

FALL 2025 NIH FELLOWSHIP APPLICATION SUPPORT FOR GRADUATE STUDENTS & POSTDOCTORAL RESEARCHERS

THE UNIVERSITY OF TEXAS AT EL PASO
GRADUATE SCHOOL

The National Institutes of Health (NIH) supports training of graduate students and postdoctoral fellows through the individual Ruth L. Kirschstein National Research Service Award (NRSA) including the F31 Predoctoral Fellowship program (for Doctoral-Seeking Graduate Students) and the F32 Individual Postdoctoral Fellowship program (for Postdoctoral Researchers). These fellowships provide stipends for salary support as well as a small institutional allowance to partially offset costs of research, tuition, and health insurance. Visit <https://www.nichd.nih.gov/grants-contracts/training-careers/extramural/individual> for more detailed information. The Graduate School is hosting its inaugural faculty-led **Wednesday Workshop Series** to assist graduate students and postdoctoral researchers in preparing their applications due this semester on **December 8, 2025**. Dates, session topics, and locations are provided below. Register for each individual session on MineTracker.

WEDNESDAY SESSIONS

Date	Time	Session Topic(s)	Location*
