      ______ SOCI 3000-4000 elective ________________________________________

The Minor in Sociology
Liberal Arts students have to have a minor as well as a major. Minoring in Sociology offers an excellent combination with many majors, such as Psychology, Communications, Criminal Justice, Political Science, History, and Anthropology. Combined with these other majors, it emphasizes the human element and the role of social structure. To do the minor, you need 18 credit hours in sociology (including nine at the advanced level); these credit hours include SOCI 1301, 3311, and 4301.
