

Lee Revere, MS, PhD, FACHE, a Florida native, is a Professor and Florida Blue Endowed Chair in the Department of Health Services Research, Management and Policy at the College of Public Health and Health Professions at the University of Florida. She earned her bachelor's degree in industrial engineering from the Georgia Institute of Technology and earned her master's degree in healthcare administration from Trinity University. She later earned her Ph.D. in health policy and management from the University of South Florida College of Public Health.

Prior to her current position at the University of Florida, Dr. Revere served as a professor in the department of management, policy and community health at the University of Texas Health Science Center Houston School of Public Health and as the director of the George McMillan Fleming Center for Healthcare Management. Her background in industrial care (SunHealth Alliance, Christus Health System, Humana Health Plans, HealthHelp Networks) led her to academia and research. With more than ten years of managerial experience and thirty years of academic research experience, she is heavily focused on studying the impact of fiscal policies on organizations and the patients they serve.

Dr. Revere recently became a Fellow of the American College of Healthcare Executives (FACHE) and was named an American Medical Association Health Systems Science Scholar.
