Subject: Request to modify the prerequisite for OSCM 4375

The Department of Marketing proposes the following two changes to the OSCM 4375 course:

(1) Remove CIS 3345 as a prerequisite to OSCM 4375: OSCM 4375 is a required course in the Operations and Supply Chain Management degree plan. Currently, the prerequisite courses for OSCM 4375 are CIS 3345, OSCM 3321, and QMB 3301. Since Fall 2018 students majoring in Operations and Supply Chain Management have not been required to take CIS 3345 as part of their degree plan. Therefore, having the CIS 3345 class as a prerequisite course for OSCM 4375 is no longer necessary.

(2) Add QMB 3350 as a prerequisite to OSCM 4375: OSCM 4375 is one of the electives available to students with a minor in Operations and Supply Chain Management. Given that some business majors require QMB 3350 – Business Analytics instead of QMB 3301 - Quantitative Methods in Business, QMB 3350 needs to be added as part of the prerequisites for OSCM 4375.

With these updates, the prerequisites for OSCM 4375 will be OSCM 3321 AND QMB 3301 OR QMB 3350 (for non-OSCM majors).
