CALL FOR PAPERS

Submit research papers to sets@utep.edu by February 16, 2024

The organizers of the 2024 Southwest Emerging Technology Symposium (SETS For Impact) are now accepting submissions from researchers. SETS invites any student conducting research in collaboration with the UTEP Department of Engineering to submit a paper on their research for consideration.

Details:

- Use [SETS templates](#) to prepare research papers, presentations, and posters.
- If SETS accepts your research paper for presentation at the conference, the organizers will decide if your presentation will be in a poster presentation or in a breakout session.
 - All undergraduate researchers will present their research in a poster session. Researchers are responsible for printing their own poster.
 - All graduate researchers will present their research in a breakout session.
 - Each presenter will have 20 minutes to show their work: 15 minutes to present and 5 minutes for questions and answers.
- The conference will set aside designated rooms for the presentation of research that is restricted by ITAR rules. Conference organizers will restrict access to these rooms to comply with ITAR rules.
- Submit research papers, posters, and presentations to sets@utep.edu by February 16, 2024 with the subject line: "SETS 2024 submission."
