

Key Takeaways

Employment

- In 2020, El Paso and Las Cruces both exhibited declines compared to 2019 in terms of average total non-farm employment levels, with El Paso decreasing by approximately 3.9% (12,700 jobs lost) and Las Cruces by approximately 5.6% (4,200 jobs lost).
- Breaking down average employment into ten sectors, the Leisure and Hospitality sector exhibited the largest decline on a relative and absolute basis for both El Paso and Las Cruces from 2019 to 2020, dropping by approximately 18.0% (6,800 jobs lost) and 27.9% (2,400 jobs lost), respectively.

Hotel Occupancy Rates

- Prior to the onset of the recession induced by the COVID-19 crisis, El Paso had the highest hotel occupancy rates on a monthly basis for the selected metropolitan statistical areas (MSAs) for nearly the entirety of 2019 and the beginning of 2020.
- In 2020, each of the selected MSAs, except for McAllen, reached its highest occupancy rate in February, before falling sharply in March and April. All MSAs exhibited their lowest rates of the year in April, with El Paso at 31%, Las Cruces at 25%, and Ciudad Juárez down to an all-time low of 8%.

Hotel Occupancy Taxes

- In 2020, each of the selected Texas cities witnessed lower figures in terms of hotel occupancy tax collections when compared to both 2019 and 2018 fiscal year figures.
- El Paso had the third largest absolute decrease of selected cities, falling by approximately \$3.7 million (-24%), while San Antonio and Austin fell by \$41.4 million (-44%) and \$19.5 million (-18%), respectively.

Employment

El Paso and Las Cruces See Jobs Fall in 2020

Average employment for El Paso and Las Cruces was down in 2020 compared to 2019, led by steep losses in the Leisure and Hospitality sector.

In 2020, El Paso and Las Cruces had average total non-farm employment levels of about 311,300 and 69,700, respectively. For both cities this was a decline from average total non-farm employment in 2019, with El Paso decreasing by approximately 3.9% (12,700 jobs lost) and Las Cruces by roughly 5.6% (4,200 jobs lost). Breaking down average employment into ten sectors, the Leisure and Hospitality sector saw the greatest decline on a relative and absolute basis for both El Paso and Las Cruces, dropping by approximately 18.0% (6,800 jobs lost) and 27.9% (2,400 jobs lost), respectively.

The Leisure and Hospitality employment sector registered its largest decrease on a year-over-year basis in April across selected cities. In fact, these decreases recorded an all-time low across any month. Although it was followed by a rapid recovery that continued until June and then a relatively flat

recovery phase up to December for most of the selected cities, the Leisure and Hospitality employment sector has not yet reached its one-year prior levels for any of the selected cities after April. Las Cruces, moreover, has continued to experience larger year-over-year decreases since October, dropping by 46.5% (4,000 jobs lost) in December.

Leisure and Hospitality Sector Employment (Year-over-Year, %)

Hotel Occupancy Rates

Steep Declines in Hotel Occupancy

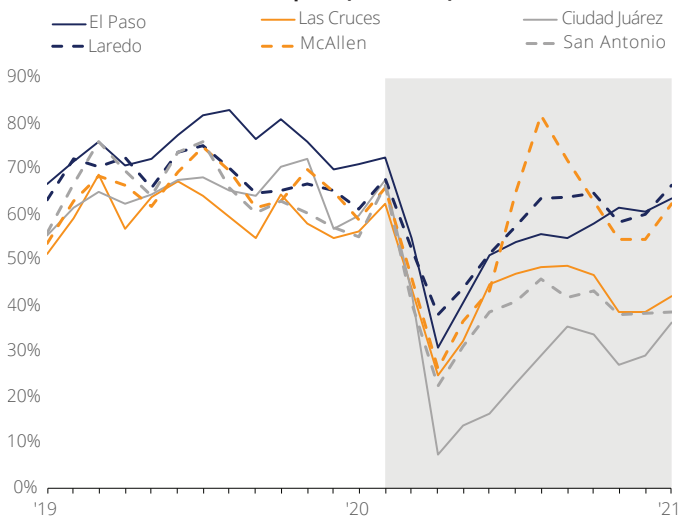

Paso del Norte region hotels exhibited significantly lower hotel occupancy rates throughout most of 2020, with the lowest point in April.

Prior to the onset of the recession induced by the COVID-19 crisis, El Paso had the highest hotel occupancy rates on a monthly basis for the selected metropolitan statistical areas (MSAs) for nearly the entirety of 2019 and the beginning of 2020. In 2019, El Paso's peak occupancy rate was observed during August at a rate of roughly 83%. Laredo, McAllen, and San Antonio all exhibited their highest rates during July at roughly 75%, 75%, and 76%, respectively, while Las Cruces and Ciudad Juárez witnessed theirs in March (69%) and November (72%), respectively. For all selected MSAs, January was the month with the lowest occupancy rate in 2019, with El Paso, Las Cruces, and Ciudad Juárez having rates of about 67%, 52%, and 56%, respectively.

In 2020, each of the MSAs, except McAllen, reached its highest occupancy rate in February, with El Paso, Las Cruces, and Ciudad Juárez at 73%, 63%, and 68%, respectively. Hotel occupancy rates fell sharply for all MSAs in March and April, and then fluctuated the rest of the year while trending upward to show signs of recovery. All MSAs exhibited their lowest rates of the year in April, with El Paso at 31%, Las Cruces at 25%, and Ciudad Juárez down to 8%. McAllen's occupancy

rate, however, reached its 2020 peak in August at 82%, its highest rate for all 25 months analyzed. In January 2021, Laredo and McAllen were the only two selected MSAs to see a higher hotel occupancy rate compared to the same month in 2020, the first year-over-year increases for any of the selected MSAs since February of last year. Ciudad Juárez's hotel occupancy rates have been hit the hardest, reaching the lowest rate in April (8%), and although it has slowly recovered, it remains the lowest in terms of hotel occupancy rates across selected MSAs.

Hotel Occupancy Rates by MSA

Note: Data as of January 2021. McAllen includes Edinburg and Mission; San Antonio includes New Braunfels. Shaded area indicates NBER defined recession (2020 recession began in February with no end date at time of publication).

Hotel Occupancy Taxes

Texas Cities Fall in Hotel Occupancy Tax Collections

Hotel occupancy tax collections in selected Texas cities declined in the 2020 fiscal year with San Antonio and El Paso recording the largest decreases in relative terms.

The Leisure and Hospitality sector includes the arts, entertainment, and recreation sub-sector as well as the accommodation and food services sub-sector. The accommodation sub-sector includes those establishments that provide lodging or short-term accommodations, which have experienced substantial declines in rentals and revenues. Factors contributing to this decline have been restrictions on business travel, cancellations or limited access to tourist spots, and a rise in virtual alternatives to traditionally in-person events. However, Texas Governor Gregg Abbott announced on March 2nd that, beginning on March 10th, businesses are allowed to reopen at 100% capacity if the COVID-19 hospitalization threshold is met.

Of selected Texas cities, Austin collected the most in hotel

occupancy taxes during 2020 with \$89 million. Houston ranked third from the selected list from 2017 to 2019 and second in 2020, collecting a total of \$84 million. San Antonio moved down the list, ranking third and collecting \$52 million in hotel occupancy taxes in 2020. Lastly, El Paso collected around \$12 million. In 2020, each of the selected cities fell in terms of hotel occupancy taxes collected compared to 2019. San Antonio witnessed the largest relative and absolute decrease, falling by 44% (-\$41.4 million). El Paso had the second largest relative decrease and third largest absolute decrease, falling by approximately \$3.7 million (-24%), while Austin fell by \$19.5 million (-18%). The decrease in relative and absolute terms for Houston of 2% (-\$1.6 million) was the least of the selected cities. Additionally, all selected cities' hotel occupancy tax collections recorded lower figures not only with respect to 2019 figures but also with respect to 2018 figures.

Hotel Occupancy Taxes for Selected Texas Cities, Million USD

Note: Reported collections are by each city's fiscal year.

Hotel Occupancy Taxes for Selected Texas Cities, Million USD

City	A 2019	B 2020	B-A	B-A (%)
San Antonio	\$93.5	\$52.1	-\$41.4	-44.3%
El Paso	\$15.4	\$11.6	-\$3.7	-24.3%
Austin	\$108.3	\$88.8	-\$19.5	-18.0%
Houston	\$86.1	\$84.4	-\$1.6	-1.9%

Note: Reported collections are by each city's fiscal year. In 2020, hotel occupancy tax rates by city are as follows: San Antonio 9%; El Paso 9%; Austin 11%; and Houston 7%. Other local authorities, such as counties, may charge additional rates. Numbers for El Paso and Austin are the sum of Tax Code Ch. 351 Revenue and Local Govt. Code Ch. 334 Revenue.
