This proposal requests changes to the prerequisite of EE 3353 from “(EE 2353 w/C or better ) AND (MATH 2326 w/C or better )” to “(EE 2350 w/C or better ) AND (CS 1320 w/C or better )”.

This will update prerequisites to minimum required to take the course based on the Digital Signal Processing (DSP) first approach and support recently approved computer engineering minor and proposed BS in computer engineering. This is a national movement to introduce teaching DSP early in the curriculum and increase student engagement in this area.
CURRICULUM CHANGE PROPOSAL

APPROVAL PAGE

Proposal Title: Course Revision – EE 3353 Discrete Time Signals and Systems

College: College of Engineering  Department: Electrical and Computer Engineering

DEPARTMENT CHAIR

I have read the enclosed proposal and approve this proposal on behalf of the department.

Signature _________________________________  Date _________________________________

April 3, 2021

COLLEGE CURRICULUM COMMITTEE CHAIR

I have read the enclosed documents and approve the proposal on behalf of the college curriculum committee.

Signature _________________________________  Date _________________________________

COLLEGE DEAN

I have read the enclosed documents and approve the proposal on behalf of the college. I certify that the necessary funds will be allocated by the college in support of this proposal.

Signature _________________________________  Date _________________________________
COURSE CHANGE FORM

All fields below are required

College : Engineering          Department : Electrical and Computer Engineering

Rationale for changing the course:
Update prerequisites to minimum required to take the course based on the DSP first approach and support recently approve computer engineering minor and proposed BS in computer engineering.

All fields below are required

Subject Prefix and number EE 3353

Course Title  Discrete Time Signals & System
