Proposal Title: Intro to Music History

Explain the nature of the change and the rationale.

We propose to change the course title "Intro to Music History" to "Music, Culture, and Society" in order to more accurately describe the course. The title, "Intro to Music History", is limited and implies that the course centered on the history of Western symphonic music. This is redundant for music majors who are required to complete two semesters on the detailed history of Western classical music in Music History Surveys I and II. In (what is now) Intro to Music History, students will receive an introduction to the ways that music functions within cultures and societies around the world. "Music, Culture, and Society" better serves the purposes of this course. We propose to change the course description for accuracy.
