1. **Campbell Building**: Automatic door openers have been installed on the first-floor restroom doors.

2. **Library Restroom**: Facilities Services conducted an HVAC pressurization test on all restroom doors and front entrance doors. The library's front doors are ADA compliant. No door openers will be installed in the restrooms. The third-floor restrooms are being renovated.

3. **Kelly Hall**: The ADA parking for this building is located in SB2, however, Sun Bowl Drive is a busy road and can be a possible hazard for individuals with mobility challenges. It was highly recommended that Individuals use the CON bridge, although it may be a longer route it is safe. The UTEP Police Department was informed of the concern, and they indicated they would further discuss with Facilities Services. It is noted that Sun Bowl Drive is a state road, further discussion may be necessary with TXDOT.

4. **CCSB**: There was a report regarding the lobby directory not available in braille. It was determined that CASS can provide assistance when needed, classrooms signs include braille. It is also noted directories are not necessarily added for safety reasons and upkeep maintenance concerns.

5. **Email Security Banner**: Accessibility assessment was conducted and adjustments were made and implemented.

---

**IN PROGRESS**

1. **A-frame Signage**: Dr. Gary Edens, VP for Student Affairs has approved this policy. Currently working on identifying the following:
   - Placement of A-frames on campus;
   - Office that will oversee the A-frame policy;
   - Finalization of policy;
   - Placement on appropriate website.

2. **UTEP Online Map**: Working on identifying some ADA accessibility routes and incorporating them in the online map.

3. **Library Sidewalk**: The sidewalk alongside the front of the Library is still in progress of repair. Facilities Services has a target date of completion of fall 2023.

4. **Library Lobby/Coffee Kiosk**: Concern for the visually impaired bumping into tables and chairs because there were being moved around. This matter is still being reviewed. CASS conducted ADA sensitivity training with the Library Staff.

5. **ADA Advisory Committee awareness**: Marketing and Communication provided two marketing options for the ADA Advisory Committee. It is being reviewed for compliance and determination.

6. **College of Nursing**: It was reported that individuals in wheelchairs encounter challenges to open/close the restroom doors in the College of Health Sciences and Nursing Building. COHS restrooms are ADA accessible however further discuss will take place with Dean Robbins.
No referrals this quarter.

### PROACTIVE ACTIONS

1. **Open Meetings:** Mr. Mark McGurk approved for the open meetings to be conducted by long semester instead of quarterly in order for the ADA Advisory Committee to advance on reported items more promptly. UTEP community members can contact the ADA Advisory Committee or 747-PETE (7383) to report any ADA related concern, it is not necessary to wait for an open meeting.

   Open meeting conducted this quarter:
   - 4/12/2023

   Next open meetings this calendar year:
   - 9/13/2023
   - Future dates TBD

2. **Campus Walk-throughs:** They are still being conducted to identify any necessary ADA related repairs/adjustments.

3. **Transportation:** It was reported that the transportation shuttles are not always available from the student parking lots and this can create difficult situations for students & staff with ADA needs. Additional information was requested from reporter; this item is still in review.

4. **Quinn Hall:** Reported concern of ADA accessibility within this building. A walk-through was conducted to review ADA accessibility.

5. **Graham Hall:** Concern related to the ADA parking for this building. The slope makes car doors shut as a person tries to exit their vehicle and maintain stability. Motorized wheelchairs can face dangerous conditions in certain areas of the campus due to slopes. A walk-through was conducted to review ADA accessibility and ADA parking in nearby areas.

6. **Don Haskins Parking:** It was reported that the Don Haskins Center did not have enough ADA parking spaces for events. Adjustments were made for the spring 2023 Commencement Ceremonies. This item is still being reviewed by the ADA Advisory for future events.
