant writing
- Developed policies to permit faculty members who obtain prestigious fellowships to accept them without incurring salary and benefit costs, and introduced incentive programs to promote fellowship applications
- Coordinated semi-annual grant-writing workshops for faculty members and graduate students in the arts and humanities
- Led an institution-wide effort in conjunction with the Office of Research and Sponsored Projects to develop policy and procedures for export control in response to a UT System directive
- Served as a liaison for international institutional research partnerships, connecting faculty with similar interests and supporting the development of collaborative research projects

- Brought together cross-college interdisciplinary teams to write and submit eight large federal grant proposals

Faculty Affairs:

- Brought together stakeholders and led efforts to develop new campus-wide policies for faculty workload and faculty titles and appointments
- Integrated non-tenure-track faculty in Developmental Math, Developmental English, and Entering Student Program into Academic Affairs and faculty governance
- Streamlined processes for faculty endowments to increase accountability while decreasing unnecessary reporting
- Streamlined faculty hiring to speed processes and eliminate unnecessary paperwork
- Staffed three dean searches without use of external search consultants

Project Director, El Paso Psychology Internship Consortium, 2012-2017

In this position, I initiated and organized a multi-agency community predoctoral psychology internship consortium directed toward training bilingual, multicultural psychologists to serve the dramatically underserved U.S.-Mexico border region. I procured over \$1 million in external funding to support the project, and formed and led a steering committee initially representing the UTEP Counseling Center, the Texas Tech University Health Sciences Center Department of Psychiatry, and the William Beaumont Army Medical Center Division of Behavioral Health. The El Paso Psychology Internship Consortium (EPPIC; <http://sa.utep.edu/eppic/>) graduated its first class of interns in 2014, is a member of the Association of Psychology Postdoctoral and Internship Centers, and is fully accredited by the American Psychological Association.

Associate Chair of Psychology, 2011-2012

This position reported to the Chair of the Psychology Department. I assisted the Chair with the administration of the Department and performed the Chair's duties in his absence. I was responsible for course scheduling, writing and revising reports, advising, and dealing with student grievances, among other duties. In this position, I implemented basic enrollment management strategies, increasing undergraduate enrollment by 50% in a single semester.

President of the Faculty Senate, 2008-2010

In two year-long terms in this position, I led an Executive Council of faculty representing all academic colleges, worked closely with the Provost and President in a shared government model, liaised with the UT System administration and other Senate leaders in the System, supervised the Faculty Senate office staff, and managed the Senate budget. I increased the transparency and robustness of Senate processes and records by developing a Senate website and online portal for

public access to information. I developed improved policies regarding financial exigency. With University administration, I coordinated an emergency response to the H1N1 influenza epidemic. I also led a revision of the bylaws and committee structure to increase efficiency and participation by faculty. I received an award from the President of the University for outstanding institutional service in this capacity.

Vice President of the Faculty Senate, 2007-2008

This position reported to the President of the Faculty Senate. In the position, I was responsible for assisting the President, coordinating the work of the Senate's extensive faculty committee structure, and serving as a member of the Senate Executive Council. I engaged the Student Government Association to ensure student representation on committees and revived a number of committees by appointing new leadership and facilitating committee workload.

Chair of the University Undergraduate Curriculum Committee, 2006-2007

This position reported to the President of the Faculty Senate. In the position, I worked with administrators and faculty across campus to coordinate review and approval of all undergraduate program and curricular changes. In addition to the regular work of the committee, I coordinated the required review of all 70 undergraduate program curricula at UTEP to meet new state degree-length (120-hour maximum) mandates.

Clinical Psychology Area Head, 2005-2012

This position reported to the Chair of the Psychology Department. I was responsible for coordinating graduate student training and evaluation, and overseeing the M.A. program in clinical psychology. I worked with the faculty and state licensing boards in psychology and counseling to develop standard curricula for students pursuing different types of licensure at the M.A. level. I coordinated the placement of student interns and developed new community-based internship placements, including the first paid internships. At times, I provided direct clinical supervision for students who were unable to obtain supervision in the community that was appropriate to their needs.
