Online Master of Science in Construction Management

Admissions Requirements

To qualify for admission to the online Master of Science in Construction Management program, you must:

- Submit a completed graduate admission application
- Submit official transcripts in accordance with the requirements of the Graduate School
- Have a bachelor's or master's degree from an accredited college or university in civil engineering or another related discipline such as architecture, business or physical science*
*Candidates from other backgrounds will be considered if they have construction experience acceptable to the department

Recommendations for admission are made on the basis of the following:

- GPA in upper-division or graduate work as appropriate
- Resumé or evidence of relevant personal or professional experience
- Letters of recommendation (optional)

International students must also submit:

- Official TOEFL (Test of English as a Foreign Language) score of at least 79 on the online version, or 550 on the paper-based version

Note: Admissions packages are evaluated utilizing all of the requirements listed above. There are no minimum scores required.
