

Siberia: Russia's Frozen Wasteland or Economic Heartland?

Siberia covers three quarters of Russia's territory but is home to only a quarter of its population. Yet its role in shaping Russia as a vast and wealthy empire is profound. In this course, we will explore Siberia's economic significance, indigenous cultures, and history as a penal colony, along with its importance for climate change, environmental issues, and Russian-Chinese relations. We will also consider Siberia's role in both the rise and possible fragmentation of Russia.
