Joint Degree “Fast Track” Program
BS in Engineering Leadership/MBA

The College of Engineering and the College of Business Administration have partnered to offer a joint degree program for undergraduate students pursuing a BS in Engineering Leadership who are also interested in pursuing a Master of Business Administration Degree. BS-Engineering Leadership students are required to have a 3.3 cumulative GPA and 90 credit hours toward their major in order to apply for admission to the UTEP MBA program.

For BS-Engineering Leadership/MBA students, degree requirements are amended so that three courses in the MBA program count dually for three electives courses, specifically within the specialization track electives in Engineering Leadership. Students would also take three graduate courses in the College of Engineering that would count dually toward the BS in Engineering Leadership and toward the MBA. The graduate credits in Engineering Leadership consist of (a) EL 4395 Senior Design I, (b) EL 4396 Senior Design II, and (c) ENGR 4320 Innovation in Technology.

The program of study for the Master of Business Administration, which is normally 48 semester hours, would consist of:

**Required MBA Core** (33 semester hours)
- ACCT 5301 Financial Accounting
- ACCT 5311 Accounting for Management
- ECON 5311 Managerial Economics
- FIN 5311 Financial Management
- MGMT 5311 Organizational Management Seminar
- BLAW 5306 Business Law and Ethics
- MGMT 5336 Effective Management of Human Resources
- MKT 5311 Marketing Management
- MGMT 5335 Management Strategy and Policy
- OSCM 5308 Concepts of Production Management
- QMB 5311 Quantitative Methods in Business

plus six credits hours of MBA electives and nine semester hours of graduate courses in IE, MFG, or SE Engineering, in place of nine semester hours of area electives in Finance, International Business, and Operations and Supply Chain Management, Management, and Marketing. The total credits required are shown below.
