What is the Ninjaneer Program?

The Ninjaneer program aims to provide students with various volunteer opportunities throughout the College of Engineering. Through these opportunities, students may engage with and create a connection with the College of Engineering, the UTEP campus, and the El Paso community, in general.
## Volunteer opportunities the program has to offer:

Volunteer Opportunities: TCM Day

Event:
The longest-running tradition on campus where participants unite to do three things:

1. to remember the university’s roots of mining and engineering
2. to pay homage to the patron saint of engineering, St. Pat.
3. to grow our school spirit of being UTEP Miners.

Roles for Volunteers:

- Coordinate and execute team-building activities that are integrated throughout the day
Volunteer Opportunities: Assembly of the Engineers

Event:

In recognition of their academic accomplishments, all receiving a Bachelor of Science degree will receive an official Order of the Engineer stainless steel ring to be worn on the pinky finger of their working hand to show their obligation to the engineering profession.

Roles for Volunteers:

- Serve as ushers while making attendees feel welcomed
Volunteer Opportunities: Tutoring services at ACES

Services:
To maximize the potential of fellow students seeking academic support and success. At ACES we believe a tutor facilitates appropriate learning attitudes and behaviors that will lead to a commitment of lifelong learning.

Roles for Volunteers:

* Tutor students in need using math, science and engineering skills.
Volunteer Opportunities: E-Week Tours

Event:

High school students from various T-STEM schools are given a custom tour of the College of Engineering, while educating them on the degrees and opportunities the college has to offer.

Roles for Volunteers:

- Serve as tour guides and lead a “track” of students to various locations around campus
Volunteer Opportunities: FIRST Robotics Competitions

Event:
To attract K-12 students into STEM fields through FIRST Robotics Competitions.

Roles for Volunteers:
- Work and communicate with other volunteers and students
- Set-up and Tear-down
- Promote and Publicize
- Think Critically & Problem-solve
Volunteer Opportunities: Career Days at K-12 Schools

Event:
Visit K-12 schools during Career Days

Roles for Volunteers:

- Speak to students about your experiences and excite and inspire them thorough your words.
Frequently Asked Questions

Why Volunteer?
- Great resume builder and career booster
- Gain connections with FIRST and robotics in El Paso
- Spark an interest in STEM and make an impact

Where do I sign up?
- Sign up to volunteer at [https://ninjaneerssignup.questionpro.com/](https://ninjaneerssignup.questionpro.com/) or scan the QR code below!

Why the name Ninjaneer?
- We are here to recognize the stealthy individuals who find time to contribute to the many programs in the College of Engineering.

Still have questions?
- Feel free to email Ninjaneer@utep.edu
