

Roxana Delgado is a 2013 graduate of the Interdisciplinary Health Sciences PhD program in the College of Health Sciences. Dr. Delgado came to UTEP with an MS in Epidemiology from the University of Puerto Rico, and completed her doctoral program under the direction of Dr. Leslie Robbins, current Dean of the School of Nursing. Dr. Delgado's work was based in her lived experience as a spouse of an active duty soldier who experienced a moderate traumatic brain injury while deployed in Iraq. She currently serves as an assistant professor at the University of Texas Health Science Center at San Antonio.

Dr. Delgado is a national advocate for military and veteran healthcare, especially in the area of caregiving and traumatic brain injury. Her research focuses on the health of military caregivers, the emergence of disease and the bio psychosocial impact of caregiving.

She is a co-author of "The Caregivers Companion" book and serves as an advisor to a number of organizations aiming to improve the health, wellbeing and national policies for wounded, ill and injured veterans and their families.
