

Hunt Business Student Development Ecosystem

Dr. Rolando Nunez

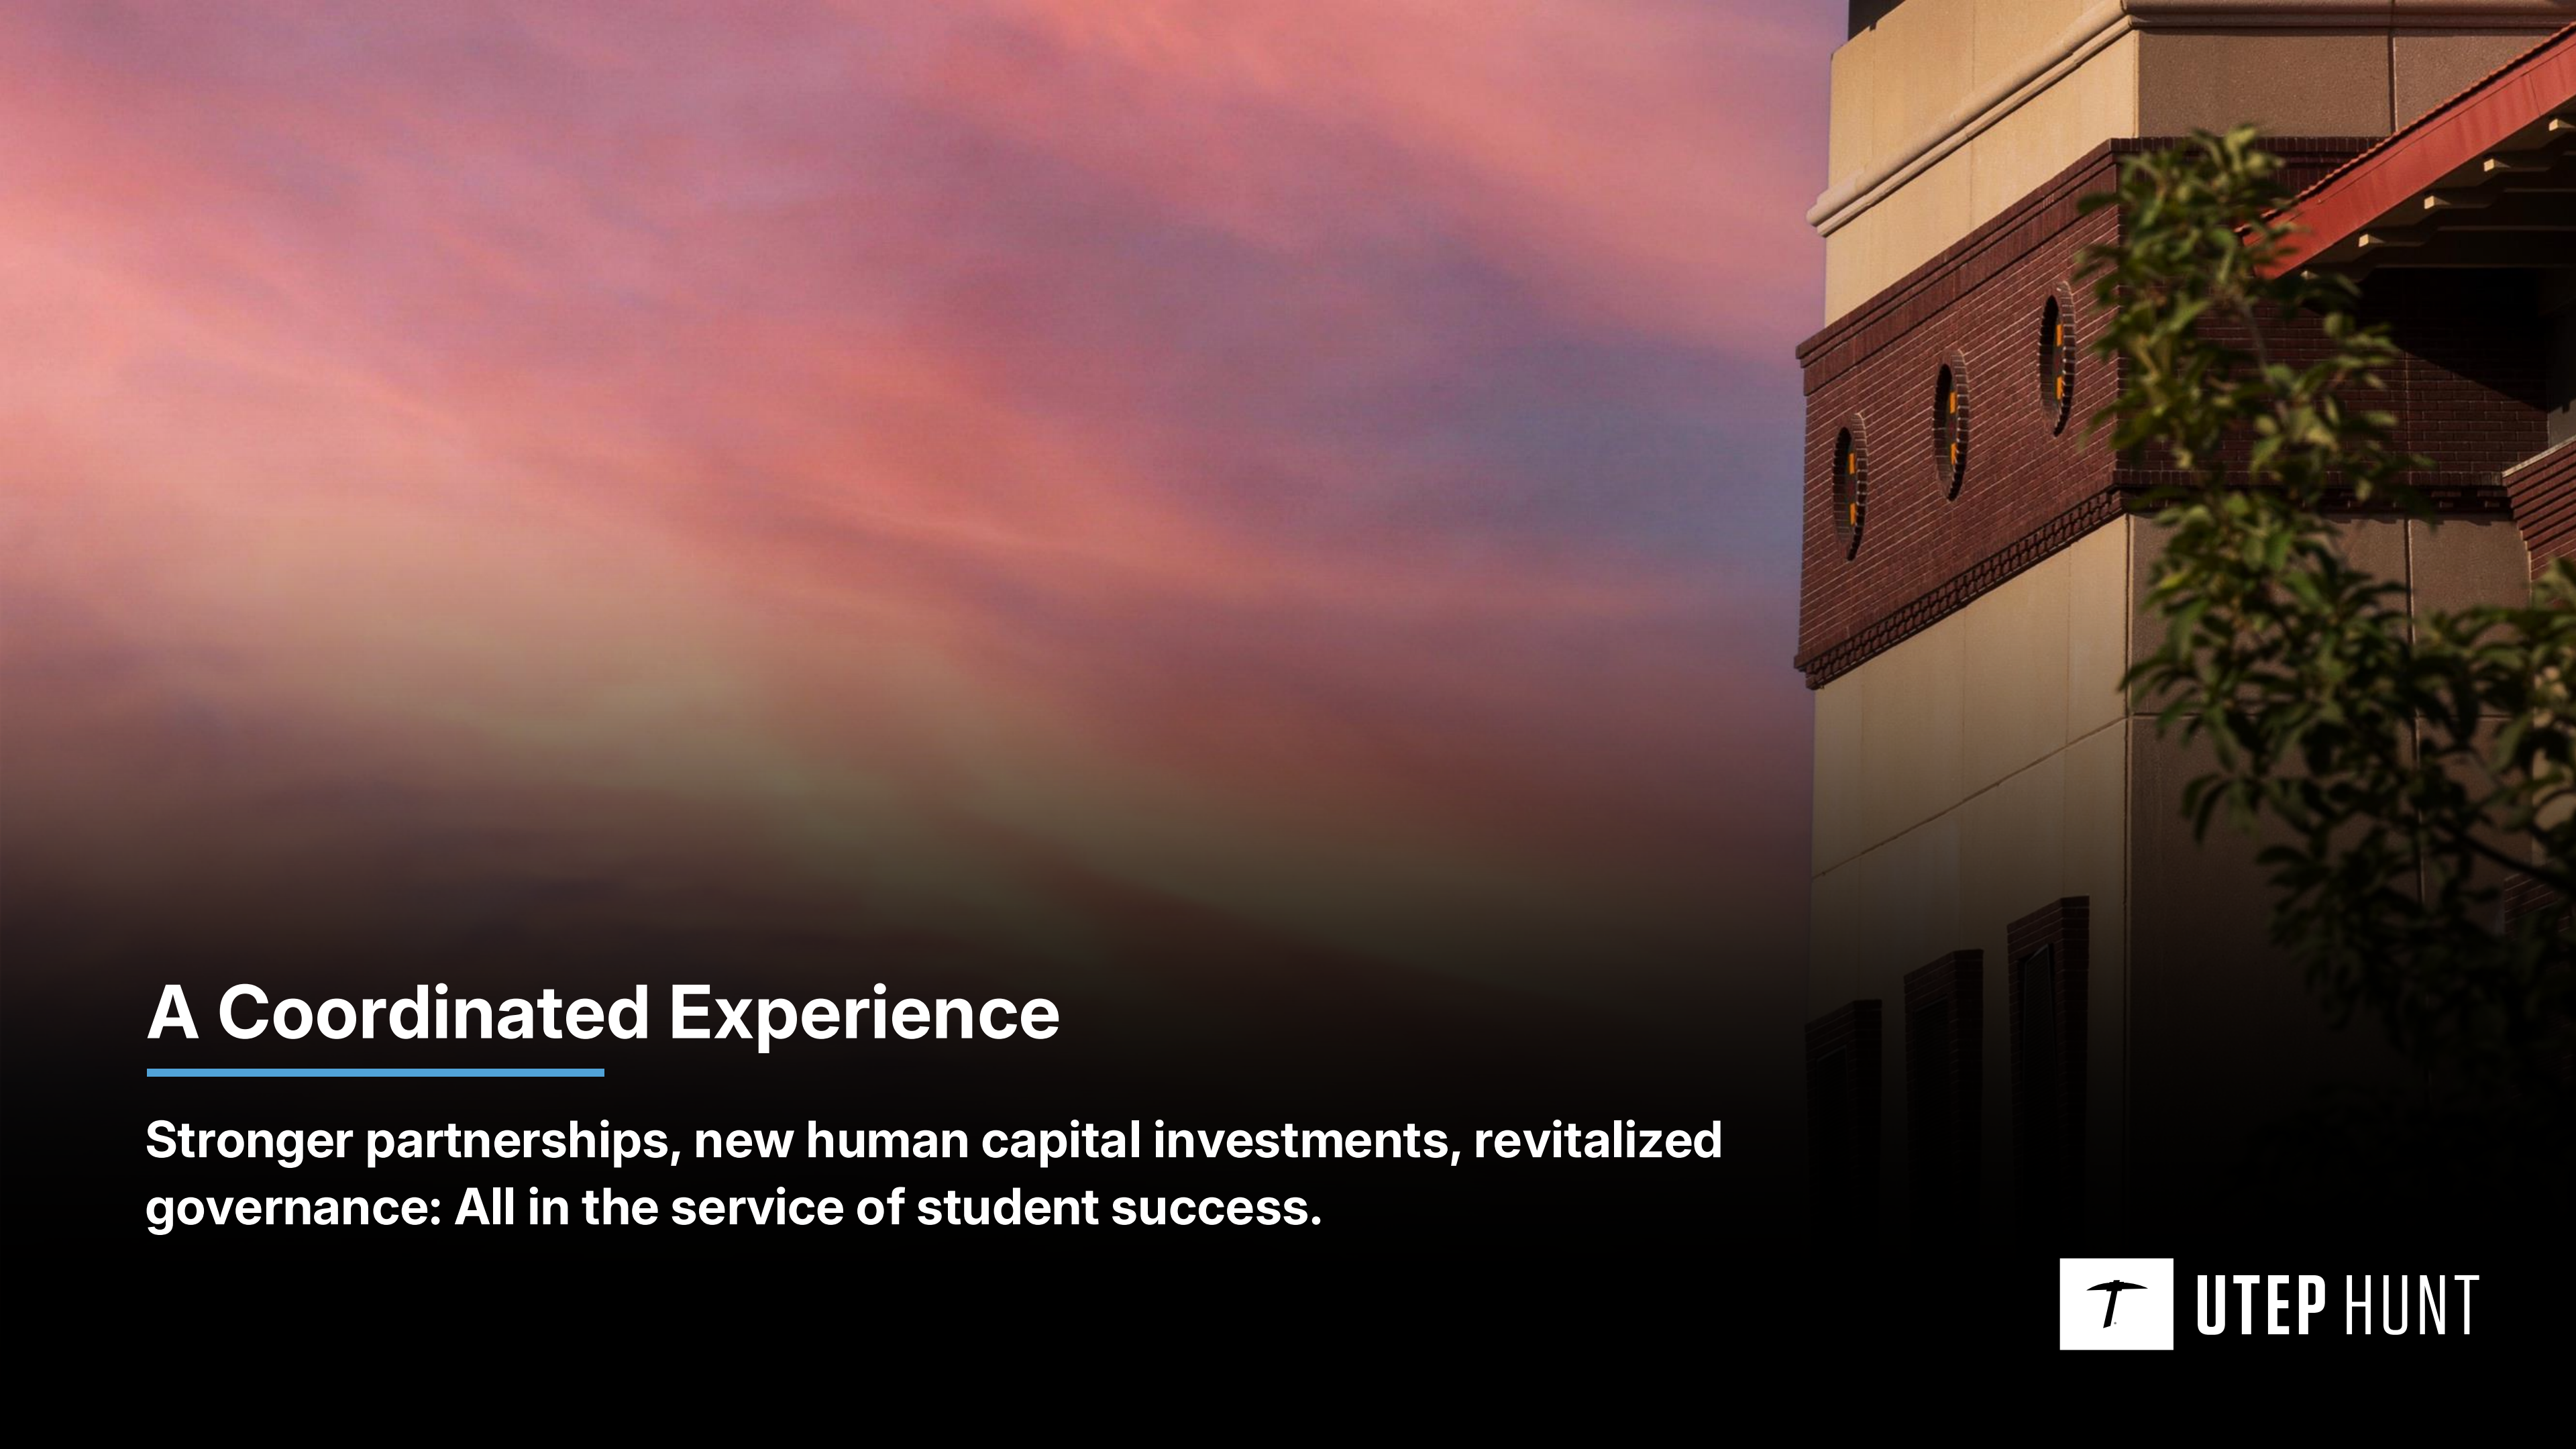

**Assistant Dean for Applied Learning
and Workforce Development**

Hunt Business Student Development Ecosystem

A coordinated model advancing career readiness, experiential learning, and employer engagement across the student lifecycle.

UTEP HUNT

A Coordinated Experience

Stronger partnerships, new human capital investments, revitalized governance: All in the service of student success.

Student Lifecycle Model

Programming is intentionally sequenced across the student experience.

- Entry

- Lead

Integrated Development Pillars

Structured Career Architecture

Employer Integration

Immersive and Competitive Learning

Cross-Border and Global Engagement

Leadership and Mentorship Development

Jacob Monarez

Banking Academy Manager

Structured Career Architecture

Career preparation is embedded in the curriculum and advising experience.

Employer Integration

Industry engagement is built directly into the student experience.

Immersive and Competitive Learning

Students learn by doing through national, competitive, and high-impact experiences.

Cynthia Perales

Director of Corporate and Alumni Engagement

Cross-Border & Global Engagement

Experiential learning reflects the region's binational economy and outward-facing business context.

Leadership and Mentorship Development

Students build leadership capacity through structured engagement, governance, and coaching.

UTEP Edge Alignment

The ecosystem advances UTEP Edge outcomes through repeated, applied student experiences.

Leadership

Critical Thinking

Communication

Teamwork

Entrepreneurship

Professional Confidence

Measurable and Sustainable Impact

The model is sustainable because it is embedded in the curriculum, co-curricular activities and college staffing infrastructure.

Architecture for Student Success

Hunt Business built a structured ecosystem that integrates:

- Career readiness
- Experiential learning
- Employer engagement
- Leadership development
