### RESEARCH IN PROGRESS

- 1 Working with a student to develop measures of trauma-informed care
- 2 Evaluation of a training grant that is designed to diversify undergraduate participation in the STEM fields. We are using propensity scoring to match students in the training program with students who are not in the training program to assess program effectiveness.
- 3 Analyzing data from the Hispanic Health Disparities Research Center’s Household Survey, where 1,002 Latino El Pasoans were surveyed about their health.
