JORGE THOMPSON
PROGRAM MANAGER

Jorge was born and raised in El Paso, Texas, and graduated in the spring of 2017 with a Bachelor's degree in Psychology from The University of Texas at El Paso. Prior to joining Professional and Public Programs as a Youth Coordinator, Jorge worked as a program coordinator for GEAR UP and Communities in Schools serving students at Montana Vista Elementary and Riverside High School. He also served with AmeriCorps for a nonprofit called College Forward in Austin, Texas and earned the Segal AmeriCorps Award. In May 2021, after his experience with AmeriCorps, he graduated with a master's degree in education from Angelo State University with a focus in Student Development and Leadership.

Jorge has had wonderful opportunities to work with first-generation students from K-12 and college and believes he would never have developed his passion for education without these experiences. He enjoys encouraging and motivating students to chase their dreams while challenging and supporting them during their journey. His goal is to pursue a doctoral degree and either become a director in the student affairs division of a higher education institution or start his own nonprofit where he can continue to inspire students.

Favorite inspirational quote: "One of the most important things in life is to try and inspire other people so that they can be great in whatever they want to do." – **Kobe Bean Bryant**
