

BS in Rehabilitation Sciences Advising Information – Spring 2027

BS-RHSC concentrations:

PHTH – Physical Therapy

OCTH – Occupational Therapy

INHS – Interdisciplinary Health Sciences

SPLA – Speech Language Pathology

SLHS – Speech, Language, and Hearing Sciences

BS-RHSC students are responsible for:

1. Knowing your degree plan, including but not limited to:
 - *Pre-requisites and co-requisites*
 - *Course sequences*
 - *Where you have options and what those options are*
 - *GPA and grade requirements*
 - *Graduation requirements*
2. Registering **ON TIME** to have best access to courses (taking care of holds ahead of time)
3. Preparing for **Graduate School** self-sufficiently, early, and using your resources:
 - Research which graduate programs you plan to apply to
 - Check the course pre-requisites, other application requirements, and deadlines of those schools (all available on each school's website)
 - Incorporating your grad program pre-reqs into your degree at an **appropriate time** (PT and OT should aim to get pre-reqs done **before** senior year)
 - Join the appropriate **Registered Student Organization** early, which will help you prepare to apply and provide mentoring for the process (STARS, PPTA, NSSLHA, FOTA, MPO).
4. Advocating for yourself and being **proactive**
5. Asking questions if any part of your degree plan is unclear – ask your advisor!

All RHSC students with 0-45 credits are advised by the Academic Advising Center.

Once you reach 46 credits, your advisor is in the CHS Student Support Center:

Last Name Starts With	Advisor	Advisor Email
A,B,C,J,K,S,U	Denise Tovar	datovar2@utep.edu
D,E,F,G,H,I,N,Q,T,W,X,Y,Z	Samantha Fernandez	snfernandez@utep.edu
L,M,O,P,V	Alejandra Avalos	aavalos8@utep.edu
R	Alondra Miranda	ajmiranda@utep.edu

DRSC CLASS OFFERINGS (subject to change)

Class	Spring 2027	Summer 2027	Fall 2027

DRSC 4331 (elective)			

Contact Dr. Valencia (cvalencia4@utep.edu) with questions about DRSC Course Offerings.

BS-RHSC Elective Options: The below list is the “pre-approved” BS-RHSC electives list for PT, OT, and INHS.

- If you are in the **Interdisciplinary Health Sciences (INHS)** concentration, please review your specific degree plan for additional elective options.
- If you are in the **Speech, Language, and Hearing Sciences (SLHS)** concentration, please review your specific degree plan for elective options.
- **PT Concentration** Students – remember you can only count **3 cr.** of lower-division courses (1000 or 2000 level) toward your 15 cr. of BS-RHSC electives.
- Students are responsible for checking and making sure they have met pre-requisites for BS-RHSC Electives (pre-reqs are listed in the course descriptions here: <http://catalog.utep.edu/undergrad/course-descriptions/>)
- For those of you on older versions of the degree plans, courses below are **additional options** for the concentrations listed. If a course below is not listed on the degree plan you received, you must request the substitution by emailing the course you wish to take to your advisor (see page 1). **If this is not submitted, the course will not count.**
- If you wish to take a class **not** listed on your degree plan or on the list below for a BS-RHSC elective, you must submit the request via email to your advisor with a **rationale** as to how that course fits into your professional plans.

Course	PT	OT	INHS
ANTH 4363 Cross-Cultural Pers. On Health	X	X	X
BIOL 3320 Genetics	X	X	X
BIOL 4388 Mammalian Physiology	X

WS 3394 Gender, Health, & Medicine	X	X	X
ZOOL 4181 Vertebrate Physiology Methods	X		

*HSCI 3313 is the same class as DRSC 3332; credit can only be earned for one of the classes.

**You must email your advisor if you want permission to take any KIN classes – departmental permission required and pre-requisites must be met

***Students interested in taking SPLP 1300 must reach out to advisor to request approval for course to count towards RHSC electives.

Additional Important Notes for all RHSC students:

- **RHSC GPA: 3.0 cumulative GPA is required to stay in good standing in the BS-RHSC major**
 - To be competitive for graduate school, you should work to get your GPA **significantly** higher than a 3.0 (3.5+ recommended)!
 - Graduate programs look at your overall GPA but also specifically at the **pre-requisite GPA**, so keep that in mind.
- If you fall below a 3.0 GPA, you will get an **Academic Warning**. You have the next 12 credit hours to bring your cumulative GPA up to the 3.0.
 - If you **do not** reach the 3.0 GPA at the end of the academic warning period, you will be required to change your major. You will be **dropped** from any DRSC or SPLP courses that are on your future schedule if you are dismissed from the RHSC major.
- If you have issues registering for DRSC, SPLP or any other courses, email your advisor **after** checking that you have met the pre-requisites and that the courses are listed on your degree plan.

Additional Information for Speech Students

- All SPLP courses require departmental permission.
 - Permissions will be given to courses that are **on your sequence** (please refer to your specific degree plan for sequence).
- You cannot start the SPLP sequence in spring semesters – it only starts in **fall** semesters.
- If you have not yet started the sequence and you are above 46 credits – you will be placed on the 2-year sequence starting in **Fall 2027**. This will allow your earliest graduation date to be **May 2029**.
- It is strongly suggested that you take BIOL2311/2111 **before** starting the SPLP sequence.
- If you have started the sequence – keep going!
- It is strongly recommended to earn Cs in each SPLP class to remain competitive for the graduate program.
- SPLP 1312 (Fall) may be taken prior to starting the SPLP sequence – check with your advisor.
- Email your advisor if you have any questions.
