

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Annual	<i>Machaeranthera canescens</i>	Hoary tansyaster	3"	Lacy leaves with purple flowers, reaching 1-2 ft tall. Will reseed in the landscape but easy to control.	Annual	
Cactus	<i>Cylindropuntia imbricata</i>	Tree cholla	1 gal	The attractive violet flowers are followed by knobby orange fruits that stay attached to the plant for many months. The plant reaches heights of 15 feet, with most stems quite high above the ground, supported by a strong central trunk.	Cactus	
Cactus	<i>Opuntia cacanapa</i> 'Ellisiana'	Perennial Spineless Prickly Pear	5 gal	When someone asks for a cold-hardy spineless prickly pear, this is the one to use!	Cactus	Cuando alguien pide un nopal sin espinas resistente al frío, ¡esta es la que debe plantar!
Cactus	<i>Opuntia engelmannii</i>	Engelmann's prickly pear	2 gal	This native of the southwestern U.S. and northern Mexico forms large sage green pads with clusters of brown glochids and occasional long spines. Showy orange or yellow flowers in the spring are followed by rosy-red fruit.	Cactus	Este nativo del suroeste de los EE. UU. y el norte de México forma grandes almohadillas de color verde salvia con grupos de gloquidios marrones y espinas largas ocasionales. Las vistosas flores de color naranja o amarillo en la primavera son seguidas por una fruta de color rojo rosado.
Cactus	<i>Opuntia rufida</i>	Blind Prickly Pear	3 gal	A many-branched cactus with a short trunk and stems jointed into thick, fleshy, grayish-green pads with numerous reddish-brown glochids densely arrayed at areoles. It grows up to 5 feet tall. Flowers are yellow, changing to apricot or red with age, up to 4 inches long, nearly equal in diameter, and appear in spring	Cactus	
Cactus	<i>Opuntia santa rita</i> Tubac™	Tubac™ Purple Prickly Pear	5 gal	Rounded pads are a soft blue-grey color in the warm months, deepening to a rich purple in the winter.	Cactus	Las pencas redondas son de un color gris azulado suave en los meses cálidos, y se vuelven de un púrpura intenso en el invierno.
Cactus	<i>Opuntia</i> X 'Kelly's Choice'	Opuntia X 'Kelly's Choice'	5 gal	The compact growth form coupled with the intense pink flowers in the spring are a great combination.	Cactus	La forma de crecimiento compacto junto con las flores de color rosa intenso en la primavera son una gran combinación.
Cactus	<i>Opuntia x walk in beauty</i> ™ 'Apricot glory'	Opuntia Walk in Beauty™ 'Apricot glory'	5 gal	Selected especially for coldhardiness, drought tolerance, and beauty. Apricot beauty has pink flowers with red centers.	Cactus	Seleccionado especialmente por su resistencia al frío, tolerancia a la sequía y belleza. Tiene flores rosadas con centros rojos.
Cactus	<i>Opuntia x walk in beauty</i> ™ 'Garnet glow'	Opuntia Walk in Beauty™ 'Garnet glow'	5 gal	Selected especially for coldhardiness, drought tolerance, and beauty. Garnet glow has bright red flowers.	Cactus	Seleccionado especialmente por su resistencia al frío, tolerancia a la sequía y belleza. Tiene flores rojo brillante.
Cactus	<i>Opuntia x walk in beauty</i> ™ 'Mandarin sunrise'	Opuntia Walk in Beauty™ 'Mandarin sunrise'	5 gal	Selected especially for coldhardiness, drought tolerance, and beauty. Mandarin sunrise has orange flowers.	Cactus	Seleccionado especialmente por su resistencia al frío, tolerancia a la sequía y belleza. Tiene flores naranjas.
Cactus	<i>Opuntia x Walk in Beauty</i> ™ 'Ruffled papaya'	Opuntia Walk in Beauty™ Ruffled Papaya	5 gal	Papaya red, ruffled flowers in May and June. This reblooming beavertail is quite spineless with light green pads.	Cactus	Flores de color rojo papaya, con flores en mayo y junio. Vuelve a florecer y es sin espinas con pencas de color verde claro. Otras variedades de color también!
Grass	<i>Bouteloua gracilis</i> 'Blonde Ambition' PP22048	Blonde Ambition Blue Grama	1 gal	This showy selection of blue grama grass has huge chartreuse flowers that dance above the foliage	Zacate	Esta vistosa selección de zacate grama azul tiene enormes flores color chartreuse sobre el follaje.
Grass	<i>Juncus acutus</i>	Spiny rush	3"	A large rush with a spectacular architectural form. Its spiny sharp-ended stems mean that it should be planted away from walkways however.	Zacate	
Grass	<i>Muhlenbergia capillaris</i>	Regal Mist®	5 gal	A frothy haze of deep pink flowers covers the plant in the fall.	Zacate	Un espectáculo de flores de color rosa intenso cubre la planta en el otoño.
Grass	<i>Muhlenbergia lindheimeri</i> Autumn Glow®	Lindheimer muhly, big muhly	5 gal	This clump grass has a strong vertical form, with slender, light green leaves. Tall spikes of tan flowers emerge in the fall.	Zacate	Éste zacate tiene una forma vertical fuerte, con hojas delgadas de color verde claro. Espigas altas de flores color canela emergen en el otoño.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Grass	<i>Muhlenbergia rigens</i>	Deer Grass	5 gal	This adaptable grass boasts lush green-blue foliage that softens desert landscapes. In the fall it sends up slender tan flower spikes that create a stunning contrast with the mound of luxuriant foliage.	Zacate	Éste zacate adaptable cuenta con un exuberante follaje verde azulado que suaviza los paisajes desérticos. En el otoño, envía espigas de flores delgadas de color canela que crean un contraste sorprendente con el montículo de follaje exuberante.
Grass	<i>Muhlenbergia rigida</i> Nashville®	Nashville® Muhly	5 gal	This southwestern native forms a small clump of fine-textured light green foliage. In the late summer and fall it sends up purple-tan spikes that dry to a wheat color.	Zacate	This southwestern native forms a small clump of fine-textured light green foliage. In the late summer and fall it sends up purple-tan spikes that dry to a wheat color.
Grass	<i>Nassella tenuissima</i>	Mexican Feather Grass	1 gal	Light breezes turn this fine-textured and billowy grass into living sculpture. Mexican feather grass forms a clump of chartreuse thread-like leaves and stems which turns gold in the winter.	Zacate	Las brisas ligeras convierten este zacate ondulado y de textura fina en una escultura viviente. El zacate plumero mexicano forma un grupo de hojas y tallos similares a hilos de color chartreuse que se vuelven dorados en el invierno.
Grass	<i>Schizachyrium scoparium</i>	Little Bluestem	3 gal	The foliage color ranges from green to blue, and the dormant foliage varies from tan to rusty red. Little bluestem has a very upright form, with fine-textured foliage.	Zacate	El color del follaje varía de verde a azul, y el follaje inactivo varía de bronceado a rojo oxidado. Little bluestem tiene una forma muy erguida, con un follaje de textura fina.
Groundcover	<i>Dalea capitata</i>	Lemon dalea	1 gal & 5 gal	This durable, semi-deciduous groundcover has bright green, fine-textured, aromatic foliage. Small yellow flower spikes carpet Sierra Gold® in the spring and fall.	Tapizante	Esta cubierta vegetal duradera y semicaduca tiene un follaje aromático verde brillante de textura fina. Pequeñas espigas de flores amarillas alfombran Sierra Gold® en primavera y otoño
Groundcover	<i>Dalea greggii</i>	Trailing Indigo Bush	5 gal	This low-growing evergreen has the ability to form roots wherever its stems touch the ground, making it an excellent soil stabilizer and enabling it to rapidly spread 6-8 feet or more while maintaining a mounding height of only 2 feet. In spring, small purple blossoms appear in abundance, attracting butterflies to your garden.	Tapizante	Este tapizante de hoja perenne de bajo crecimiento tiene la capacidad de formar raíces dondequiera que sus tallos toquen el suelo, lo que lo convierte en un excelente estabilizador del suelo y le permite extenderse rápidamente de 6 a 8 pies o más mientras mantiene una altura de montículo de solo 2 pies. En primavera, pequeñas flores moradas aparecen en abundancia, atrayendo mariposas a su jardín.
Groundcover	<i>Delosperma Red Mountain Flame</i> ®	Iceplant, Red Mountain Flame	1 gal	A tough, vigorous cold hardy Ice Plant with large blazing orange-red flowers in late spring and early summer.	Tapizante	Una planta resistente a las heladas con grandes flores de color rojo anaranjado a finales de la primavera y principios del verano.
Groundcover	<i>Dichondra argentea</i>	Silver Ponysfoot	5"	This knockout herbaceous perennial is evergreen, with soft, rounded silver leaves that look like pewter. Although not especially cold hardy (to 20-25° F), it is fast-growing and is a popular annual in colder climates.	Tapizante	Este tapizante es siempreverde, con hojas plateadas suaves y redondeadas que parecen peltre. Aunque no es especialmente resistente al frío (hasta 20-25° F), crece rápidamente y es una planta anual popular en climas más fríos.
Groundcover	<i>Gazania rigens</i> 'Sun Gold'	Gazania 'Sun Gold'	1 gal	This trailing evergreen groundcover forms a dense mound of gray, fuzzy leaves, with bright yellow daisy-like flowers held above the foliage	Tapizante	Este tapizante de hoja perenne se arrastra y forma un montículo denso de hojas grises y difusas, con flores de color amarillo brillante parecidas a las margaritas que se sostienen sobre el follaje.
Groundcover	<i>Malephora lutea</i>	Rocky Point Iceplant	1 gal	Collected from a yard in Puerto Peñasco, Mexico, this groundcover has succulent, bright green leaves that provide a lush backdrop for yellow daisy-like flowers.	Tapizante	Recolectada de un jardín en Puerto Peñasco, México, esta tapizante tiene hojas suculentas de color verde brillante que brindan un exuberante telón de fondo para las flores amarillas parecidas a las margaritas.
Groundcover	<i>Oenothera stubbei</i>	Chihuahuan Primrose	5"	This dense ground cover has narrow, dark green leaves and large light yellow flowers which open at night and close by the following afternoon. Plants do best in part shade in the low desert. Provide moderate irrigation.		

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Groundcover	<i>Phyla nodiflora</i>	Texas frogfruit	5"	Texas Frogfruit can be used as an excellent ground cover and is evergreen in warm years. It spreads vigorously. Frogfruit generally is a good nectar plant for butterflies. It is an attractive plant rambling over boulders or the edges of hanging baskets. It also can tolerate drought and flooding.	Tapizante	Texas Frogfruit se puede utilizar como una excelente cobertura del suelo y es de hoja perenne en años cálidos. Se propaga vigorosamente. Frogfruit generalmente es una buena planta de néctar para las mariposas. Es una planta atractiva que trepa por las rocas o los bordes de las macetas colgantes. También puede tolerar la sequía y las inundaciones.
Groundcover	<i>Rosmarinus officinalis</i> 'Huntington Carpet'	Prostrate rosemary	2 gal	This prostrate rosemary selection grows 12 to 16 inches tall by 4 to 6 feet across. It has dark green aromatic foliage and deep blue flowers that attract bees.	Tapizante	Este romero crece de 12 a 16 pulgadas de alto por 4 a 6 pies de ancho. Tiene follaje aromático de color verde oscuro y flores de color azul intenso que atraen a las abejas.
Perennial	<i>Abronia fragrans</i>	Fragrant sand-verbena	4"	Vanilla-scented 3" flowers are usually white, blooming from spring through early fall. Found in sandy soils, needs well-draining soils. Best in part shade.	Perenee	
Perennial	<i>Achillea millefolium</i> 'Paprika improved'	Yarrow, Paprika Improved	1 gal	Sprays of crimson red blooms with yellow centers over aromatic, fern-like foliage. Long-lasting flowers fade to a dusty rose color over the course of the season.	Perenee	Ramilletes de flores de color rojo carmesí con centros amarillos sobre un follaje aromático parecido a un helecho. Las flores duraderas se desvanecen a un color rosa polvoriento en el transcurso de la temporada.
Perennial	<i>Agastache hybrid</i> 'ARIZONA SANDSTONE'	Hyssop, Arizona Sandstone	1 gal	Less than a foot high and wide, this beautiful perennial offers terrific heat and drought tolerance, and sports unusual pale orange and dusty purple blooms above rich licorice-scented foliage.	Perenee	
Perennial	<i>Agastache hybrid</i> 'ARIZONA SUN'	Hyssop, Arizona Sun	1 gal	A wonderful compact hybrid, from the Arizona series, featuring loose spikes of mint scented, bright yellow, tubular flowers on dense spikes appearing throughout the summer and into the fall. Grey-green foliage.	Perenee	
Perennial	<i>Agastache hybrid</i> 'ARIZONA SUNSET'	Hyssop, Arizona Sunset	1 gal	Coral pink buds burst open to calming sunset-toned flower spikes in pastel hues of lilac pink, lavender and tangerine. Brush the foliage, to enjoy an intense minty fragrance.	Perenee	
Perennial	<i>Aquilegia chrysantha</i>	Golden columbine	5"	This herbaceous perennial produces golden yellow flowers from late spring to fall. Hummingbirds are attracted to the nectar-rich flowers.	Perenee	Esta herbácea perenne produce flores de color amarillo dorado desde finales de la primavera hasta el otoño. Los colibríes se sienten atraídos por las flores ricas en néctar.
Perennial	<i>Aquilegia longissima</i>	Longspur columbine	4"	Stunning columbine native to the American SW that we cherish for its huge flowers trailed by improbably long tails held against blue foliage. Easy to grow late spring bloomer that thrives in many soil types in part shade to full sun with regular summer irrigation. To 14" tall and becoming a long lived perennial.	Perenee	
Perennial	<i>Asclepias</i> 'Butterfly Magic' PP34305	Butterfly Magic Desert Milkweed	2 gal	Butterfly Magic Milkweed is a regal, vase-shaped perennial that boasts thick, elegant stems and star-like cream colored flowers that butterflies find delectable. This plant is an essential host for Monarch Butterflies. It is also heat loving, drought tolerant, and a fantastic addition to any xeric landscape	Perenee	

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Asclepias linaria</i> 'Monarch Magnet 2.0'	Monarch Magnet	1 gal	Bright-white flower clusters emerge in springtime and stick around through fall. The leaves and flowers are an important food source for the Queen and Monarch butterfly larvae, whereas the nectar is a favorite of the adults.	Perenee	Los racimos de flores de color blanco brillante emergen en primavera y permanecen durante el otoño. Las hojas y las flores son una importante fuente de alimento para las larvas de mariposas reina y monarca, mientras que el néctar es el favorito de los adultos.
Perennial	<i>Asclepias tuberosa</i>	Butterfly weed	5 gal	Beloved for its ability to attract a variety of helpful (and beautiful) insects to the garden, butterfly weed is an easy-to-nurture herbaceous perennial that can also be found growing as a native wildflower in meadows, prairies, and forest clearings. This clump-forming perennial grows from tuberous roots to a height of one to two feet and is characterized by glossy-green, lance-shaped leaves and clusters of bright orange-to-yellow blooms that are rich with nectar and pollen.	Perenee	
Perennial	<i>Baileya multiradiata</i>	Desert Marigold	1 gal	Bright yellow daisy-like flowers appear spring through fall and may bloom continuously at lower elevations. The blossoms are carried far above the rosette of wooly, silver-gray foliage on slender stems. This plant tolerates full sun, heat, cold and drought.	Perenee	Las flores de color amarillo brillante parecidas a las margaritas aparecen de primavera a otoño y pueden florecer continuamente en elevaciones más bajas. Las flores se llevan muy por encima de la roseta de follaje lanoso de color gris plateado en tallos delgados. Esta planta tolera pleno sol, calor, frío y sequía.
Perennial	<i>Conoclinium (Eupatorium) dissectum</i>	Gregg's mistflower	1 gal	During the warm season this plant is covered with clusters of fuzzy lavender flowers that are magnets for butterflies.	Perenee	Durante la estación cálida, esta planta se cubre con racimos de flores de lavanda que son imanes para las mariposas.
Perennial	<i>Coreopsis grandiflora</i> 'Early Sunrise'	Coreopsis, Early Sunrise	1 gal	Blooming from late spring through fall, with semi-double yellow blossoms and glossy foliage. The flowers are continuous over the summer when deadheaded. Thrives in heat and sun, and requires well-drained soil.	Perenee	Florece desde finales de la primavera hasta el otoño, con flores amarillas semidobles y follaje brillante. Las flores son continuas durante el verano cuando están muertas. Prospera en el calor y el sol, y requiere un suelo bien drenado.
Perennial	<i>Gaillardia pulchera</i>	Firewheel, Indian blanket	3"	This native wildflower adds bold, fiery color to the summer garden or meadow.	Perenee	Esta flor silvestre nativa agrega un color audaz y ardiente al jardín o prado de verano.
Perennial	<i>Gaillardia X 'Arizona Apricot'</i>	Arizona Apricot Blanketflower	1 gal	A wonderful blanket of warm shades of yellow and apricot is the palette of color 'Arizona Apricot' Gaillardia will offer. This compact mound of dark green foliage is the base for the 3-3 1/2" blossoms that cover 'Arizona Apricot' all summer long.	Perenee	
Perennial	<i>Gaillardia X 'Arizona Red Shades'</i>	Arizona Red Shades Blanketflower	1 gal	Gaillardia x 'Arizona Red Shades' (Blanket Flower) is a recent introduction with dark orange-red flowers. With modest deadheading this selection will bloom all summer thriving in full, hot sun and poor soils	Perenee	
Perennial	<i>Gaillardia X 'Arizona Sun'</i>	Arizona Sun Blanketflower	1 gal	Arizona Sun is a variety selected for its profuse display of large, two-toned flowers that are produced throughout the warm season.	Perenee	Arizona Sun es una variedad seleccionada por su profusa exhibición de flores grandes de dos tonos que se producen durante la estación cálida.
Perennial	<i>Gaura lindheimeri</i> 'Belleza Dark Pink'	Dark pink gaura	1 gal	Noted for its excellent branching and short flower stems studded with star-shaped dark pink flowers. Grows up to 12-18 inches tall and 16-20 inches wide.	Perenee	
Perennial	<i>Gaura lindheimeri</i> 'Siskyou Pink'	Pink Gaura	1 gal & 5 gal	Sprays of small pink orchid-like blooms cover the stems in low deserts during the spring and fall. Plant in full sun in middle to high deserts, but provide some afternoon protection in the hottest zones.	Perenee	Rocíos de pequeñas flores rosadas parecidas a las orquídeas cubren los tallos en los desiertos bajos durante la primavera y el otoño. Plantar a pleno sol en desiertos medios a altos, pero brindar algo de sombra por la tarde en las zonas más cálidas.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Gaura lindheimeri</i> 'White'	White gaura	1 gal & 5 gal	Forms clumps about 2-4 ft tall, with white blossoms on the flower stalks. The airy movement of the flowers gives this plant its common name Butterfly Gaura.	Perenee	
Perennial	<i>Helianthus ciliaris</i>	Texas blueweed	5 inch	Can spread aggressively via roots, so best in a pot or otherwise controlled area. Attractive bluish leaves and yellow daisy-like flowers.	Perenee	
Perennial	<i>Hibiscus martianus</i>	Heartleaf rosemallow	1 gal	While valuable in the butterfly garden due to its heat and drought tolerance, Heartleaf Hibiscus has magnificent red flowers ranging from two to three inches in diameter. The flowering period is long, from spring through fall but is dependent on rainfall.	Perenee	
Perennial	<i>Lantana X 'Dallas Red'</i>	Dallas Red Lantana	1 gal	This colorful hybrid has bright red flowers with golden yellow highlights. The flower show begins in late spring and continues well into fall.	Perenee	Este híbrido tiene flores de color rojo brillante con reflejos amarillos dorados. El espectáculo de flores comienza a fines de la primavera y continúa hasta bien entrado el otoño.
Perennial	<i>Lantana X 'Radiation'</i>	Radiation Lantana	1 gal	As a moderate grower, reaching an average landscape size of 4' - 6' wide and tall. Its green foliage is complimented by clusters of small red-orange blooms with yellow accents and is known to have a long bloom season.	Perenee	
Perennial	<i>Machaeranthera asteroides</i>	Fall tansyaster	5"	Up to 2 ft tall with blue-purple flowers in the late summer and fall	Perenee	
Perennial	<i>Melempodium leucanthum</i>	Blackfoot Daisy	1 gal & 5 gal	It has narrow grey-green leaves, brittle stems, and is covered with small white daisy flowers in the warm months.	Perenee	Tiene hojas angostas de color verde grisáceo, tallos quebradizos y se cubre con pequeñas flores de margarita blanca en los meses cálidos.
Perennial	<i>Nepeta 'Walker's low'</i>	Walker's low catmint	1 gal	Named for a garden in England, not for its size, as it grows to 30". Lovely blue-violet flowers accent the aromatic grey green foliage.	Perenee	
Perennial	<i>Oenothera elata</i> ssp <i>hookeri</i>	Hooker's Evening-primrose	3"	This is one of the largest and showiest of the evening-primroses. The biennial spends its first year as a low rosette of leaves. The second year, clusters of bright yellow, 3 in., flowers are borne atop the leafy 3-6 ft. stems. These flowers unfurl in late afternoon or at dusk, are quite fragrant, and have four heart-shaped petals.	Perenee	Esta es una de las más grandes y llamativas de las primulas vespertinas. Pasa su primer año como una roseta baja de hojas. El segundo año, racimos de flores de color amarillo brillante, de 3 pulgadas, nacen encima de los tallos frondosos de 3-6 pies. Estas flores se abren al final de la tarde o al anochecer, son bastante fragantes y tienen cuatro pétalos en forma de corazón.
Perennial	<i>Penstemon baccharifolius</i>	Rock Penstemon	4"	It blooms in the late spring and summer with short terminal spikes of rose-red flowers that attract hummingbirds.	Perenee	Florece a fines de la primavera y el verano con espigas terminales cortas de flores rosadas que atraen a los colibríes.
Perennial	<i>Penstemon coboea</i>	Prairie penstemon	4"	Showy Beardtongue is aptly named for the stunning amount of blooms it produces in spring. Flower colors range from white, soft mauve, to rich magenta. Each balloon-shaped blossom typically showcases some blotchy white spots as well as potent purple nectar guides.	Perenee	
Perennial	<i>Penstemon eatoni</i>	Firecracker Penstemon	1 gal	It blooms in late winter to early spring with spikes of rich red flowers. Hummingbirds love it! Glossy dark green leaves form a low clump. Plant in full sun and well-drained soils. It reseeds readily.	Perenee	Florece a fines del invierno hasta principios de la primavera con espigas de flores rojas intensas. ¡A los colibríes les encanta! Las hojas de color verde oscuro brillante forman un grupo bajo. Plantar a pleno sol y suelos bien drenados. Se regenera fácilmente con las nuevas semillas.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Penstemon jamesii</i>	James's penstemon	4"	Tubular lavender-pink flowers with paler pink lobes are borne in late spring to early summer. The foliage is evergreen. Grow in well-drained soil.	Perenee	
Perennial	<i>Penstemon palmeri</i>	Scented Penstemon	4"	Native to elevations from 4000 to 6000 feet, this perennial sends up spectacular spikes of huge, light pink, fragrant flowers from March to September. The basal rosette is composed of blue-green waxy leaves.	Perenee	Originaria de elevaciones de 4000 a 6000 pies, esta planta perenne envía espectaculares espigas de flores enormes, de color rosa claro y fragantes de marzo a septiembre. La roseta basal se compone de hojas cerosas de color verde azulado.
Perennial	<i>Penstemon superbus</i>	Superb Penstemon	4"	This stunner shoots up spikes of vivid coral flowers as tall as six feet in the spring. Large blue-green leaves often have a tinge of purple. Hummingbirds love the flowers.	Perenee	Esta planta produce espigas de flores de color coral vivo de hasta seis pies de altura en la primavera. Las hojas grandes de color verde azulado a menudo tienen un tinte púrpura. Los colibríes aman las flores.
Perennial	<i>Poliomntha incana</i>	Hoary rosemary-mint	5"	An aromatic shrub, with a strong smell of mint, producing few to many stems to heights of between 1 and 3 feet. Plants can form large clumps, with an overall rounded appearance. Flowers are light pink. Grow in well-drained soils.	Perenee	
Perennial	<i>Rudbeckia hirta</i> 'DENVER DAISY'	Denver Daisy Black-eye Susan	1 gal	This large-flowered cultivar is long- and heavy-blooming, setting huge 3- to 4-inch daisylike flowers with golden-yellow rays and a rich mahogany center and cone.	Perenee	
Perennial	<i>Ruellia brittoniana</i>	Mexican petunia	1 gal	Attractive plants to 4 x 4 feet, has blue bell-shaped flowers in season. Best in morning sun to light shade, amended soil, good drainage and regular water. Can be grown in containers. May go dormant in winter but recovers quickly.	Perenee	
Perennial	<i>Ruellia brittoniana</i> 'Katie'	Purple Dwarf Ruellia	1 gal	This compact herbaceous perennial has long, narrow, dark green leaves and blooms heavily during the warm months with showy tubular, petunia-like blue flowers. Plant in full sun or part shade, and provide moderate irrigation.	Perenee	Esta perenne compacta tiene hojas largas, angostas, de color verde oscuro y florece intensamente durante los meses cálidos con vistosas flores tubulares de color azul parecido a la petunia. Plantar a pleno sol o sombra parcial, y proporcionar riego moderado.
Perennial	<i>Ruellia brittoniana</i> 'Katie'	Pink Dwarf Ruellia	1 gal	This compact herbaceous perennial has long, narrow, dark green leaves and blooms heavily during the warm months with showy tubular, petunia-like pink flowers. Plant in full sun or part shade, and provide moderate irrigation.	Perenee	Esta perenne compacta tiene hojas largas, angostas, de color verde oscuro y florece intensamente durante los meses cálidos con vistosas flores tubulares de color azul parecido a la petunia. Plantar a pleno sol o sombra parcial, y proporcionar riego moderado.
Perennial	<i>Russelia equisetiformis</i>	Coral Fountain Grass	1 gal	Firecracker plant is a wonderful, 'free spirit' of a plant. It attracts butterflies. Be careful not to let Bermuda grass or other perennial grasses establish around and beneath it. These grasses will tend to grow up into the coral bush crown. If that happens, then eradication of these grasses will be tough.	Perenee	
Shrub	<i>Salvia chamaedryoides</i>	Mexican Blue Sage	5 gal	This low mounding perennial has small, fragrant, silvery leaves that make an effective backdrop for the short spikes of bright blue flowers.	Arbusto	Esta planta perenne chaparrilla tiene hojas pequeñas, fragantes y plateadas que forman un telón de fondo efectivo para las espigas cortas de flores de color azul brillante.
Perennial	<i>Salvia greggii</i>	Autumn Sage	5 gal	Several cultivars available. Beautiful clusters of red flowers are produced at branch tips all through the warm season, but in the low desert flower production will drop off in the summer.	Perenee	Varios cultivares disponibles. Hermosos racimos de flores rojas se producen en las puntas de las ramas durante toda la estación cálida, pero en el desierto bajo la producción de flores se reduce en el verano.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Salvia greggii</i> Sierra Linda™	Autumn Sage Sierra Linda™	5 gal	This woody perennial is native to Texas and Mexico, and forms a rounded mound of glossy green leaves. In the spring and fall it blooms profusely with small hot pink flowers, attracting hummingbirds.	Perenee	Esta planta perenne leñosa es originaria de Texas y México, y forma un montículo redondeado de hojas de color verde brillante. En primavera y otoño florece profusamente con pequeñas flores de color rosa intenso que atraen a los colibríes.
Perennial	<i>Salvia leucantha</i>	Mexican Bush Sage	5 gal	This Mexican native has narrow, aromatic gray-green leaves with wooly white undersides. The velvety purple flower spikes produced during the spring and summer attract hummingbirds.	Perenee	Esta planta nativa de México tiene hojas angostas y aromáticas de color verde grisáceo con la parte inferior blanca y lanosa. Las espigas de flores de color púrpura aterciopelado que se producen durante la primavera y el verano atraen a los colibríes.
Perennial	<i>Salvia</i> X 'Ultra Violet'	Ultra Violet Sage	2 gal	'Ultra Violet' is a cross between blue flowered <i>Salvia lycioides</i> and pink <i>Salvia greggii</i> . This stunning <i>Salvia</i> grows to 20" tall and 28" wide and will display a showy set of vibrant purple blooms from late spring through October.	Perenee	Ultra Violet' es un híbrido entre <i>Salvia lycioides</i> de flores azules y <i>Salvia greggii</i> rosa. Esta impresionante <i>Salvia</i> crece hasta 20" de alto y 28" de ancho y mostrará un llamativo conjunto de vibrantes flores de color púrpura desde finales de la primavera hasta octubre.
Perennial	<i>Salvia</i> X Raspberry Delight®	Raspberry salvia	5 gal	Masses of raspberry red flowers are produced all through the warm season, but flowering slows down during the summer in the low deserts.	Perenee	Se producen masas de flores de color rojo frambuesa durante toda la estación cálida, pero la floración se ralentiza durante el verano en los desiertos bajos.
Perennial	<i>Scutellaria potosina</i>	Mexican skullcap	4"	Small mounding herb with lavender and white flowers. Grows in dry sandy soil, desert washes, and grasslands.	Perenee	
Perennial	<i>Sphaeralcea ambigua</i> 'Orange Crush' PPAF	Desert Globe Mallow	1 gal	'Orange Crush' produces abundant orange flowers from late December through June and thrives in both the landscape and containers. It is ideal for dry, low-water areas.	Perenee	'Orange Crush' produce abundantes flores naranjas desde finales de diciembre hasta junio y prospera tanto en el suelo como en macetas. Es ideal para áreas secas y con poca agua.
Perennial	<i>Stachys byzantina</i> 'Silver Carpet'	Silver Carpet Lamb's Ear	1 gal	A handsome, fuzzy, grey-leaved groundcover that thrives in problem areas such as dry shade and poor soils.	Perenee	
Perennial	<i>Tetaneuris acaulis</i>	Angelita Daisy	1 gal and 5 gal	It forms a compact, dense mound of slender green grass-like leaves. Golden daisy-like blossoms perch above the foliage on tall, leafless stems during the warm months.	Perenee	Forma un montículo compacto y denso de hojas verdes delgadas parecidas a la hierba. Flores doradas parecidas a margaritas se posan sobre el follaje en tallos altos y sin hojas durante los meses cálidos.
Perennial	<i>Trixis californica</i>	American threefold	5"	A subshrub that grows to be 3 feet tall and 3 feet wide. It has bright yellow daisy-like flowers that are pollinated by hummingbirds, bees, and butterflies.	Perenee	
Perennial	<i>Verbena goodingii</i>	Gooding's Verbena	5 gal	Its fragrant, lilac-purple flowers begin opening in clusters just above the fuzzy grey-green foliage in spring, and will continue to bloom through fall if given supplemental water through the heat of the summer.	Perenee	
Perennial	<i>Zephyranthes candida</i>	White Rain Lily	1 gal	Native to Central and South America, this little bulb forms a clump of narrow, glossy, dark green leaves. In the summer and early fall, it is covered with waxy white flowers.	Perenee	Originario de América Central y del Sur, este pequeño bulbo forma un grupo de hojas angostas, brillantes y de color verde oscuro. En verano y principios de otoño, se cubre de flores blancas cerosas.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Amorpha fruticosa</i>	False Indigo Bush	5 gal	False indigo-bush is a 6-12 ft., loose, airy shrub which often forms dense thickets. Plants develop a leggy character with the majority of their pinnately compound, fine-textured foliage on the upper third of the plant. Flowers small, purple to dark blue with yellow stamens extending beyond the single petal, crowded in narrow, 3-6 in., spikelike clusters at or near the ends of the branchlets, appearing from April to June. This is a deciduous plant.	Arbusto	
Shrub	<i>Buddleja marrubifolia</i>	Wooly Butterfly Bush	5 gal	Orange, marble-sized blossoms occur throughout the year, with the heaviest bloom in spring and summer. They are not extremely showy, but they attract many butterflies. This Chihuahuan Desert native is very tolerant of heat, cold, intense sun and drought.	Arbusto	Las flores anaranjadas del tamaño de una canica ocurren durante todo el año, con la floración más abundante en primavera y verano. No son muy vistosas, pero atraen a muchas mariposas. Este nativo del Desierto Chihuahuense es muy tolerante al calor, frío, sol intenso y sequía.
Shrub	<i>Caesalpinia mexicana</i>	Mexican bird of paradise	5 gal	This large thornless shrub or small tree is native to northern Mexico. It has lush green compound leaves and large lemon-yellow flower spikes. Flowers develop off and on during the warm months, and are followed by large woody seedpods. In mild climates it is evergreen, but leaves drop in colder regions. It thrives in full sun and reflected heat, but requires good drainage.	Arbusto	
Shrub	<i>Caesalpinia pulcherrima</i>	Red Bird of Paradise	5 gal	In the low deserts it is usually cut back almost to the ground in the winter months. It quickly regrows a rosette of upright, woody stems bearing lush compound leaves in the early summer, followed by bright orange and red flowers with long red stamens.	Arbusto	En los desiertos bajos por lo general se corta casi hasta el suelo en los meses de invierno. Rápidamente vuelve a crecer una roseta de tallos leñosos verticales que llevan exuberantes hojas compuestas a principios del verano, seguidas de flores de color naranja brillante y rojo con largos estambres rojos.
Shrub	<i>Chrysactinia mexicana</i>	Damianita	1 gal & 5 gal	This small evergreen shrub has fragrant, bright green needlelike foliage. It blooms heavily in the fall and spring with golden daisy-like flowers.	Arbusto	Este pequeño arbusto de hoja perenne tiene un follaje fragante, de color verde brillante, parecido a una aguja. Florece intensamente en otoño y primavera con flores doradas parecidas a margaritas.
Shrub	<i>Dalea versicolor</i>	Weeping dalea	5 gal	It has an open, rounded form with delicate gray-green foliage. Masses of purple flowers are produced in the spring months.	Arbusto	Tiene una forma abierta y redonda con un delicado follaje verde grisáceo. Se producen masas de flores moradas en los meses de primavera.
Shrub	<i>Ericameria laricifolia</i> Aguirre™	Turpentine bush 'Aguirre'	5 gal	The aromatic needlelike leaves are covered with a sticky resin that smells like turpentine. Masses of showy yellow daisy-like flowers are produced at the branch tips in the fall.	Arbusto	Las aromáticas hojas en forma de aguja están cubiertas con una resina pegajosa que huele a trementina. En el otoño se producen masas de llamativas flores amarillas parecidas a margaritas en las puntas de las ramas.
Shrub	<i>Hamelia patens</i>	Firecracker Bush	5 gal	Tubular orange-red to red flowers appear in terminal clusters in summer and fall. Leaves turn red in fall. Reddish stems and leafstalks. Flowers give way to small dark fruits. Butterflies and hummingbirds are reportedly attracted to the flowers, and birds enjoy the fruits.	Arbusto	
Shrub	<i>Justicia spicigera</i>	Mexican Honeysuckle	5 gal	This lush evergreen shrub is native to Mexico and South America. It has large, oval, velvety, medium green leaves. Bright orange tubular flowers are borne in clusters all year in warmer areas and during the summer in colder regions.	Arbusto	Este exuberante arbusto de hoja perenne es originario de México y América del Sur. Tiene hojas grandes, ovaladas, aterciopeladas, de color verde medio. Las flores tubulares de color naranja brillante nacen en racimos durante todo el año en las zonas más cálidas y durante el verano en las regiones más frías.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Larrea tridentata</i>	Creosote Bush	5 gal	This tough evergreen shrub is especially aromatic after a rain. In the wild it has an open form with sparse olive green foliage on woody stems. Irrigated plants will be much more lush and grow faster. Small yellow spring flowers are followed by fuzzy seedpods.	Arbusto	Este resistente arbusto de hoja perenne es especialmente aromático después de una lluvia. En la naturaleza tiene una forma abierta con un follaje escaso de color verde olivo sobre tallos leñosos. Las plantas irrigadas serán mucho más exuberantes y crecerán más rápido. Pequeñas flores amarillas de primavera son seguidas por sus semillas.
Shrub	<i>Leucophyllum candidum</i> 'Microburst' PPAF	Microburst Texas Sage	1 gal	Microburst is the first true dwarf Leucophyllum on the market. With a smaller stature of 3' by 3', this clonal selection stays compact; therefore, requires very little maintenance. Bulletproof, Microburst can withstand heavy, damp soils without the threat of damping off. The ultraviolet bell shaped flowers contrast against the silver foliage of this Texas Sage.	Arbusto	
Shrub	<i>Leucophyllum frutescens</i> 'Compacta'	Compact Texas Ranger	5 gal	Its dense, rounded form requires little or no pruning, and its mature size of about 5 feet tall and wide is still small enough to warrant a space in most residential gardens	Arbusto	Su forma densa y redondeada requiere poca o ninguna poda, y su tamaño maduro de aproximadamente 5 pies de alto y ancho es lo suficientemente pequeño como para merecer un espacio en la mayoría de los jardines residenciales.
Shrub	<i>Leucophyllum frutescens</i> 'Green Cloud'	Texas Ranger 'Green Cloud'	5 gal	This semi-evergreen, fast-growing shrub has lush green foliage and blooms frequently in the summer and fall with showy rose-pink flowers	Arbusto	Este arbusto semiperennifolio de crecimiento rápido tiene un exuberante follaje verde y florece con frecuencia en el verano y el otoño con vistosas flores rosadas.
Shrub	<i>Leucophyllum frutescens</i> 'San Antonio Rose' PP33454	San Antonio Rose Texas Sage PP33454	1 gal	Silver leafed branches burst with bright rose pink blooms continuously throughout the summer, especially when humidity spikes. San Antonio Rose won't damp off like other Texas Rangers-- the crop was bred to thrive in landscapes throughout the Southwest.	Arbusto	Las ramas de hojas plateadas estallan con flores rosadas brillantes continuamente durante todo el verano, especialmente cuando la humedad aumenta. San Antonio Rose no se marchitará como otros Cenizos: la cosecha fue criada para prosperar en los paisajes de todo el suroeste.
Shrub	<i>Leucophyllum langmaniae</i> 'Lynn's Legacy'	Lynn's Legacy Sage	5 gal	This evergreen shrub grows moderately, forming a dense, rounded mound of sage green foliage. Masses of lavender flowers are produced in the summer and fall. This selection is not as dependent on changes in relative humidity for flowering, which means that it blooms more often during the warm months.	Arbusto	Este arbusto de hoja perenne crece moderadamente, formando un montículo denso y redondeado de follaje verde salvía. Las masas de flores de lavanda se producen en verano y otoño. Esta selección no depende tanto de los cambios en la humedad relativa para la floración, lo que significa que florece más a menudo durante los meses cálidos.
Shrub	<i>Leucophyllum langmaniae</i> Rio Bravo®	Rio Bravo® Sage	5 gal	This dense evergreen shrub has a natural rounded form, with lush, deep green leaves. Sprinkles of lavender flowers are produced on and off during the summer and fall months during periods of high humidity.	Arbusto	Este denso arbusto de hoja perenne tiene una forma redondeada natural, con hojas exuberantes de color verde intenso. Los brotes de flores de color lavanda se producen de forma intermitente durante los meses de verano y otoño durante los períodos de alta humedad.
Shrub	<i>Leucophyllum pruinatum</i> Sierra bouquet™	Fragrant Sage	5 gal	Open and sprawling in form, this clone has silver-grey foliage and extremely fragrant violet flowers. The flowers smell like grape bubble gum, and are produced on and off during the summer and fall.	Arbusto	De forma abierta y extensa, este clon tiene un follaje gris plateado y flores violetas extremadamente fragantes. Las flores huelen a chicle de uva y se producen de forma intermitente durante el verano y el otoño.
Shrub	<i>Leucophyllum x laevigatum</i> 'Purple Rain'	Purple Rain	1 gal	Texas Sage is notorious for cold tolerance, drought resistance, and love for hot, sunny climates as it thrives in poor soils throughout the Southwest. Purple Rain grows densely upright and requires little maintenance. Birds and bees are attracted to its lightly fragrant flowers.	Arbusto	El cenizo es conocido por su tolerancia al frío, resistencia a la sequía y amor por los climas cálidos y soleados, ya que prospera en suelos pobres en todo el suroeste. Purple Rain crece densamente erguida y requiere poco mantenimiento. Las aves y las abejas se sienten atraídas por sus flores ligeramente fragantes.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Leucophyllum zygophyllum</i> Cimarron®	Cimarron® Sage, Cenizo	5 gal	This petite evergreen shrub has a soft, rounded form, with distinctively cupped grey-green leaves. Masses of blue flowers are produced on and off during the summer and fall.	Arbusto	Este pequeño arbusto de hoja perenne tiene una forma suave y redondeada, con hojas de color verde grisáceo distintivamente ahuecadas. Se producen masas de flores azules de forma intermitente durante el verano y el otoño.
Shrub	<i>Rosmarinus officialis</i> 'Tuscan Blue'	Upright Rosemary Tuscan Blue	1 gal	Quickly forms an upright hedge of aromatic, needle-like evergreen foliage. Profuse clear blue flowers add a charming effect. Leaves can be used as a flavorful herb in cooking.	Arbusto	
Shrub	<i>Rosmarinus officinalis</i> 'Hill Hardy'	Hill Hardy Upright Rosemary	2 gal	An irregular, upright growing variety that blooms in early to mid-spring with large, light blue flowers.	Arbusto	
Shrub	<i>Salvia clevelandii</i>	Chaparral Sage	5 gal	This evergreen shrub has highly aromatic gray-green foliage. The unusual flower spikes consist of clusters of blue-violet flowers stacked like shish-kebobs along the spike.	Arbusto	Este arbusto de hoja perenne tiene un follaje verde grisáceo muy aromático. Las espigas de flores inusuales consisten en racimos de flores azul violeta apiladas como brochetas a lo largo de la espiga.
Shrub	<i>Tecoma</i> 'Red Hot' PP31610	Red Hot Tecoma	1 gal	This new selection boasts a unique color, compact habit and improved drought tolerance. Lightly fragrant, trumpet-shaped flowers emerge deep crimson red, maturing to fiery, orange red with yellow centers. They'll brighten up your landscape from early spring to late fall, attracting butterflies and hummingbirds to your garden.	Arbusto	
Shrub	<i>Tecoma stans</i>	Arizona yellow bells	5 gal	Fast-growing semi-deciduous shrub with slender, gray-brown branches and clusters of bright yellow, trumpet-shaped flowers.	Arbusto	
Shrub	<i>Tecoma</i> X 'Orange Jubilee'	Orange Jubilee	5 gal	This semi-deciduous, upright woody shrub has lush green compound leaves and produces masses of orange trumpet-shaped flowers during the warm months.	Arbusto	Este arbusto leñoso erguido y semicaducifolio tiene hojas compuestas de un verde exuberante y produce masas de flores naranjas en forma de trompeta durante los meses cálidos.
Shrub	<i>Tecoma</i> X 'Red bells'	Red bells Tecoma	5 gal	Flowers of rich reds and deep orangey peach! 5-6' feet tall, blooms copiously spring through fall. Heat & drought tolerant, full sun.	Arbusto	
Shrub	<i>Vauquelinia californica</i>	Arizona Rosewood	5 gal	The dark green, leathery, lance-shaped leaves resemble those of oleander, except the margins are serrated. Flattened clusters of tiny white flowers appear in late spring, eventually developing into persistent tan fruit.	Arbusto	Las hojas de color verde oscuro, coriáceas y en forma de lanza se parecen a las de la adelfa, excepto que los márgenes son dentados. Los racimos aplanados de diminutas flores blancas aparecen a fines de la primavera y eventualmente se convierten en frutos de color canela persistentes.
Shrub	<i>Vauquelinia californica</i> v. <i>pauciflora</i>	Arizona Rosewood v. pauciflora	5 gal	This variety of <i>Vauquelinia californica</i> has slightly smaller and thicker leaves, smaller flower clusters, and a limited native range. This selection is native to southwestern New Mexico, southeastern Arizona and into northern Mexico.	Arbusto	Esta variedad de <i>Vauquelinia californica</i> tiene hojas un poco más pequeñas y gruesas, racimos de flores más pequeños y un rango nativo limitado. Esta selección es originaria del suroeste de Nuevo México, el sureste de Arizona y el norte de México.
Shrub	<i>Vauquelinia corymbosa</i> v. <i>angustifolia</i>	Chisos Rosewood	5 gal	This tough evergreen shrub is native to the Chisos Mountains of the Trans-Pecos region of southwest Texas, at elevations from 3000 to 5000 feet. Its leaves are more slender and sharply toothed than the species. Plant in full sun, very drought tolerant once established.	Arbusto	

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Succulent	<i>Agave albomarginata</i>	White-margined agave	5 gal	Evergreen, short-stemmed, succulent plant forming an open rosette of leaves. There are around 16 - 30 leaves on mature plants, each of which can be up to 2 ft long and 1 inch wide near the base.	Suculenta	
Succulent	<i>Agave bracteosa</i>	Squid Agave	3 gal	Slow-growing and cold-hardy, it forms a graceful urn-shaped rosette of up to 20 slender, pale green, and toothless leaves that arch and twist back towards the outside of the plant	Suculenta	
Succulent	<i>Agave havardiana</i>	Harvard's Century Plant	3 gal	Grows to an imposing size (30" tall x 36" wide) at maturity! Native to the mountains of west Texas, this succulent has proven itself to be very cold-hardy. Drought resistant/drought tolerant plant.	Suculenta	
Succulent	<i>Agave lechuguilla</i>	Lechuguilla	1 gal & 5 gal	Yellow-green, succulent rosettes of lechuguilla stand 1 to 2 feet tall and sucker readily. Strong spines are tipped on the edges of thick, leathery leaves. It takes 12-15 years for the lechuguilla to store enough food for the large flower stalk, which grows amazingly fast to 15 feet tall.	Suculenta	
Succulent	<i>Agave parryi var. truncata</i>	Artichoke Agave	2 gal	The dense symmetrical form and wide blue-gray leaves make this one of the most ornamental agaves available. Found along the Durango-Zacatecas border in Mexico, it grows in grasslands at 7500 feet in elevation.	Suculenta	La forma densa y simétrica y las hojas anchas de color gris azulado hacen de este uno de los agaves más ornamentales disponibles. Encontrado a lo largo de la frontera Durango-Zacatecas en México, crece en pastizales a 7500 pies de altura.
Succulent	<i>Agave schidigera Durango Delight™</i>	Agave schidigera 'Durango Delight™'	1 gal	This compact, symmetrical agave has dark green leaves which are decorated with white markings and thin white marginal fibers. The leaf edges are smooth, and end in a sharp spine.	Suculenta	Este agave compacto y simétrico tiene hojas de color verde oscuro que están decoradas con marcas blancas y finas fibras marginales blancas. Los bordes de las hojas son lisos y terminan en una espina afilada.
Succulent	<i>Agave victoria-reginae</i>	Queen Victoria Agave	3 gal	This small, compact agave forms a symmetrical rosette. The short, stout leaves are dark green with distinctive white markings.	Suculenta	Este agave pequeño y compacto forma una roseta simétrica. Las hojas cortas y robustas son de color verde oscuro con marcas blancas distintivas.
Succulent	<i>Agave weberi</i>	Weber Agave	5 gal	This is one of the largest agave species, with wide, fleshy gray-green leaves. The leaves usually have fine teeth along the margins of the lower end of the leaf and a sharp terminal spine.	Suculenta	Esta es una de las especies de agave más grandes, con hojas anchas, carnosas, de color verde grisáceo. Las hojas suelen tener dientes finos a lo largo de los márgenes del extremo inferior de la hoja y una espina terminal afilada.
Succulent	<i>Aloe x 'blue elf'</i>	Blue Elf Aloe	2 gal	This petite clumping aloe forms dense rosettes of narrow, powdery silver-blue fleshy leaves. Short spikes of orange-red flowers rise above the foliage from January to April, attracting hummingbirds. Unlike most aloes, this selection tolerates full sun and reflected heat.	Suculenta	Este pequeño aloe agrupado forma densas rosetas de hojas carnosas estrechas, de color azul plateado. Picos cortos de flores de color rojo anaranjado se elevan sobre el follaje de enero a abril, atrayendo a los colibríes. A diferencia de la mayoría de los aloes, esta selección tolera pleno sol y calor reflejado.
Succulent	<i>Bulbine frutescens 'Tiny Tangerine'</i>	Tiny Tangerine Bulbine	1 gal	From fall through spring the plants are topped by 12-inch-long spikes of orange flowers	Suculenta	Desde el otoño hasta la primavera, las plantas están coronadas por espigas de flores naranjas de 12 pulgadas de largo.
Succulent	<i>Bulbine frutescens 'Yellow'</i>	Yellow bulbine	1 gal	This clumping ground cover grows 1' tall and 1'-3' wide. It produces 12"-18" flower stalks that bear clusters of small yellow flowers almost all year. Succulent evergreen leaves are fragile, so locate away from foot traffic.	Suculenta	
Succulent	<i>Echeveria 'Elegans'</i>	Echeveria, Elegans	3.5"	An evergreen succulent with tight rosettes of fleshy, spoon-shaped, paly silvery-green leaves.	Suculenta	Una suculenta de hoja perenne con rosetas apretadas de hojas carnosas, en forma de cuchara, de color verde plateado pálido.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Succulent	<i>Euphorbia antisiphilitica</i>	Candelilla	2 gal & 3 gal	The nearly leafless gray-green stems are pencil-like in appearance and have a waxy coating. Small creamy white flowers with red centers are produced in clusters following spring and summer rains.	Suculenta	Los tallos gris verdosos, casi sin hojas, parecen lápices y tienen una capa cerosa. Pequeñas flores de color blanco cremoso con centros rojos se producen en racimos después de las lluvias de primavera y verano.
Succulent	<i>Hesperaloe campanulata</i> 'mswnnuevo leon' <i>Lionheart</i> ®pp320069	Lionheart ®	5 gal	Lionheart® is a selection of Hesperaloe campanulata that was chosen from our breeding program for its sturdy, upright flower spike to 10 feet and extended flower show. Blooms will begin mid-spring as with most other Hesperaloes, but can last all summer long even in the hottest climates. Individual blossoms have deep pink buds that open up to a nice iridescent white center.	Suculenta	Lionheart® es una selección de Hesperaloe campanulata que fue elegida de nuestro programa de reproducción por su espiga floral robusta y erguida de hasta 10 pies y su exhibición floral extendida. Las floraciones comenzarán a mediados de la primavera como con la mayoría de los otros Hesperaloes, pero pueden durar todo el verano incluso en los climas más cálidos. Las flores individuales tienen capullos de color rosa intenso que se abren en un bonito centro blanco iridiscente.
Succulent	<i>Hesperaloe parviflora</i> 'MSWNPARED' Sandia Glow®	Sandia Glow ® Red Yucca	2 gal	This selection will stay a little smaller than the species, growing to a mature size of under 3 feet tall and wide. This selection has large bloom stalks with watermelon red flowers	Suculenta	Esta selección se mantendrá un poco más pequeña que la especie, y crecerá hasta alcanzar un tamaño maduro de menos de 3 pies de alto y ancho. Esta selección tiene grandes tallos florales con flores de color rojo sandía.
Succulent	<i>Hesperaloe parviflora</i> 'MSWNPERRA' Desert Dusk®	Desert Dusk ® Red Yucca	2 gal	This selection has unique maroon flowers on an upright and compact flower spike	Suculenta	Esta selección tiene flores granate únicas en una espiga de flores vertical y compacta.
Succulent	<i>Hesperaloe parviflora</i> 'PERPA' <i>Brakelights</i> ®	Brakelights ® Red Yucca	3 gal	This selection of Hesperaloe parviflora has traffic-stopping, vivid red flowers and a compact growth habit.	Suculenta	Esta selección de Hesperaloe parviflora tiene flores rojas vivas que detienen el tráfico y un hábito de crecimiento compacto.
Succulent	<i>Hesperaloe X 'MSWNIvory Swan'</i> <i>Nite Lights</i> ®	Night lights ® (hesp parv x funifera)	5 gal	his variety is a cross of Hesperaloe parviflora and funifera that combines the best of both plants. Nite Lights® is fast-growing and will reach about 4-5' tall and wide. Leaves are a nice deep green and covered with many filaments along the edges. Spikes of creamy white flowers are produced in the spring and summer and will persist for many months.	Suculenta	Esta variedad es un cruce de Hesperaloe parviflora y funifera que combina lo mejor de ambas plantas. Nite Lights® es de rápido crecimiento y alcanzará alrededor de 4-5' de alto y ancho. Las hojas son de un bonito color verde oscuro y están cubiertas con muchos filamentos a lo largo de los bordes. Las espigas de flores de color blanco cremoso se producen en la primavera y el verano y persistirán durante muchos meses.
Succulent	<i>Hesperaloe X 'PERFU' 'Pink Parade'</i>	Pink Parade Hesperaloe	5 gal	The leaves are bright green, about an inch wide, and form an upright clump to 3-4 feet tall and wide. The 8-foot-tall flower spikes remain very straight, forming a linear pink line when planted in rows.	Suculenta	Las hojas son de color verde brillante, de aproximadamente una pulgada de ancho, y forman un grupo vertical de 3 a 4 pies de alto y ancho. Las espigas de flores de 8 pies de altura permanecen muy rectas, formando una línea rosada lineal cuando se plantan en hileras.
Succulent	<i>Hesperaloe parviflora</i> Desert <i>Flamenco</i> ®	Desert Flamenco ® Red Yucca	5 gal	Compared to regular Red Yucca, this plant displays loads of side branching on the flower spikes creating waterfalls of showy, tubular, pinkish-orange flowers.	Suculenta	En comparación con Red Yucca regular, esta planta muestra muchas ramificaciones laterales en las espigas de las flores que crean cascadas de llamativas flores tubulares de color rosa anaranjado.
Succulent	<i>Nolina microcarpa</i>	Bear Grass	1 gal	This grass-like plant forms a clump of slender leathery green leaves with finely toothed margins.	Suculenta	Esta planta parecida a un zacate forma un grupo de hojas verdes delgadas y coriáceas con márgenes finamente dentados.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Succulent	<i>Pedilanthus macrocarpus</i> 'Chilly Willy' PP25989	Chilly Willy Lady's Slippers	2 gal	These pinkish-orange "slippers", the flowers, stand out conspicuously against the plant's smooth, upright lime-green stems from late spring through the summer, attracting hummingbirds as they open. Chilly Willy's small, deciduous leaves are not significant to its appearance, and they often fall from the thick, waxy stems at the first sign of cooler weather and when experiencing drought. Their absence from the succulent stems accentuates the strong upright lines that make this plant such a fantastic vertical accent.	Suculenta	Las hojas pequeñas y caducas de Chilly Willy no son significativas para su apariencia y, a menudo, se caen de los tallos gruesos y cerosos a la primera señal de un clima más fresco y cuando experimenta sequía.
Succulent	<i>Portulacaria afra</i>	Elephant Food	1 gal	Originally from Africa, it is extremely drought, heat, and sun tolerant, while also accepting more moisture than our desert succulents. This plant's segmented stems are bright red to reddish-brown; beautifully contrasting its rounded, fleshy, lime-green leaves.	Suculenta	Originaria de África, es extremadamente tolerante a la sequía, el calor y el sol, al mismo tiempo que acepta más humedad que nuestras suculentas del desierto. Los tallos segmentados de esta planta son de color rojo brillante a marrón rojizo; bellamente contrastando sus hojas redondeadas, carnosas, de color verde lima.
Succulent	<i>Yucca baccata</i>	Banana Yucca	5 gal	Plants vary from single trunk specimens to those with clusters of up to ten trunks. Foliage color may vary considerably as well, from gray-green to blue-green. The leaves are 16"- 32" long and 1"- 2" wide, with curly filaments along the margins and sharp terminal spines.	Suculenta	Las plantas varían desde especímenes de un solo tronco hasta aquellos con grupos de hasta diez troncos. El color del follaje también puede variar considerablemente, de gris verdoso a azul verdoso. Las hojas miden de 16 a 32 pulgadas de largo y de 1 a 2 pulgadas de ancho, con filamentos rizados a lo largo de los márgenes y espinas terminales afiladas.
Succulent	<i>Yucca elata</i>	Soaptree Yucca	5 gal	This treelike yucca grows in southeastern Arizona, New Mexico, west Texas and Mexico. A spherical head of narrow, flexible leaves crowns each branch.	Suculenta	Esta yuca arborescente crece en el sureste de Arizona, Nuevo México, el oeste de Texas y México. Una cabeza esférica de hojas estrechas y flexibles corona cada rama
Succulent	<i>Yucca pallida</i>	Pale Leaf Yucca	1 gal	Native to north-central Texas, this low clumping yucca makes an excellent low maintenance groundcover. Its flexible, pale blue-green leaves measure 1 inch wide by 1 foot long with finely serrated, light yellow to white margins.	Suculenta	Originaria del centro-norte de Texas, esta yuca de aglomeración baja es una excelente cubierta vegetal de bajo mantenimiento. Sus hojas flexibles de color verde azulado pálido miden 1 pulgada de ancho por 1 pie de largo con márgenes finamente aserrados, de color amarillo claro a blanco.
Succulent	<i>Yucca schottii</i>	Mountain yucca	5 gal	Mountain Yucca is useful in many situations, as it tolerates full sun, shade, heat and cold. The thin, slightly pliable leaves are blue-green with a narrow, brown margin.	Suculenta	Mountain Yucca es útil en muchas situaciones, ya que tolera pleno sol, sombra, calor y frío. Las hojas delgadas y ligeramente flexibles son de color verde azulado con un margen angosto de color marrón.
Tree	<i>Acacia smallii</i> (<i>Vachellia farnesiana</i>)	Sweet Acacia	15 gal	The Sweet Acacia named for its small, highly fragrant, golden yellow puffball flowers that signal the start of spring. Little to no irrigation is required, though it will grow much larger with supplemental water.	Árbol	
Tree	<i>Cercidium X sp.</i> 'Sonoran Emerald'	Sonoran Emerald Palo Verde	15 gal	Hybrid of the Desert Museum palo verde with a blue tinge to the bark. Grows slower-has stronger thicker trunk. More wind resistant-deep green and almost totally evergreen. Height and Spread to 25 feet.	Árbol	
Tree	<i>Chilopsis linearis</i> 'Bubba'	Bubba Desert Willow	15 gal	In late spring and summer 'Bubba' produces masses of large, dark burgundy, fragrant flowers.	Árbol	A finales de la primavera y el verano, 'Bubba' produce masas de flores fragantes, grandes, de color burdeos oscuro.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Tree	<i>Chilopsis linearis</i> 'Sweet Bubba'	Sweet Bubba Desert Willow	15 gal	Chilopsis 'Sweet Bubba' is the love child of two Desert Willow varieties that many thought were already perfect. A cross between 'Bubba' and 'Sweet Katie Burgundy', Sweet Bubba exhibits the dark green glossy leaves of one parent plant, and the enormous bloom of the other.	Árbol	Chilopsis 'Sweet Bubba' es un híbrido de dos variedades de Desert Willow que muchos pensaban que ya eran perfectas. Un cruce entre 'Bubba' y 'Sweet Katie Burgundy', Sweet Bubba exhibe las brillantes hojas de color verde oscuro de una planta madre y la enorme floración de la otra.
Tree	<i>Chilopsis linearis</i> 'Art's seedless®'	Art's Seedless® Desert Willow	15 gal	Art's Seedless® has large, pink-rose flowers, long narrow bright green leaves, but no messy seed pods. This selection will bloom almost continuously from late spring until first frost.	Árbol	Art's Seedless® tiene flores grandes de color rosa, hojas largas y angostas de color verde brillante, pero no vainas de semillas. Esta selección florecerá casi continuamente desde finales de primavera hasta la primera helada.
Tree	<i>Cordia boissieri</i>	Mexican Olive	15 gal	The deep green leaves are large, leathery, and coarse in texture. Large white flowers with a yellow throat are borne in clusters from spring through fall.	Árbol	Las hojas de color verde oscuro son grandes, coriáceas y de textura gruesa. Grandes flores blancas con centro amarillo nacen en racimos desde la primavera hasta el otoño.
Tree	<i>Ficus carica</i> 'Lattarula'	Lattarula fig	5 gal	Also known as Blanche. Among the most popular and widely adapted varieties; a member of the White Marseilles family of fig cultivars. It has amber colored flesh and a yellow-green skin. Its fine quality for canning, drying and fresh eating, has earned it the name Italian Honey Fig.	Árbol	
Tree	<i>Ficus carica</i> 'Strawberry'	Fig 'Strawberry'	1 gal	The Strawberry Fig produces large crops of medium to large dark green rounded to flattened fruit that may be blushed with purple and has a medium, open eye. The flesh is white with a dark purple pulp of excellent flavor and the fruit can be eaten fresh, dried, or preserved.	Árbol	
Tree	<i>Fraxinus velutina</i>	Arizona ash	15 gal	This native tree is fast growing and deciduous, dropping its leaves for a brief period of winter dormancy after a spectacular show of autumn color. Small, non-ornamental flowers appear along the tree's branches in spring, followed by clusters of ornamental one-winged fruits that cling to female trees through summer.	Árbol	
Tree	<i>Parkinsonia</i> X 'Desert Museum'	Desert Museum Palo Verde	15 gal	Thornless, fast-growing and upright, this tree is a popular choice for parking lots and streetscapes. The small compound leaves and smooth bark are lime green. Masses of yellow flowers are produced from March though May, with sporadic flowering during the summer months.	Árbol	Sin espinas, de crecimiento rápido y erguido, este árbol es una opción popular para estacionamientos y paisajes urbanos. Las pequeñas hojas compuestas y la corteza lisa son de color verde lima. Flores amarillas se producen de marzo a mayo, con una floración esporádica durante los meses de verano.
Tree	<i>Punica granatum</i> 'Wonderful'	Wonderful Pomegranate	5 gal	Large, purple-red fruit with delicious, tangy flavor. Best quality in hot inland climate. Gaudy red orange bloom, ornamental foliage.	Árbol	Fruta grande, de color rojo púrpura con un sabor delicioso y ácido. La mejor calidad en clima interior cálido. Floración llamativa de color rojo anaranjado, follaje ornamental.
Tree	<i>Quercus</i> 'Joan Lionetti' PP27646	Joan Lionetti Texas Live Oak	5 gal & 15 gal	Civano Growers pays homage to the founder of Tucson Clean and Beautiful, Joan Lionetti, by naming this unrivaled oak clone in her honor. This beautiful evergreen oak is praised for its fast growth, straight trunk and symmetrical canopy. Its superior form will provide any landscape with dense shade all year long. The tree prefers full sun and moderate water until established. It grows to 30' tall at maturity.	Árbol	

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Tree	<i>Sophora secundiflora</i>	Texas Mountain Laurel	5 gal & 15 gal	Glossy dark green compound leaves provide a lush look for desert gardens. Showy clusters of purple wisteria-like flowers perfume the air in the spring, and smell like grape soda.	Árbol	Las hojas compuestas de color verde oscuro brillante brindan un aspecto exuberante a los jardines del desierto. Llamativos racimos de flores moradas parecidas a las glicinias perfuman el aire en primavera y huelen a uva
Vine	<i>Bignonia capreolata</i>	Tangerine Crossvine	1 gal & 5 gal	We have this American native to furnish our arbors and trellises with year-round lustrous green color that is accented by purple hues in winter and clusters of hummingbird-attracting orange trumpets in spring. Since it doesn't typically defoliate in the winter, this vigorous and hardy vine makes an excellent privacy screen when grown along fences, and helps to absorb heat and block reflected sun when grown against a wall.	Enredadera	Tenemos esta especie nativa con un color verde brillante durante todo el año que se acentúa con tonos púrpura en invierno y grupos de flores naranjas que atraen a los colibríes en primavera. Dado que normalmente no se seca en el invierno, esta enredadera vigorosa y resistente es una excelente pantalla de privacidad cuando se cultiva a lo largo de cercas, y ayuda a absorber el calor y bloquea el sol reflejado cuando se cultiva contra una pared.
Vine	<i>Mascaginia macroptera</i>	Yellow orchid vine	5 gal	This heat-loving evergreen vine produces a late spring display, with eye-catching clusters of bright yellow, orchid-shaped flowers against dark green foliage	Enredadera	
Vine	<i>Parthenocissus sp. Hacienda Creeper™</i>	Parthenocissus sp. Hacienda Creeper™	5 gal	This self-attaching deciduous vine is a compact, slow-growing selection, with bright green palmate leaves.	Enredadera	Esta enredadera caducifolia autoadherente es una selección compacta, de crecimiento lento, con hojas palmeadas de color verde brillante.
Vine	<i>Passiflora caerulea</i>	Blue Passion Vine	1 gal & 5 gal	Its unique flowers can be up to 4 inches in diameter with white outer petals and an inner layer of filaments that are ringed in blue, white, and dark purple towards the center. Monsoon rains spur the biggest flush of blooms in late summer and early fall, and many of them give off a light perfume as they open. Blue passion flower is one of the hardiest passion flower varieties you can buy.	Enredadera	Sus flores únicas pueden tener hasta 4 pulgadas de diámetro con pétalos exteriores blancos y una capa interna de filamentos que están anillados en azul, blanco y púrpura oscuro hacia el centro. Las lluvias del monzón provocan la mayor cantidad de flores a finales del verano y principios del otoño, y muchas de ellas desprenden un ligero edorcando se abren. La flor de la pasión azul es una de las variedades de flores de la pasión más resistentes que puedes comprar.
