

Publication/Presentation Contract
Latino Alcohol and Health Disparities

Unless otherwise decided, it is the first author's responsibility to ensure that the agreements entered here are fulfilled in the timelines stated. Should deadlines pass without fulfillment of agreements, a new contract should be written and signed by all authors. If a new contract is not ratified (e.g., because the first author is AWOL, not all authors agree with the new contract), rights of publication/presentation fall to the second author (unless otherwise decided) but authorship should be maintained
