

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Grass	<i>Aristida purpurea</i>	<a href="#">Purple Three Awn</a>	5 inch	The purple-tinted stems and flowers of this erect, compact grass attract attention during the warm months, especially where it grows abundantly along roadsides.	Zacate	Los tallos y flores púrpura de esta hierba erguida y compacta llaman la atención durante los meses cálidos, especialmente donde crece abundantemente a lo largo de los tramos o carreteras.
Grass	<i>Bouteloua gracilis</i> 'Blonde Ambition' PP22048	<a href="#">Blonde Ambition Blue Grama</a>	1 gal	This showy selection of blue grama grass has huge chartreuse flowers that dance above the foliage	Zacate	Esta vistosa selección de zacate grama azul tiene enormes flores color chartreuse sobre el follaje.
Grass	<i>Muhlenbergia capillaris</i>	<a href="#">Regal Mist®</a>	5 gal	A frothy haze of deep pink flowers covers the plant in the fall.	Zacate	Un espectáculo de flores de color rosa intenso cubre la planta en el otoño.
Grass	<i>Muhlenbergia rigens</i>	<a href="#">Deer Grass</a>	5 gal	This adaptable grass boasts lush green-blue foliage that softens desert landscapes. In the fall it sends up slender tan flower spikes that create a stunning contrast with the mound of luxuriant foliage.	Zacate	Éste zacate adaptable cuenta con un exuberante follaje verde azulado que suaviza los paisajes desérticos. En el otoño, envía espigas de flores delgadas de color canela que crean un contraste sorprendente con el montículo de follaje exuberante.
Grass	<i>Muhlenbergia rigida</i> Nashville®	<a href="#">Nashville® Muhly</a>	5 gal	This southwestern native forms a small clump of fine-textured light green foliage. In the late summer and fall it sends up purple-tan spikes that dry to a wheat color.	Zacate	This southwestern native forms a small clump of fine-textured light green foliage. In the late summer and fall it sends up purple-tan spikes that dry to a wheat color.
Grass	<i>Nassella (Stipa) tenuissima</i>	<a href="#">Mexican Feather Grass</a>	1 gal	Light breezes turn this fine-textured and billowy grass into living sculpture. Mexican feather grass forms a clump of chartreuse thread-like leaves and stems which turns gold in the winter.	Zacate	Las brisas ligeras convierten este zacate ondulado y de textura fina en una escultura viviente. El zacate plumero mexicano forma un grupo de hojas y tallos similares a hilos de color chartreuse que se vuelven dorados en el invierno.
Grass	<i>Nassella tenuissima</i>	<a href="#">Mexican Feather Grass</a>	1 gal	Light breezes turn this fine-textured and billowy grass into living sculpture. Mexican feather grass forms a clump of chartreuse thread-like leaves and stems which turns gold in the winter.	Zacate	Las brisas ligeras convierten este zacate ondulado y de textura fina en una escultura viviente. El zacate plumero mexicano forma un grupo de hojas y tallos similares a hilos de color chartreuse que se vuelven dorados en el invierno.
Grass	<i>Schizachyrium scoparium</i>	<a href="#">Little Bluestem</a>	1 gal	The foliage color ranges from green to blue, and the dormant foliage varies from tan to rusty red. Little bluestem has a very upright form, with fine-textured foliage.	Zacate	El color del follaje varía de verde a azul, y el follaje inactivo varía de bronceado a rojo oxidado. Little bluestem tiene una forma muy erguida, con un follaje de textura fina.
Groundcover	<i>Acalypha monostachya</i> Raspberry Fuzzies™	<a href="#">Round copperleaf</a>	1 gal	This groundcover has copper colored foliage and unique fuzzy hot pink to red flowers, blooming profusely all through the warm months.	Tapizante	Éste tapizante tiene follaje de color cobre y flores únicas de color rosa intenso y rojo, que florecen profusamente durante los meses cálidos.
Groundcover	<i>Dalea capitata</i>	<a href="#">Lemon dalea</a>	1 gal & 5 gal	This durable, semi-deciduous groundcover has bright green, fine-textured, aromatic foliage. Small yellow flower spikes carpet Sierra Gold® in the spring and fall.	Tapizante	Esta cubierta vegetal duradera y semicaduca tiene un follaje aromático verde brillante de textura fina. Pequeñas espigas de flores amarillas alfombran Sierra Gold® en primavera y otoño
Groundcover	<i>Dalea greggii</i>	<a href="#">Trailing Indigo Bush</a>	5 gal	This low-growing evergreen has the ability to form roots wherever its stems touch the ground, making it an excellent soil stabilizer and enabling it to rapidly spread 6-8 feet or more while maintaining a mounding height of only 2 feet. In spring, small purple blossoms appear in abundance, attracting butterflies to your garden.	Tapizante	Este tapizante de hoja perenne de bajo crecimiento tiene la capacidad de formar raíces dondequiera que sus tallos toquen el suelo, lo que lo convierte en un excelente estabilizador del suelo y le permite extenderse rápidamente de 6 a 8 pies o más mientras mantiene una altura de montículo de solo 2 pies. En primavera, pequeñas flores moradas aparecen en abundancia, atrayendo mariposas a su jardín.
Groundcover	<i>Delosperma Red Mountain Flame</i> ®	<a href="#">Iceplant, Red Mountain Flame</a>	1 gal	A tough, vigorous cold hardy Ice Plant with large blazing orange-red flowers in late spring and early summer.	Tapizante	Una planta resistente a las heladas con grandes flores de color rojo anaranjado a finales de la primavera y principios del verano.
Groundcover	<i>Glandularia pulchella</i>	<a href="#">Rock Verbena</a>	1 gal	Masses of purple flowers adorn this perennial groundcover from spring through fall.	Tapizante	Masas de flores moradas adornan este tapizante perenne desde la primavera hasta el otoño.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Groundcover	<i>Lantana montevidensis</i>	<a href="#">Purple Trailing Lantana</a>	1 gal	This tough native of South America quickly forms a low mounding groundcover with dark green, aromatic, rough-textured foliage.	Tapizante	Nativo de América del Sur, este tapizante forma rápidamente una cubierta vegetal baja con follaje verde oscuro, aromático y de textura áspera.
Groundcover	<i>Phyla nodiflora</i>	<a href="#">Texas frogfruit</a>	5 inch	Texas Frogfruit can be used as an excellent ground cover and is evergreen in warm years. It spreads vigorously. Frogfruit generally is a good nectar plant for butterflies. It is an attractive plant rambling over boulders or the edges of hanging baskets. It also can tolerate drought and flooding.	Tapizante	Texas Frogfruit se puede utilizar como una excelente cobertura del suelo y es de hoja perenne en años cálidos. Se propaga vigorosamente. Frogfruit generalmente es una buena planta de néctar para las mariposas. Es una planta atractiva que trepa por las rocas o los bordes de las macetas colgantes. También puede tolerar la sequía y las inundaciones.
Perennial	<i>Achillea millefolium</i> 'Paprika improved'	<a href="#">Yarrow, Paprika Improved</a>	1 gal	Sprays of crimson red blooms with yellow centers over aromatic, fern-like foliage. Long-lasting flowers fade to a dusty rose color over the course of the season.	Perenee	Ramilletes de flores de color rojo carmesí con centros amarillos sobre un follaje aromático parecido a un helecho. Las flores duraderas se desvanecen a un color rosa polvoriento en el transcurso de la temporada.
Perennial	<i>Asclepias</i> 'Butterfly Magic' PP34305	<a href="#">Butterfly Magic Desert Milkweed</a>	2 gal	Butterfly Magic Milkweed is a regal, vase-shaped perennial that boasts thick, elegant stems and star-like cream colored flowers that butterflies find delectable. This plant is an essential host for Monarch Butterflies. It is also heat loving, drought tolerant, and a fantastic addition to any xeric landscape	Perenee	
Perennial	<i>Asclepias linaria</i> 'Monarch Magnet 2.0'	<a href="#">Monarch Magnet</a>	2 gal	Bright-white flower clusters emerge in springtime and stick around through fall. The leaves and flowers are an important food source for the Queen and Monarch butterfly larvae, whereas the nectar is a favorite of the adults.	Perenee	Los racimos de flores de color blanco brillante emergen en primavera y permanecen durante el otoño. Las hojas y las flores son una importante fuente de alimento para las larvas de mariposas reina y monarca, mientras que el néctar es el favorito de los adultos.
Perennial	<i>Asclepias subulata</i>	<a href="#">Desert Milkweed</a>	5 gal	It has an erect, vertical form, with a dense cluster of gray-green herbaceous stems. It is virtually leafless, as short-lived leaves appear on new growth but drop quickly. Terminal clusters of pale yellow flowers appear intermittently from spring until fall.	Perenee	Tiene una forma vertical, con un denso racimo de tallos herbáceos de color verde grisáceo. Prácticamente no tiene hojas, ya que las hojas de vida corta aparecen en un nuevo crecimiento pero caen rápidamente. Los racimos terminales de flores de color amarillo pálido aparecen de forma intermitente desde la primavera hasta el otoño.
Perennial	<i>Asclepias tuberosa</i>	<a href="#">Butterfly weed</a>	5 gal	Beloved for its ability to attract a variety of helpful (and beautiful) insects to the garden, butterfly weed is an easy-to-nurture herbaceous perennial that can also be found growing as a native wildflower in a slew of untamed environments, such as meadows, prairies, and forest clearings. It's a must-have plant for gardeners looking to coax the namesake winged insects into the garden. This clump-forming perennial grows from tuberous roots to a height of one to two feet and is characterized by glossy-green, lance-shaped leaves and clusters of bright orange-to-yellow blooms that are rich with nectar and pollen.	Perenee	
Perennial	<i>Conoclinium (Eupatorium) dissectum</i> Boothill™	<a href="#">Gregg's mistflower</a>	1 gal	During the warm season this plant is covered with clusters of fuzzy lavender flowers that are magnets for butterflies.	Perenee	Durante la estación cálida, esta planta se cubre con racimos de flores de lavanda que son imanes para las mariposas.
Perennial	<i>Coreopsis hybrid</i>	<a href="#">Uptick™ Gold &amp; Bronze Tickseed</a>	1 gal	Golden yellow flowers with bronze red centers are produced over a tidy, mounded habit. It is easy to grow, thriving in any well-drained soil with average moisture and full sun. This species requires deadheading to promote continuous blooming.	Perenee	

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Echinacea Sombbrero®</i>	<a href="#">Sombbrero® coneflower</a>	1 gal	Sombbrero's vibrant colors are matched by its exceptional Winter hardiness and excellent landscape performance. Several different varieties, each with a unique flower color: orange, burgandy, yellow, and red.	Perenee	
Perennial	<i>Helianthus ciliaris</i>	<a href="#">Texas blueweed</a>	5 inch	Can spread aggressively via roots, so best in a pot or otherwise controlled area. Attractive bluish leaves and yellow daisy-like flowers.		
Perennial	<i>Lantana X 'Dallas Red'</i>	<a href="#">Dallas Red Lantana</a>	5 inch	This colorful hybrid has bright red flowers with golden yellow highlights. The flower show begins in late spring and continues well into fall.	Perenee	Este híbrido tiene flores de color rojo brillante con reflejos amarillos dorados. El espectáculo de flores comienza a fines de la primavera y continúa hasta bien entrado el otoño.
Perennial	<i>Melempodium leucanthum</i>	<a href="#">Blackfoot Daisy</a>	5 gal	It has narrow grey-green leaves, brittle stems, and is covered with small white daisy flowers in the warm months.	Perenee	Tiene hojas angostas de color verde grisáceo, tallos quebradizos y se cubre con pequeñas flores de margarita blanca en los meses cálidos.
Perennial	<i>Penstemon amphotellae</i>	<a href="#">Mexican blue penstemon</a>	4"	This fast-growing native of Coahuilla, Mexico has a low, sprawling form, with narrow light green leaves. It blooms in late spring with spikes of large, light blue flowers that attract hummingbirds. Plant in full sun to part shade, and provide moderate irrigation. It can reseed in the landscape.	Perenee	
Perennial	<i>Penstemon baccharifolius Diablo™</i>	<a href="#">Diablo™ Rock Penstemon</a>	1 gal	It blooms in the late spring and summer with short terminal spikes of rose-red flowers that attract hummingbirds.	Perenee	Florece a fines de la primavera y el verano con espigas terminales cortas de flores rosadas que atraen a los colibríes.
Perennial	<i>Penstemon cardinalis</i>	<a href="#">Cardinal penstemon</a>	4"	The common and scientific names of this penstemon refer to the deep blood-red color of the flowers. It is a moderately short-lived perennial with a woody crown that dies back to the ground during winter. The plant is fairly tall, usually around 3 feet, and tends to be spreading. Leaves are large, glossy, bright green, and mostly confined to the base of the plant.	Perenee	
Perennial	<i>Penstemon eatoni</i>	<a href="#">Firecracker Penstemon</a>	1 gal & 5 gal	It blooms in late winter to early spring with spikes of rich red flowers. Hummingbirds love it! Glossy dark green leaves form a low clump. Plant in full sun and well-drained soils. It reseeds readily.	Perenee	Florece a fines del invierno hasta principios de la primavera con espigas de flores rojas intensas. ¡A los colibríes les encanta! Las hojas de color verde oscuro brillante forman un grupo bajo. Plantar a pleno sol y suelos bien drenados. Se regenera fácilmente con las nuevas semillas.
Perennial	<i>Penstemon palmeri</i>	<a href="#">Scented Penstemon</a>	1 gal	Native to elevations from 4000 to 6000 feet, this perennial sends up spectacular spikes of huge, light pink, fragrant flowers from March to September. The basal rosette is composed of blue-green waxy leaves.	Perenee	Originaria de elevaciones de 4000 a 6000 pies, esta planta perenne envía espectaculares espigas de flores enormes, de color rosa claro y fragantes de marzo a septiembre. La roseta basal se compone de hojas cerosas de color verde azulado.
Perennial	<i>Ruellia brittoniana</i>	<a href="#">Mexican petuna</a>	1 gal	Attractive Plants to 4 X4 feet, has blue bell-shaped flowers in season. Best in morning sun to light shade, amended soil, good drainage and regular water. Can be grown in containers. May go dormant in winter but recovers quickly.	Perenee	
Perennial	<i>Ruellia brittoniana 'Rosa'</i>	<a href="#">Dwarf Ruellia 'Rosa'</a>	1 gal	This compact herbaceous perennial has long, narrow, dark green leaves and blooms heavily during the warm months with showy tubular, petunia-like pink flowers.	Perenee	Esta planta perenne herbácea compacta tiene hojas largas, angostas y de color verde oscuro y florece intensamente durante los meses cálidos con llamativas flores rosadas tubulares parecidas a las petunias.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Ruellia brittoniana</i> 'Katie'	<a href="#">Dwarf Ruellia 'Katie'</a>	1 gal	This compact herbaceous perennial has long, narrow, dark green leaves and blooms heavily during the warm months with showy tubular, petunia-like blue flowers. Plant in full sun or part shade, and provide moderate irrigation.	Perenee	Esta perenne compacta tiene hojas largas, angostas, de color verde oscuro y florece intensamente durante los meses cálidos con vistosas flores tubulares de color azul parecido a la petunia. Plantar a pleno sol o sombra parcial, y proporcionar riego moderado.
Perennial	<i>Russelia equisetiformis</i>	<a href="#">Coral Fountain Grass</a>	2 gal & 5 gal	Firecracker plant is a wonderful, 'free spirit' of a plant. It attracts butterflies. Be careful not to let around Bermuda grass or other perennial grasses establish around and beneath it. These grasses will tend to grow up into the coral bush crown. If that happens, then eradication of these grasses will be tough.	Perenee	
Perennial	<i>Salvia farinacea</i>	<a href="#">Mealycup Sage</a>	4"	Mealycup sage provides an attractive mass of blue flowers in beds, borders and naturalized areas.	Perenee	La Salvia Mealycup proporciona una masa atractiva de flores azules en macizos, bordes y áreas naturalizadas.
Perennial	<i>Salvia greggii</i>	<a href="#">Autumn Sage</a>	1 gal, 2 gal, & 5 gal	Several cultivars available. Beautiful clusters of red flowers are produced at branch tips all through the warm season, but in the low desert flower production will drop off in the summer.	Perenee	Varios cultivares disponibles. Hermosos racimos de flores rojas se producen en las puntas de las ramas durante toda la estación cálida, pero en el desierto bajo la producción de flores se reduce en el verano.
Perennial	<i>Salvia greggii</i> Sierra Linda™	<a href="#">Autumn Sage Sierra Linda™</a>	2 gal	This woody perennial is native to Texas and Mexico, and forms a rounded mound of glossy green leaves. In the spring and fall it blooms profusely with small hot pink flowers, attracting hummingbirds.	Perenee	Esta planta perenne leñosa es originaria de Texas y México, y forma un montículo redondeado de hojas de color verde brillante. En primavera y otoño florece profusamente con pequeñas flores de color rosa intenso que atraen a los colibríes.
Perennial	<i>Salvia leucantha</i>	<a href="#">Mexican Bush Sage</a>	5 gal	This Mexican native has narrow, aromatic gray-green leaves with wooly white undersides. The velvety purple flower spikes produced during the spring and summer attract hummingbirds.	Perenee	Esta planta nativa de México tiene hojas angostas y aromáticas de color verde grisáceo con la parte inferior blanca y lanosa. Las espigas de flores de color púrpura aterciopelado que se producen durante la primavera y el verano atraen a los colibríes.
Perennial	<i>Salvia nemorosa</i> 'Blauhügel'	<a href="#">Blue Hills Salvia</a>	1 gal	Compact bushy clumps covered with stunning spikes of violet-blue flowers.	Perenee	Hojas compactas y tupidas cubiertas de impresionantes espigas de flores de color azul violeta.
Perennial	<i>Salvia roemeriana</i>	<a href="#">Cedar sage</a>		Scarlet flowers abound on this small, mounding, woodland sage that is native to Texas, Arizona and Northern Mexico. Grow it as a small scale groundcover or mix it with other shade-loving sages in a perennial border or along a path.	Perenee	
Perennial	<i>Salvia X 'Ultra Violet'</i>	<a href="#">Ultra Violet Sage</a>	2 gal	'Ultra Violet' is a cross between blue flowered <i>Salvia lycioides</i> and pink <i>Salvia greggii</i> . This stunning <i>Salvia</i> grows to 20" tall and 28" wide and will display a showy set of vibrant purple blooms from late spring through October.	Perenee	'Ultra Violet' es un híbrido entre <i>Salvia lycioides</i> de flores azules y <i>Salvia greggii</i> rosa. Esta impresionante <i>Salvia</i> crece hasta 20" de alto y 28" de ancho y mostrará un llamativo conjunto de vibrantes flores de color púrpura desde finales de la primavera hasta octubre.
Perennial	<i>Salvia X Raspberry Delight</i> ®	<a href="#">Raspberry salvia</a>	5 gal	Masses of raspberry red flowers are produced all through the warm season, but flowering slows down during the summer in the low deserts.	Perenee	Se producen masas de flores de color rojo frambuesa durante toda la estación cálida, pero la floración se ralentiza durante el verano en los desiertos bajos.
Perennial	<i>Scutellaria potosina</i>	<a href="#">Mexican skullcap</a>	4"	Small mounding herb with lavender and white flowers. Grows in dry sandy soil, desert washes, and grasslands.	Perenee	
Perennial	<i>Scutellaria suffrutescens</i>	<a href="#">Pink Skullcap</a>	1 gal	Waves of pink flowers that look like little snapdragons grace this plant from spring through fall.	Perenee	Olas de flores rosadas que parecen pequeñas bocas de dragón adornan esta planta desde la primavera hasta el otoño.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Perennial	<i>Senna hirsuta</i>	<a href="#">Woolly senna</a>	4" tall pot & 1 gal	It has attractive yellow flowers and dark green leaves. The flowers, their seeds and plants may be visited by hummingbirds and/or small mammals including rodents and granivorous birds in search of food, nectar and protection through cover.	Perenee	
Perennial	<i>Senna lindheimeriana</i>	<a href="#">Velvet leaf senna</a>	4" tall pot & 1 gal	Its leaves are thick and gray and have a velvety texture. Yellow flowers are few to several in spikelike racemes. It is often used as a background or specimen plant. Pollinators seem to like the bloom! Host plant for Sulphur butterflies.	Perenee	
Perennial	<i>Sphaeralcea ambigua</i> 'Orange Crush' PPAF	<a href="#">Desert Globe Mallow</a>	2 gal	Orange Crush' produces abundant orange flowers from late December through June and thrives in both the landscape and containers. It is ideal for dry, low-water areas.	Perenee	Orange Crush' produce abundantes flores naranjas desde finales de diciembre hasta junio y prospera tanto en el suelo como en macetas. Es ideal para áreas secas y con poca agua.
Perennial	<i>Tetranneuris acaulis</i>	<a href="#">Angelita Daisy</a>	1 gal	It forms a compact, dense mound of slender green grass-like leaves. Golden daisy-like blossoms perch above the foliage on tall, leafless stems during the warm months.	Perenee	Forma un montículo compacto y denso de hojas verdes delgadas parecidas a la hierba. Flores doradas parecidas a margaritas se posan sobre el follaje en tallos altos y sin hojas durante los meses cálidos.
Perennial	<i>Verbena goodingii</i>	<a href="#">Gooding's Verbena</a>	5 gal	ts fragrant, lilac-purple flowers begin opening in clusters just above the fuzzy grey-green foliage in spring, and will continue to bloom through fall if given supplemental water through the heat of the summer. Specimens grown without extra irrigation will bloom heaviest in spring and fall, taking a break and going dormant through the summer and winter.	Perenee	
Perennial	<i>Wedelia texana</i> 'Devil's River™'	<a href="#">Devil's River™</a>	1 gal	This Texas native provides a lot of summer color, blooming from spring through fall with orange-yellow daisy-like flowers.	Perenee	Esta planta nativa de Texas proporciona mucho color de verano, floreciendo desde la primavera hasta el otoño con flores de color amarillo anaranjado parecidas a las margaritas.
Shrub	<i>Aloysia gratissima</i>	<a href="#">Beebush</a>	4" tall pot	Whitebrush is a slender, densely-branched shrub that grows on grasslands, rocky slopes and limestone bluffs in the Trans-Pecos, Edwards Plateau, and Rio Grande Plains. It flowers from March to November, especially after rains, with vanilla-scented white flower spikes that are very attractive to bees, who make a delicious honey from the nectar. Drought tolerant, it grows on poor soils in full sun; it can adapt to richer soil (even poorly drained) and shade, but will flower best in full sun. In the landscape it can be used as an informal hedge or screen or as background for accent plants.	Arbusto	
Shrub	<i>Amorpha fruticosa</i>	<a href="#">False Indigo Bush</a>	5 gal	False indigo-bush is a 6-12 ft., loose, airy shrub which often forms dense thickets. Plants develop a leggy character with the majority of their pinnately compound, fine-textured foliage on the upper third of the plant. Flowers small, purple to dark blue with yellow stamens extending beyond the single petal, crowded in narrow, 3-6 in., spikelike clusters at or near the ends of the branchlets, appearing from April to June. This is a deciduous plant.	Arbusto	
Shrub	<i>Anisicanthus quadrifidus</i> v. <i>wrightii</i>	<a href="#">Mexican Fire™</a>	5 gal	Its narrow, rich green leaves provide an effective backdrop for terminal spikes of tubular red-orange flowers.	Arbusto	Sus hojas estrechas y de un verde intenso proporcionan un telón de fondo eficaz para las espigas terminales de las flores tubulares de color rojo anaranjado.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Artemesia fillifolia</i>	<a href="#">Sand Sage</a>	5 gal	The fragrant, threadlike leaves and stems of this airy evergreen shrub are covered with white hairs, giving it a lovely silvery cast.	Arbusto	Varios cultivares disponibles. Hermosos racimos de flores rojas se producen en las puntas de las ramas durante toda la estación cálida, pero en el desierto bajo, la producción de flores se reduce en el verano.
Shrub	<i>Atriplex canescens</i>	<a href="#">Four Wing Saltbush</a>	2 gal	Female plants produce unique papery-thin, 4-winged fruit that are a favorite source of food for birds and small mammals.	Arbusto	Las plantas femeninas producen frutos únicos de 4 pétalos, delgados como el papel, que son una fuente favorita de alimento para aves y pequeños mamíferos.
Shrub	<i>Baccharis sarothroides</i>	<a href="#">Desertbroom</a>	5"	As the name suggests, Desertbroom, with its nearly leafless green stems, indeed has a broom-like profile. The many branches grow erect-ascending. The plant blooms profusely in the fall through early spring and at that time you might see the fine white feathery wind carried "parachutes" blowing freely in the air or covering the ground and the plant like a light snowfall dusting.	Arbusto	
Shrub	<i>Brickellia californica</i>	<a href="#">California bristlebush</a>	5 inch	It grows as a rounded shrub of dense gray-green leaves. The flowers are small and cream colored, hard to notice against the lightly colored foliage. The bristlebush is most appreciated for its fragrance, which can be quite pleasant in the summer months.		
Shrub	<i>Buddleja marrubiiifolia</i>	<a href="#">Wooly Butterfly Bush</a>	5 gal	Orange, marble-sized blossoms occur throughout the year, with the heaviest bloom in spring and summer. They are not extremely showy, but they attract many butterflies. This Chihuahuan Desert native is very tolerant of heat, cold, intense sun and drought.	Arbusto	Las flores anaranjadas del tamaño de una canica ocurren durante todo el año, con la floración más abundante en primavera y verano. No son muy vistosas, pero atraen a muchas mariposas. Este nativo del Desierto Chihuahuense es muy tolerante al calor, frío, sol intenso y sequía.
Shrub	<i>Caesalpinia mexicana</i>	<a href="#">Mexican bird of paradise</a>	5 gal	This large thornless shrub or small tree is native to northern Mexico. It has lush green compound leaves and large lemon-yellow flower spikes. Flowers develop off and on during the warm months, and are followed by large woody seedpods. In mild climates it is evergreen, but leaves drop in colder regions. It thrives in full sun and reflected heat, but requires good drainage.		
Shrub	<i>Chrysactinia mexicana</i>	<a href="#">Damianita</a>	5 gal	This small evergreen shrub has fragrant, bright green needlelike foliage. It blooms heavily in the fall and spring with golden daisy-like flowers.	Arbusto	Este pequeño arbusto de hoja perenne tiene un follaje fragante, de color verde brillante, parecido a una aguja. Florece intensamente en otoño y primavera con flores doradas parecidas a margaritas.
Shrub	<i>Cordia parvifolia</i>	<a href="#">Little Leaf Cordia</a>	5 gal	Warm, humid conditions trigger blooming, resulting in a profusion of snowy white blossoms. This tough evergreen shrub is easy to grow and maintenance-free. It forms a naturally dense wide-spreading shrub.	Arbusto	Las condiciones cálidas y húmedas desencadenan la floración, lo que da como resultado un espectáculo de flores blancas como la nieve. Este resistente arbusto de hoja perenne es fácil de cultivar y no requiere mantenimiento. Forma un arbusto de gran extensión naturalmente denso.
Shrub	<i>Dalea versicolor</i>	<a href="#">Weeping dalea</a>	5 gal	It has an open, rounded form with delicate gray-green foliage. Masses of purple flowers are produced in the spring months.	Arbusto	Tiene una forma abierta y redonda con un delicado follaje verde grisáceo. Se producen masas de flores moradas en los meses de primavera.
Shrub	<i>Dalea versicolor</i>	<a href="#">Weeping dalea</a>	5 gal	It has an open, rounded form with delicate gray-green foliage. Masses of purple flowers are produced in the spring months.	Arbusto	Tiene una forma abierta y redonda con un delicado follaje verde grisáceo. Se producen masas de flores moradas en los meses de primavera.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Ericameria laricifolia</i> <i>Aguirre</i> ™	<a href="#">Turpentine bush 'Aguirre'</a>	5 gal	The aromatic needlelike leaves are covered with a sticky resin that smells like turpentine. Masses of showy yellow daisy-like flowers are produced at the branch tips in the fall.	Arbusto	Las aromáticas hojas en forma de aguja están cubiertas con una resina pegajosa que huele a trementina. En el otoño se producen masas de llamativas flores amarillas parecidas a margaritas en las puntas de las ramas.
Shrub	<i>Hamelia patens</i>	<a href="#">Scarlet bush</a>	1 gal	Tubular orange-red to red flowers appear in terminal clusters in summer and fall. Leaves turn red in fall. Reddish stems and leafstalks. Flowers give way to small dark fruits. Butterflies and hummingbirds are reportedly attracted to the flowers, and birds enjoy the fruits.		
Shrub	<i>Hamelia patens</i>	<a href="#">Scarlet bush</a>	1 gal	Tubular orange-red to red flowers appear in terminal clusters in summer and fall. Leaves turn red in fall. Reddish stems and leafstalks. Flowers give way to small dark fruits. Butterflies and hummingbirds are reportedly attracted to the flowers, and birds enjoy the fruits.		
Shrub	<i>Larrea tridentata</i>	<a href="#">Creosote Bush</a>	5 gal	This tough evergreen shrub is especially aromatic after a rain. In the wild it has an open form with sparse olive green foliage on woody stems. Irrigated plants will be much more lush and grow faster. Small yellow spring flowers are followed by fuzzy seedpods.	Arbusto	Este resistente arbusto de hoja perenne es especialmente aromático después de una lluvia. En la naturaleza tiene una forma abierta con un follaje escaso de color verde olivo sobre tallos leñosos. Las plantas irrigadas serán mucho más exuberantes y crecerán más rápido. Pequeñas flores amarillas de primavera son seguidas por sus semillas.
Shrub	<i>Leucophyllum candidum</i>	<a href="#">Silver cloud Texas sage</a>	5 gal	Tiny silver-white foliage and dark purple flowers. Not tolerant of poor drainage. Do not overwater.	Arbusto	
Shrub	<i>Leucophyllum candidum</i> 'Microburst' PPAF	<a href="#">Microburst Texas Sage</a>	2 gal	Microburst is the first true dwarf <i>Leucophyllum</i> on the market. With a smaller stature of 3' by 3', this clonal selection stays compact; therefore, requires very little maintenance. Bulletproof, Microburst can withstand heavy, damp soils without the threat of damping off. The ultraviolet bell shaped flowers contrast against the silver foliage of this Texas Sage.	Arbusto	
Shrub	<i>Leucophyllum frutescens</i> 'Compacta'	<a href="#">Compact Texas Ranger</a>	5 gal	Its dense, rounded form requires little or no pruning, and its mature size of about 5 feet tall and wide is still small enough to warrant a space in most residential gardens	Arbusto	Su forma densa y redondeada requiere poca o ninguna poda, y su tamaño maduro de aproximadamente 5 pies de alto y ancho es lo suficientemente pequeño como para merecer un espacio en la mayoría de los jardines residenciales.
Shrub	<i>Leucophyllum frutescens</i> 'Green Cloud'	<a href="#">Texas Ranger 'Green Cloud'</a>	5 gal	This semi-evergreen, fast-growing shrub has lush green foliage and blooms frequently in the summer and fall with showy rose-pink flowers	Arbusto	Este arbusto semiperennifolio de crecimiento rápido tiene un exuberante follaje verde y florece con frecuencia en el verano y el otoño con vistosas flores rosadas.
Shrub	<i>Leucophyllum frutescens</i> 'San Antonio Rose' PP33454	<a href="#">San Antonio Rose Texas Sage PP33454</a>	1 gal	Silver leafed branches burst with bright rose pink blooms continuously throughout the summer, especially when humidity spikes. San Antonio Rose won't damp off like other Texas Rangers-- the crop was bred to thrive in landscapes throughout the Southwest.	Arbusto	Las ramas de hojas plateadas estallan con flores rosadas brillantes continuamente durante todo el verano, especialmente cuando la humedad aumenta. San Antonio Rose no se marchitará como otros Cenizos: la cosecha fue criada para prosperar en los paisajes de todo el suroeste.
Shrub	<i>Leucophyllum frutescens</i> 'White Cloud'	<a href="#">White cloud Texas sage</a>	5 gal	Gray foliage with snow white flowers. <i>L. frutescens</i> are more tolerant of poor drainage and heavier soils than other Texas sages. Cold hardy to 5 degrees Fahrenheit.	Arbusto	

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Leucophyllum langmaniae</i> 'Lynn's Legacy'	<a href="#">Lynn's Legacy Sage</a>	5 gal	This evergreen shrub grows moderately, forming a dense, rounded mound of sage green foliage. Masses of lavender flowers are produced in the summer and fall. This selection is not as dependent on changes in relative humidity for flowering, which means that it blooms more often during the warm months.	Arbusto	Este arbusto de hoja perenne crece moderadamente, formando un montículo denso y redondeado de follaje verde salvia. Las masas de flores de lavanda se producen en verano y otoño. Esta selección no depende tanto de los cambios en la humedad relativa para la floración, lo que significa que florece más a menudo durante los meses cálidos.
Shrub	<i>Leucophyllum pruinatum</i> <i>Sierra bouquet</i> ™	<a href="#">Fragrant Sage</a>	5 gal	Open and sprawling in form, this clone has silver-grey foliage and extremely fragrant violet flowers. The flowers smell like grape bubble gum, and are produced on and off during the summer and fall.	Arbusto	De forma abierta y extensa, este clon tiene un follaje gris plateado y flores violetas extremadamente fragantes. Las flores huelen a chicle de uva y se producen de forma intermitente durante el verano y el otoño.
Shrub	<i>Leucophyllum</i> X 'Convent'	<a href="#">Convent Sage</a>	5 gal	Convent is a selection of the Texas Rangers noted for its vibrant dark pink flowers. This evergreen shrub will reach a mature size of about 5 feet tall and wide.	Arbusto	Convent es una especie híbrida de cenizo que destaca por sus vibrantes flores de color rosa oscuro. Este arbusto de hoja perenne alcanzará un tamaño adulto de aproximadamente 5 pies de alto y ancho.
Shrub	<i>Leucophyllum</i> x 'MSWN Rascon' <i>Dragoon Dream</i> pp#33806	<a href="#">Dragoon Dream Texas Sage</a>	5 gal	This seedling is an open air cross found at the MSWN Cochise, AZ location. The likely parents are <i>L. frutescens</i> and <i>L. zygophyllum</i> with the classic silvery cupped leaves and mature size of 6-8ft x 5ft. Prolific, large magenta-purple flowers form clusters at branch ends throughout summer. Best grown in full sun and reflected heat with well drained soil. Hard to 10 degrees F.	Arbusto	
Shrub	<i>Leucophyllum zygophyllum</i> Cimarron®	<a href="#">Cimarron® Sage. Cenizo</a>	5 gal	This petite evergreen shrub has a soft, rounded form, with distinctively cupped grey-green leaves. Masses of blue flowers are produced on and off during the summer and fall.	Arbusto	Este pequeño arbusto de hoja perenne tiene una forma suave y redondeada, con hojas de color verde grisáceo distintivamente ahuecadas. Se producen masas de flores azules de forma intermitente durante el verano y el otoño.
Shrub	<i>Malvaviscus arboreus</i> var. <i>drummondii</i>	<a href="#">Turk's cap</a>	5 inch	A spreading shrub, grows 2-3 ft., sometimes reaching 10 ft. Bright-red, pendant, hibiscus-like flowers never fully open, their petals overlapping to form a loose tube with the staminal column protruding. Especially useful in shady situations. Great hummingbird plant	Arbusto	
Shrub	<i>Plumbago scandens</i> 'Summer Snow'	<a href="#">White Plumbago</a>	1 gal	Dark, glossy green narrow leaves provide a lush backdrop for masses of white flowers that appear all summer.	Arbusto	Las hojas angostas de color verde oscuro y brillante brindan un telón de fondo exuberante para las masas de flores blancas que aparecen durante todo el verano.
Shrub	<i>Rhus virens</i> v. <i>virens</i>	<a href="#">Evergreen Sumac</a>	5 gal	The dark green, rounded compound leaves have thick waxy leaflets. Clusters of white flowers in the spring are followed by showy red berries.	Arbusto	Las hojas compuestas redondeadas de color verde oscuro tienen folíolos cerosos gruesos. Los racimos de flores blancas en primavera son seguidos por vistosas bayas rojas.
Shrub	<i>Salvia clevelandii</i>	<a href="#">Chaparral Sage</a>	5 gal	This evergreen shrub has highly aromatic gray-green foliage. The unusual flower spikes consist of clusters of blue-violet flowers stacked like shish-kebobs along the spike.	Arbusto	Este arbusto de hoja perenne tiene un follaje verde grisáceo muy aromático. Las espigas de flores inusuales consisten en racimos de flores azul violeta apiladas como brochetas a lo largo de la espiga.
Shrub	<i>Senna wizlizeni</i>	<a href="#">Canyon senna</a>	4" tall pot	As our only true native shrub senna, it has pinnately compound leaves and crowded panicles of large, showy bright yellow flowers which contrast nicely with its small leaflets and dark branches. This very ornamental and tough Chihuahan native is late to leaf out in the spring.	Arbusto	

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Shrub	<i>Tecoma 'Red Hot'</i> PP31610	<a href="#">Red Hot Tecoma</a>	2 gal	This new selection boasts a unique color, compact habit and improved drought tolerance. Lightly fragrant, trumpet-shaped flowers emerge deep crimson red, maturing to fiery, orange red with yellow centers. They'll brighten up your landscape from early spring to late fall, attracting butterflies and hummingbirds to your garden.	Arbusto	
Shrub	<i>Tecoma stans v. stans</i> 'Gold Star'	<a href="#">Yellow Bells 'Gold Star'</a>	2 gal and 5 gal	This selection of the species blooms profusely with large clusters of bright yellow flowers.	Arbusto	Esta selección de la especie florece profusamente con grandes racimos de flores de color amarillo brillante.
Shrub	<i>Tecoma X 'Orange Jubilee'</i>	<a href="#">Orange Jubilee</a>	5 gal	This semi-deciduous, upright woody shrub has lush green compound leaves and produces masses of orange trumpet-shaped flowers during the warm months.	Arbusto	Este arbusto leñoso erguido y semicaducifolio tiene hojas compuestas de un verde exuberante y produce masas de flores naranjas en forma de trompeta durante los meses cálidos.
Shrub	<i>Vauquelinia californica</i>	<a href="#">Arizona Rosewood</a>	5 gal	The dark green, leathery, lance-shaped leaves resemble those of oleander, except the margins are serrated. Flattened clusters of tiny white flowers appear in late spring, eventually developing into persistent tan fruit.	Arbusto	Las hojas de color verde oscuro, coriáceas y en forma de lanza se parecen a las de la adelfa, excepto que los márgenes son dentados. Los racimos aplanados de diminutas flores blancas aparecen a fines de la primavera y eventualmente se convierten en frutos de color canela persistentes.
Shrub	<i>Vauquelinia californica v. pauciflora</i>	<a href="#">Arizona Rosewood v. pauciflora</a>	5 gal	This variety of <i>Vauquelinia californica</i> has slightly smaller and thicker leaves, smaller flower clusters, and a limited native range. This selection is native to southwestern New Mexico, southeastern Arizona and into northern Mexico.	Arbusto	Esta variedad de <i>Vauquelinia californica</i> tiene hojas un poco más pequeñas y gruesas, racimos de flores más pequeños y un rango nativo limitado. Esta selección es originaria del suroeste de Nuevo México, el sureste de Arizona y el norte de México.
Succulent	<i>Agave lechuguilla</i>	<a href="#">Lechuguilla</a>	5 gal	Yellow-green, succulent rosettes of lechuguilla stand 1 to 2 feet tall and sucker readily. Strong spines are tipped on the edges of thick, leathery leaves. It takes 12-15 years for the lechuguilla to store enough food for the large flower stalk, which grows amazingly fast to 15 feet tall.		
Succulent	<i>Agave murpheyi</i>	<a href="#">Murphy's Agave</a>	2 gal	This bold, medium-sized agave has blue-green to gray-green leaves decorated with striking bud imprints.	Suculenta	Este agave de tamaño mediano tiene hojas de color verde azulado a gris verdoso decoradas con llamativas huellas de cogollos.
Succulent	<i>Agave pelona</i>	<a href="#">Mexican agave</a>	1 gal	A stunning agave that forms a solitary rosette of narrow, glossy green leaves often tinged with red.	Suculenta	Un agave deslumbrante que forma una roseta solitaria de hojas angostas y brillantes de color verde, a menudo teñidas de rojo.
Succulent	<i>Agave schidigera 'Royal flush'</i>	<a href="#">Agave schidigera 'Royal flush'</a>	4 inch	This compact century plant has an extra wide cream colored leaf margin and grows to about a foot tall with an 18" spread.	Suculenta	Esta planta compacta del siglo tiene un margen de hoja extra ancho de color crema y crece hasta aproximadamente un pie de altura con una extensión de 18".
Succulent	<i>Agave schidigera Durango Delight™</i>	<a href="#">Agave schidigera 'Durango Delight™'</a>	1 gal	This compact, symmetrical agave has dark green leaves which are decorated with white markings and thin white marginal fibers. The leaf edges are smooth, and end in a sharp spine.	Suculenta	Este agave compacto y simétrico tiene hojas de color verde oscuro que están decoradas con marcas blancas y finas fibras marginales blancas. Los bordes de las hojas son lisos y terminan en una espina afilada.
Succulent	<i>Agave weberi</i>	<a href="#">Weber Agave</a>	5 gal	This is one of the largest agave species, with wide, fleshy gray-green leaves. The leaves usually have fine teeth along the margins of the lower end of the leaf and a sharp terminal spine.	Suculenta	Esta es una de las especies de agave más grandes, con hojas anchas, carnosas, de color verde grisáceo. Las hojas suelen tener dientes finos a lo largo de los márgenes del extremo inferior de la hoja y una espina terminal afilada.
Succulent	<i>Bulbine frutescens</i> 'Orange'	<a href="#">Orange Bulbine</a>	1 gal	From fall through spring the plants are topped by 12-inch-long spikes of orange flowers	Suculenta	Desde el otoño hasta la primavera, las plantas están coronadas por espigas de flores naranjas de 12 pulgadas de largo.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Succulent	<i>Cholla imbricata</i>	<a href="#">Tree cholla</a>	1 gal	The attractive violet flowers are followed by knobby orange fruits that stay attached to the plant for many months. The plant reaches heights of 15 feet, with most stems quite high above the ground, supported by a strong central trunk.		
Succulent	<i>Dasyliiron wheeleri</i>	<a href="#">Desert Spoon, Sotol</a>	5 gal	It slowly forms a dense rosette of leathery silver-blue leaves with hooks along the margins. Over time it develops a short stout trunk. The tall narrow flower spikes carry small tan blooms	Suculenta	Lentamente forma una roseta densa de hojas coriáceas de color azul plateado con ganchos a lo largo de los márgenes. Con el tiempo desarrolla un tronco corto y robusto. Las espigas de flores altas y estrechas llevan pequeñas flores de color canela.
Succulent	<i>Echinocereus triglochidiatus</i>	<a href="#">Claret Cup Cactus</a>	1 gal	The robust, stoutly-spined stems are topped with glowing scarlet flowers in late spring and can grow to a height of 3 feet under favorable conditions.	Suculenta	Los tallos robustos y con espinas fuertes están coronados con flores escarlatas brillantes a fines de la primavera y pueden crecer hasta una altura de 3 pies en condiciones favorables.
Succulent	<i>Euphorbia antisiphilitica</i>	<a href="#">Candelilla</a>	3 gal	The nearly leafless gray-green stems are pencil-like in appearance and have a waxy coating. Small creamy white flowers with red centers are produced in clusters following spring and summer rains.	Suculenta	Los tallos gris verdosos, casi sin hojas, parecen lápices y tienen una capa cerosa. Pequeñas flores de color blanco cremoso con centros rojos se producen en racimos después de las lluvias de primavera y verano.
Succulent	<i>Hesp. Cam. 'mswnnuevo leon' Lionheart® pp320069</i>	<a href="#">Lionheart®</a>	5 gal	Lionheart® is a selection of Hesperaloe campanulata that was chosen from our breeding program for its sturdy, upright flower spike to 10 feet and extended flower show. Blooms will begin mid-spring as with most other Hesperaloes, but can last all summer long even in the hottest climates. Individual blossoms have deep pink buds that open up to a nice iridescent white center.	Suculenta	Lionheart® es una selección de Hesperaloe campanulata que fue elegida de nuestro programa de reproducción por su espiga floral robusta y erguida de hasta 10 pies y su exhibición floral extendida. Las floraciones comenzarán a mediados de la primavera como con la mayoría de los otros Hesperaloes, pero pueden durar todo el verano incluso en los climas más cálidos. Las flores individuales tienen capullos de color rosa intenso que se abren en un bonito centro blanco iridiscente.
Succulent	<i>Hesperaloe campanulata</i>	<a href="#">Bell flowered hesperaloe</a>	5 gal	Bell-flowered yucca looks very similar in appearance to Hesperaloe funifera (Giant Hesperaloe) but stays smaller, reaching a mature size of 3 feet tall and wide. In late spring or summer this plant sends up a large flower spike with light pink flowers.	Suculenta	La yuca campanula se parece mucho a la Hesperaloe funifera (Giant Hesperaloe) pero permanece más pequeña, alcanzando un tamaño maduro de 3 pies de alto y ancho. A fines de la primavera o el verano, esta planta produce una gran espiga floral con flores de color rosa claro.
Succulent	<i>Hesperaloe funifera</i>	<a href="#">Giant Hesperaloe</a>	5 gal	This clumping, stemless, upright plant has stiff, broad, lime green leaves with coarse white fibers along the margins. In blooms in the summer, sending up a 12-15 foot tall flower spike of creamy white flowers.	Suculenta	Esta planta aglomerante, sin tallo y erguida tiene hojas rígidas, anchas, de color verde lima con fibras blancas gruesas a lo largo de los márgenes. Florece en el verano, enviando una espiga de flores de color blanco cremoso de 12 a 15 pies de altura.
Succulent	<i>Hesperaloe nocturna</i>	<a href="#">Night-blooming Hesperaloe</a>	5 gal	This evergreen accent plant forms a dense rosette of narrow, light green leaves up to 4 feet long.	Suculenta	Esta planta decorativa de hoja perenne forma una densa roseta de hojas angostas de color verde claro de hasta 4 pies de largo.
Succulent	<i>Hesperaloe parviflora</i>	<a href="#">Red Yucca</a>	1 gal	Hesperaloe parviflora forms a three to four foot clump of stiff, leathery, grey-green leaves. The tubular flowers attract hummingbirds. This tough plant thrives in full sun, reflected heat, and even tolerates some light shade if drainage is adequate.	Suculenta	Hesperaloe parviflora forma un grupo de hojas rígidas de 3-4', de color verde grisáceo. Las flores tubulares atraen a los colibríes. Esta planta resistente prospera a pleno sol, calor reflejado e incluso tolera un poco de sombra si el drenaje es adecuado.
Succulent	<i>Hesperaloe parviflora 'MSWNPERRMA' Desert Dusk®</i>	<a href="#">Desert Dusk® Red Yucca</a>	2 gal	This selection has unique maroon flowers on an upright and compact flower spike	Suculenta	Esta selección tiene flores granate únicas en una espiga de flores vertical y compacta.
Succulent	<i>Hesperaloe parviflora 'PERPA' Brakelights®</i>	<a href="#">Brakelights® Red Yucca</a>	1 gal & 3 gal	This selection of Hesperaloe parviflora has traffic-stopping, vivid red flowers and a compact growth habit.	Suculenta	Esta selección de Hesperaloe parviflora tiene flores rojas vivas que detienen el tráfico y un hábito de crecimiento compacto.

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Succulent	<i>Hesperaloe X 'PERFU' 'Pink Parade'</i>	<a href="#">Pink Parade Hesperaloe</a>	5 gal	The leaves are bright green, about an inch wide, and form an upright clump to 3-4 feet tall and wide. The 8-foot-tall flower spikes remain very straight, forming a linear pink line when planted in rows.	Suculenta	Las hojas son de color verde brillante, de aproximadamente una pulgada de ancho, y forman un grupo vertical de 3 a 4 pies de alto y ancho. Las espigas de flores de 8 pies de altura permanecen muy rectas, formando una línea rosada lineal cuando se plantan en hileras.
Succulent	<i>Hesperaloe parviflora</i> <i>Desert Flamenco®</i>	<a href="#">Desert Flamenco® Red Yucca</a>	5 gal	Compared to regular Red Yucca, this plant displays loads of side branching on the flower spikes creating waterfalls of showy, tubular, pinkish-orange flowers.	Suculenta	En comparación con Red Yucca regular, esta planta muestra muchas ramificaciones laterales en las espigas de las flores que crean cascadas de llamativas flores tubulares de color rosa anaranjado.
Succulent	<i>Opuntia cacanapa</i> <i>'Ellisiana'</i>	<a href="#">Perennial Spineless Prickly Pear</a>	1 gal	When someone asks for a cold-hardy spineless prickly pear, this is the one to use!	Suculenta	Cuando alguien pide un nopal sin espinas resistente al frío, ¡esta es la que debe plantar!
Succulent	<i>Opuntia engelmannii</i>	<a href="#">Engelmann's prickly pear</a>	1 gal	This native of the southwestern U.S. and northern Mexico forms large sage green pads with clusters of brown glochids and occasional long spines. Showy orange or yellow flowers in the spring are followed by rosy-red fruit.	Suculenta	Este nativo del suroeste de los EE. UU. y el norte de México forma grandes almohadillas de color verde salvia con grupos de gloquidios marrones y espinas largas ocasionales. Las vistosas flores de color naranja o amarillo en la primavera son seguidas por una fruta de color rojo rosado.
Succulent	<i>Opuntia violacea</i>	<a href="#">Santa Rita Cactus</a>	5 gal	Rounded pads are a soft blue-grey color in the warm months, deepening to a rich purple in the winter.	Suculenta	Las pencas redondas son de un color gris azulado suave en los meses cálidos, y se vuelven de un púrpura intenso en el invierno.
Succulent	<i>Pedilanthus macrocarpus</i> <i>'Chilly Willy' PP25989</i>	<a href="#">Chilly Willy Lady's Slippers</a>	2 gal	Chilly Willy's small, deciduous leaves are not significant to its appearance, and they often fall from the thick, waxy stems at the first sign of cooler weather and when experiencing drought.	Suculenta	Las hojas pequeñas y caducas de Chilly Willy no son significativas para su apariencia y, a menudo, se caen de los tallos gruesos y cerosos a la primera señal de un clima más fresco y cuando experimenta sequía.
Succulent	<i>Yucca baccata</i>	<a href="#">Banana Yucca</a>	5 gal	Plants vary from single trunk specimens to those with clusters of up to ten trunks. Foliage color may vary considerably as well, from gray-green to blue-green. The leaves are 16"- 32" long and 1"- 2" wide, with curly filaments along the margins and sharp terminal spines.	Suculenta	Las plantas varían desde especímenes de un solo tronco hasta aquellos con grupos de hasta diez troncos. El color del follaje también puede variar considerablemente, de gris verdoso a azul verdoso. Las hojas miden de 16 a 32 pulgadas de largo y de 1 a 2 pulgadas de ancho, con filamentos rizados a lo largo de los márgenes y espinas terminales afiladas.
Succulent	<i>Yucca elata</i>	<a href="#">Soaptree Yucca</a>	5 gal	This treelike yucca grows in southeastern Arizona, New Mexico, west Texas and Mexico. A spherical head of narrow, flexible leaves crowns each branch.	Suculenta	Esta yuca arborescente crece en el sureste de Arizona, Nuevo México, el oeste de Texas y México. Una cabeza esférica de hojas estrechas y flexibles corona cada rama
Succulent	<i>Yucca pallida</i>	<a href="#">Pale Leaf Yucca</a>	1 gal	Native to north-central Texas, this low clumping yucca makes an excellent low maintenance groundcover. Its flexible, pale blue-green leaves measure 1 inch wide by 1 foot long with finely serrated, light yellow to white margins.	Suculenta	Originaria del centro-norte de Texas, esta yuca de aglomeración baja es una excelente cubierta vegetal de bajo mantenimiento. Sus hojas flexibles de color verde azulado pálido miden 1 pulgada de ancho por 1 pie de largo con márgenes finamente aserrados, de color amarillo claro a blanco.
Succulent	<i>Yucca schottii</i>	<a href="#">Mountain yucca</a>	5 gal	Mountain Yucca is useful in many situations, as it tolerates full sun, shade, heat and cold. The thin, slightly pliable leaves are blue-green with a narrow, brown margin.	Suculenta	Mountain Yucca es útil en muchas situaciones, ya que tolera pleno sol, sombra, calor y frío. Las hojas delgadas y ligeramente flexibles son de color verde azulado con un margen angosto de color marrón.
Tree	<i>Acacia smallii</i> ( <i>Vachellia farnesiana</i> )	<a href="#">Sweet Acacia</a>	15 gal	The Sweet Acacia named for its small, highly fragrant, golden yellow puffball flowers that signal the start of spring. Little to no irrigation is required, though it will grow much larger with supplemental water.	Árbol	

Florafest 2023-2 Fall plant list

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Tree	<i>Cercidium X sp. 'Sonoran Emerald'</i>	<a href="#">Sonoran Emerald Palo Verde</a>	15 gal	Hybrid of the Desert Museum. grows slower-has stronger thicker trunk. more wind resistant-deep green. almost totally evergreen. Height and Spread to 25 feet.	Árbol	
Tree	<i>Cercis canadensis v. texensis</i>	<a href="#">Texas red bud</a>	15 gal	The small size (to 15-20 feet tall and wide), lush-looking green leaves, and spectacular spring flower display make this tree a superb choice for most western gardens. Texas Redbud is smaller and more drought tolerant than the eastern redbud, growing in well drained soils with high pH. The leathery leaves are thick and considerably smaller than those of the eastern redbud, and often have wavy margins. The leaves turn yellow in the fall before dropping. In the early spring pink to purple flowers cover the tree limbs just prior to leaf emergence	Árbol	
Tree	<i>Chilopsis linearis</i>	<a href="#">Desert Willow</a>	15 gal	Common along dry washes throughout the Southwest, this deciduous tree usually grows in a shrubby, multi-trunked form. Large orchid-like flowers provide warm season color, attracting hummingbirds and bees.	Árbol	Común a lo largo de los arroyos secos en todo el suroeste, este árbol de hoja caduca generalmente crece en forma de arbusto y con múltiples troncos. Las flores grandes, parecidas a las orquídeas, brindan un color cálido y atraen a los colibríes y las abejas.
Tree	<i>Chilopsis linearis 'Art's seedless®'</i>	<a href="#">Art's Seedless® Desert Willow</a>	15 gal	Art's Seedless® has large, pink-rose flowers, long narrow bright green leaves, but no messy seed pods. This selection will bloom almost continuously from late spring until first frost.	Árbol	Art's Seedless® tiene flores grandes de color rosa, hojas largas y angostas de color verde brillante, pero no vainas de semillas. Esta selección florecerá casi continuamente desde finales de primavera hasta la primera helada.
Tree	<i>Chilopsis linearis 'Bubba Jones'</i>	<a href="#">Bubba Jones Desert Willow</a>	15 gal	'Bubba Jones' is a spectacular hybrid of two beloved Desert Willows that exhibits the best prominent features of both parent plants. It's fast growing and low seed with large, deep green, glossy leaves like 'Bubba' and overall shape, height, and flower color of 'Warren Jones'.	Árbol	Bubba Jones' es un híbrido espectacular de dos mimbres que exhibe las mejores características prominentes de ambas plantas progenitoras. Es de crecimiento rápido y poca semilla con hojas grandes, de color verde intenso y brillantes como 'Bubba' y forma general, altura y color de flor de 'Warren Jones'.
Tree	<i>Chilopsis linearis 'Lopur' Desert Diva®</i>	<a href="#">Desert Diva® Desert Willow</a>	7 gal	Deep, emerald green leaves contrast nicely with velvety white buds. Most often, buds are a good indicator of flower color, but with this one there is a twist. The pearlescent buds open to a deep, dark, purple burgundy flowers creating a dramatic, over the top display.	Árbol	Las hojas de color verde esmeralda profundo contrastan muy bien con los brotes blancos. La mayoría de las veces, los brotes son un buen indicador del color de la flor, pero con este hay un giro. Los capullos se abren en flores de color burdeos púrpura oscuro y profundo que crean una exhibición dramática y exagerada.
Tree	<i>Chilopsis linearis 'Sweet Bubba'</i>	<a href="#">Sweet Bubba Desert Willow</a>	5 gal & 15 gal	Chilopsis 'Sweet Bubba' is the love child of two Desert Willow varieties that many thought were already perfect. A cross between 'Bubba' and 'Sweet Katie Burgundy', Sweet Bubba exhibits the dark green glossy leaves of one parent plant, and the enormous bloom of the other.	Árbol	Chilopsis 'Sweet Bubba' es un híbrido de dos variedades de Desert Willow que muchos pensaban que ya eran perfectas. Un cruce entre 'Bubba' y 'Sweet Katie Burgundy', Sweet Bubba exhibe las brillantes hojas de color verde oscuro de una planta madre y la enorme floración de la otra.
Tree	<i>Cordia boissieri</i>	<a href="#">Mexican Olive</a>	15 gal	The deep green leaves are large, leathery, and coarse in texture. Large white flowers with a yellow throat are borne in clusters from spring through fall.	Árbol	Las hojas de color verde oscuro son grandes, coriáceas y de textura gruesa. Grandes flores blancas con centro amarillo nacen en racimos desde la primavera hasta el otoño.
Tree	<i>Cordia boissieri</i>	<a href="#">Mexican Olive</a>	15 gal	The deep green leaves are large, leathery, and coarse in texture. Large white flowers with a yellow throat are borne in clusters from spring through fall.	Árbol	Las hojas de color verde oscuro son grandes, coriáceas y de textura gruesa. Grandes flores blancas con centro amarillo nacen en racimos desde la primavera hasta el otoño.

Plant type	Scientific name	Common name (click to learn more)	Size(s)	Notes	Tipo de planta	Descripción
Tree	<i>Ficus carcia</i> 'Texas Everbearing'	<a href="#">Texas Everbearing Fig</a>	5 gal	The Texas Everbearing Fig Tree (also referred to as "Brown Turkey") is a medium-sized, bell shaped, brownish-yellow fig tree with very sweet amber flesh. The Texas Everbearing is vigorous and productive. The early crop ripens in May; the main crop ripens in late June and continues to ripen into August. The Texas Everybearing Fig Tree produces a delicious, nearly seedless fig on a large bushy tree	Árbol	
Tree	<i>Ficus carica</i> 'Lattarula'	<a href="#">Lattarula fig</a>	5 gal	Also known as Blanche. Among the most popular and widely adapted varieties; a member of the White Marseilles family of fig cultivars. It has amber colored flesh and a yellow-green skin. Its fine quality for canning, drying and fresh eating, has earned it the name Italian Honey Fig.	Árbol	
Tree	<i>Fraxinus velutina</i>	<a href="#">Arizona ash</a>	5 gal	This native tree is fast growing and deciduous, dropping its leaves for a brief period of winter dormancy after a spectacular show of autumn color. Small, non-ornamental flowers appear along the tree's branches in spring, followed by clusters of ornamental one-winged fruits that cling to female trees through summer.		
Tree	<i>Parkinsonia X</i> 'Desert Museum'	<a href="#">Desert Museum Palo Verde</a>	15 gal	Thornless, fast-growing and upright, this tree is a popular choice for parking lots and streetscapes. The small compound leaves and smooth bark are lime green. Masses of yellow flowers are produced from March through May, with sporadic flowering during the summer months.	Árbol	Sin espinas, de crecimiento rápido y erguido, este árbol es una opción popular para estacionamientos y paisajes urbanos. Las pequeñas hojas compuestas y la corteza lisa son de color verde lima. Flores amarillas se producen de marzo a mayo, con una floración esporádica durante los meses de verano.
Tree	<i>Punica granatum</i> 'Wonderful'	<a href="#">Wonderful Pomegranate</a>	5 gal	Large, purple-red fruit with delicious, tangy flavor. Best quality in hot inland climate. Gaudy red orange bloom, ornamental foliage.	Árbol	Fruta grande, de color rojo púrpura con un sabor delicioso y ácido. La mejor calidad en clima interior cálido. Floración llamativa de color rojo anaranjado, follaje ornamental.
Tree	<i>Quercus</i> 'Joan Lionetti' PP27646	<a href="#">Joan Lionetti Texas Live Oak</a>	5 gal & 15 gal	Civano Growers pays homage to the founder of Tucson Clean and Beautiful, Joan Lionetti, by naming this unrivaled oak clone in her honor. This beautiful evergreen oak is praised for its fast growth, straight trunk and symmetrical canopy. Its superior form will provide any landscape with dense shade all year long. The tree prefers full sun and moderate water until established. It grows to 30' tall at maturity.	Árbol	
Tree	<i>Quercus muhlenbergii</i>	<a href="#">Chinquapin Oak</a>	15 gal	Native to west Texas, this deciduous tree has large oval green leaves with wavy margins. In the fall, the leaves turn orange and bronze.	Árbol	Originario del oeste de Texas, este árbol caducifolio tiene grandes hojas verdes ovaladas con márgenes ondulados. En otoño, las hojas se vuelven naranjas y bronceadas.
Tree	<i>Senegalia greggii</i>	<a href="#">Gregg's Acacia</a>	1 gal	Catclaw acacia is a woody perennial, growing slowly to form a large shrub or small tree to 15' tall by 20' wide. It develops dense thickets, its twisted and tangled branches covered with curved thorns. Rod-shaped, cream colored flowers occur in abundance in the spring provided there was ample winter rain. The fragrant flowers are highly attractive to bees, and the bean-like pods are a favorite of quail.	Árbol

Tree	<i>Sophora secundiflora</i>	<a href="#">Texas Mountain Laurel</a>	15 gal	Glossy dark green compound leaves provide a lush look for desert gardens. Showy clusters of purple wisteria-like flowers perfume the air in the spring, and smell like grape soda.	Árbol	Las hojas compuestas de color verde oscuro brillante brindan un aspecto exuberante a los jardines del desierto. Llamativos racimos de flores moradas parecidas a las glicinias perfuman el aire en primavera y huelen a uva
Tree	<i>Ungnadia speciosa</i>	<a href="#">Mexican buckeye</a>	1 gal	Native to Texas, this deciduous, woody plant grows slowly to form a multi-trunked large shrub or small tree. The large dark green, compound leaves turn yellow in the fall. Spring brings lovely rose-pink flowers that emerge before the leaves. The flowers are followed by leathery, three-chambered pods that contain dark, shiny seeds. Plant in full sun to part shade and provide good drainage.	Árbol	
Vine	<i>Bignonia capreolata</i>	<a href="#">Tangerine Crossvine</a>	5 gal	We have this American native to furnish our arbors and trellises with year-round lustrous green color that is accented by purple hues in winter and clusters of hummingbird-attracting orange trumpets in spring. Since it doesn't typically defoliate in the winter, this vigorous and hardy vine makes an excellent privacy screen when grown along fences, and helps to absorb heat and block reflected sun when grown against a wall.	Enredadera	Tenemos esta especie nativa con un color verde brillante durante todo el año que se acentúa con tonos púrpura en invierno y grupos de flores naranjas que atraen a los colibríes en primavera. Dado que normalmente no se seca en el invierno, esta enredadera vigorosa y resistente es una excelente pantalla de privacidad cuando se cultiva a lo largo de cercas, y ayuda a absorber el calor y bloquea el sol reflejado cuando se cultiva contra una pared.
Vine	<i>Cissus trifoliata</i>	<a href="#">Possum Grape Ivy</a>	5 inch	<i>Cissus trifoliata</i> is composed of purple stems and adorned with thick, rubbery, artificial-feeling, trifoliolate foliage. <i>Cissus trifoliata</i> attaches to objects by means of miniature suction cups.	Enredadera	
Vine	<i>Passiflora caerulea</i>	<a href="#">Blue Passion Vine</a>	1 gal & 5 gal	Its unique flowers can be up to 4 inches in diameter with white outer petals and an inner layer of filaments that are ringed in blue, white, and dark purple towards the center. Monsoon rains spur the biggest flush of blooms in late summer and early fall, and many of them give off a light perfume as they open. Blue passion flower is one of the hardiest passion flower varieties you can buy.	Enredadera	Sus flores únicas pueden tener hasta 4 pulgadas de diámetro con pétalos exteriores blancos y una capa interna de filamentos que están anillados en azul, blanco y púrpura oscuro hacia el centro. Las lluvias del monzón provocan la mayor cantidad de flores a finales del verano y principios del otoño, y muchas de ellas desprenden un ligero edorcando se abren. La flor de la pasión azul es una de las variedades de flores de la pasión más resistentes que puedes comprar.
