Proposal Title: Adding Courses to BS-AERO.

The Aerospace and Mechanical Engineering Department has launched the B.S. in Aerospace and Aeronautical Engineering in Spring 2022. We are requesting the following changes.

1. Add CE 2326 as one of the degree requirements. Some AERO courses require CE 2326 as a prerequisite.
2. Add BIOL 1305/1107 to the science elective area. BIOL 1305, General Biology, and BIOL 1107 may be taken concurrently.
3. Since the Engineering Analysis I course is no longer offered by the department, we would like to change the name of Engineering Analysis II, to be only Engineering Analysis, which is MECH 3352.
This name change will affect both the B.S. in Aerospace Engineering and BS. in Mechanical Engineering.

These changes needed to make minor adjustments to the new Aerospace program to match that of mechanical engineering. This will give students transitioning between degrees more flexibility
