ATTENTION TEACHERS

$800 stipend per teacher
- Priority for teachers in Project Lead the Way & STEM
- Teacher recruits team of 5 juniors or seniors to participate with the teacher
- 6 teams per session

You and your students will

Experience a shorter version of the National Science Foundations’ Innovation-Corps, learning to identify key product opportunities and gaining skills in entrepreneurship through training in customer discovery.

Gain skills in forming and testing hypotheses and in design thinking for engineering and entrepreneurship.

Receive mentoring by high level engineering students and by faculty from UTEP’s Engineering Leadership program.

Learn how to find important needs, to invalidate hypotheses, to design engineering solutions, and to present a start-up.

Acquire experience in presentations and delivery where critical thinking is key.

Weekly Sessions Offered

JUNE 1 - JULY 31
Monday - Thursday
9AM-4:30PM
*LUNCH PROVIDED*
UTEP E-LEAD STUDIOS
