**Nutrition Minor Acceptable Substitutions**

**Kinesiology Majors:** When choosing a Nutrition Minor there is one course in the pre-professional course section (HSCI 2302 Fundamentals of Nutrition) that is also part of the Nutrition Minor. For that reason when pursuing a Nutrition minor you must enroll in CHEM 1408 or BIOL 3320 in order to meet the requirements of the NUTR minor.

**Choose one of the following to substitute HSCI 2302 Fundamentals of Nutrition:**

**CHEM 1408 Introductory Chemistry:** A continuation of CHEM 1407. Includes surveys of organic chemistry and biochemistry. Prerequisites: MATH 0311 or placement by examination and CHEM 1407.

**BIOL 3320 Genetics:** The nature and functions of hereditary material with emphasis on the experimental procedures and data that have led to the current concepts in genetics. Prerequisites: BIOL 1305 & 1107 and BIOL 1306 & 1108.
