

# ISO 14001:2015 Environmental Management System: Implementation & Internal Auditor

**Course description:** ISO 14001:2015 detects and reduces waste in resources and processes, and statistics show immediate return on investment and savings.

Compliance to this EMS assists companies with their compliance issues at local, state and national levels. Aspects (the things within a company that could impact the environment) are identified and prioritized and action plans developed to eliminate or reduce them.

## Topics Include:

- Meeting the requirements of ISO
- Understanding basic auditing principles
- Seeking objective/audit evidence through documentation
- Ground rules for auditors
- Planning ahead for an effective audit
- Performing an internal audit
- Reporting audit results
- Closing out corrective actions
- Exercises/Role-plays

## Objectives:

- Minimize defects and inefficiencies caused by variance
- Reduce the number and scope of customer surveys
- Focus effort on continuous improvement and prevention instead of reaction
- Encourage management prioritization of process changes
- Achieve consistency throughout the company
- Improve supplier and customer communication
