

Sample: Interview Questions

Questions on future goals:

- How do you think this internship experience will prepare you for your career?
- Why are you interested in an internship with our company/organization?
- What experience do you hope to gain in an internship?

Questions on academic experiences:

- Can you tell me about your academic background, and what led you to pursue your current field of study?
- How do you ensure efficient communication with classmates and group members?
- How do you approach learning new concepts or skills within your courses that are difficult to understand?

Questions on technical skills:

- What technical skills or tools do you believe you are proficient in, and how do you plan to utilize them during your internship?
- How do you stay updated on emerging technologies and tools in your field, and how do you plan to apply this knowledge during your internship?
- Tell us about a time you worked on a technical project (academic or personal), and describe which skills/tools you utilized to complete it.

Behavioral questions:

- Tell us about a time you worked in a team. What was your role and what were the results?
- What is one recent problem someone has called on you to solve? Tell me about your contributions to solving the problem.
- Share one past experience that closely relates to this internship.
- Tell us about a time you planned an event. How did you go about it, and what were the results?
- Can you provide an example of a time when you had to demonstrate leadership skills in a challenging situation?
- Describe a situation where you had to resolve a conflict within a team during a group project. How did you approach the conflict, and what was the outcome?
- Share a time when you had to adapt to unexpected changes in a project or task. How did you handle the situation, and what did you learn from it?
