

CONNECTED CLASSROOM

Learning
Environments

WHAT IS A CONNECTED CLASSROOM?

A room equipped with a high definition PTZ camera and a microphone which can be utilized by plugging a USB cable into your laptop or the room's desktop computer. The equipment is focused on capturing a larger classroom space and has more features than a "webcam and microphone". The equipment can be used to stream, record, and engage students that are joining class either synchronously or asynchronously.

WHERE ARE CONNECTED CLASSROOMS LOCATED

Campbell Building		Classroom Building	Fox Fine Arts	
113	211	205	443	
115	212	301		
Health Sciences		Liberal Arts	UGLC	
217		107	106	128
		108	116	220
		318	126	346
