Proposal Title: Changes to Prerequisite for Engineering Analysis II, MECH 3352

The Aerospace and Mechanical Engineering Department proposes the following change in the prerequisite for the Engineering Analysis II class, MECH 3352. The change is adding the Engineering Computation lab, MECH 2103, which will help the students gain the basic MATLAB skills required to perform well at the next level course, MECH 3352, where more programming skills are needed.

Thus, the Engineering Analysis II course will have two prerequisites: MECH 2103 with a grade of "C" or better and Differential Equations, MATH 2326 with a grade of "C" or better.
