A Message from the Dean

¡Bienvenidos! And thank you for your interest in pursuing pharmacy education at The University of Texas at El Paso! These are exciting times for the UTEP Pharmacy program, as we move from a Cooperative Program with The University of Texas at Austin (UT Austin) to a stand-alone School of Pharmacy at UTEP. By opening a new School of Pharmacy, UTEP is in a position to make a significant contribution to meet the health needs and challenges facing the Paso del Norte region. We are committed to working closely with our community partners toward this goal.

In May 2015, the Texas State Legislature allocated $7 million over the 2016-2017 biennium to expand the pharmacy program at UTEP. In November 2015, the UT Board of Regents approved the creation of the School of Pharmacy and established the Doctor of Pharmacy (PharmD) program at UTEP. To best meet the current and future health needs of the El Paso area and beyond, UTEP embarked on an aggressive and ambitious plan to open a pharmacy school and enroll the first PharmD class in fall 2017. The UTEP School of Pharmacy will be the first pharmacy school/college on the Texas-Mexico border that is not a cooperative program, and one of only a handful of pharmacy school/colleges at a Hispanic-Serving Institution (HSI) nationwide.

The Cooperative Pharmacy Program with UT Austin has proven fruitful in increasing the number of pharmacists in the region and providing continuing education for local pharmacists. While the Cooperative Program has served us well in many ways, it cannot meet the increasing demands for health care providers, specifically pharmacists, in this region. The UTEP School of Pharmacy will continue to meet its obligation to Cooperative pharmacy students who are already enrolled and looks forward to a continued strong and productive relationship with the UT Austin College of Pharmacy.

The University of Texas at El Paso School of Pharmacy Doctor of Pharmacy program was granted Pre-candidate status by the Accreditation Council for Pharmacy Education (ACPE) Board of Directors on July 11th, 2017. We are currently in the process of completing the Candidate status application, and underwent a Candidate Status Evaluating site visit in spring 2018.

The six-year accreditation process requires UTEP Pharmacy to demonstrate that it has the capacity, capability, and resources to institute a successful and competitive pharmacy program. We are confident that we can meet and exceed these requirements.

The UTEP School of Pharmacy is committed to UTEP’s twin goals of access and excellence through its admissions process, curriculum, clinical experiences, and community engagement. The integration and implementation of the UTEP motto is encapsulated within the proposed program’s vision and mission statement. The UTEP School of Pharmacy’s vision is “To be a pioneer in the advancement of pharmacy education through Innovation, Diversity, Engagement, Access, and Leadership (IDEAL) in our community and beyond.”

The program’s mission is “To bridge borders to achieve access and excellence by transforming pharmacy education, patient care, community engagement, research, and leadership for a 21st century demographic.” We welcome you as you join us in this journey. ¡Buena suerte!

Go Miners!
José O. Rivera, PharmD
Founding Dean
The University of Texas at El Paso

The University of Texas at El Paso commits itself to providing quality higher education to a diverse student population. Classified as a Doctoral/Research-Intensive university, UTEP seeks to extend the greatest possible educational access to a region which has been geographically isolated with limited economic and educational opportunities for many of its people. The University will ensure that its graduates obtain the best education possible, one which is equal, and in some respects, superior, to that of other institutions, so that UTEP’s graduates will be competitive in the global marketplace. UTEP also envisions capitalizing on its bi-national location to create and maintain multicultural, inter-American educational and research collaborations among students, faculty, institutions, and industries, especially in northern Mexico.

The UTEP community - faculty, students, staff, and administrators - commits itself to the two ideals of excellence and access. In addition, the University accepts a strict standard of accountability for institutional effectiveness as it educates students who will be the leaders of the 21st century. Through the accomplishment of its mission and goals via continuous improvement, UTEP aspires to be an educational leader in a changing economic, technological, and social environment: a new model for Texas higher education.

**UTEP Mission**

The University of Texas at El Paso is dedicated to the advancement of the El Paso region through education, creative and artistic production, and the generation, interpretation, application and commercialization of key discoveries, and the dissemination of knowledge. UTEP embraces its role as an intellectual, cultural and socioeconomic asset to the region, offering programs to meet human resource needs and contribute to the quality of life.

As a public university, UTEP is committed to providing access and opportunity to the people of the El Paso region and the State of Texas. UTEP’s mission of ensuring access is coupled with a commitment to excellence reflected in rigorous programs, which prepare students to make significant contributions to their professions, their communities and the world.

As a research/doctoral institution, UTEP fosters a climate of scholarly inquiry, with a special focus on applying innovative interdisciplinary approaches to explore and address major issues that confront the multicultural, U.S.-Mexico border region.
UTEP Goals:

1. **Learning and Teaching:**
   To prepare UTEP students to meet lifelong intellectual, ethical, and career challenges and to be the leaders of the 21st century.

2. **Research, Scholarship and Artistic Production:**
   To create, interpret, evaluate, apply, and disseminate knowledge; to encourage the addition of perspectives based on UTEP’s geographic and social setting; and to contribute to the formation of a broader intellectual and artistic foundation for the 21st century.

3. **Public Service:**
   To work in partnership with public and private agencies, institutions, and organizations, including business and industry, to improve the quality of life in our region and world by providing appropriate University expertise and leadership.

4. **Administration:**
   To support the achievement of UTEP's mission in learning, teaching, research, scholarship, artistic production, and public service through responsive, effective, and efficient administrative and staff services.

**UTEP School of Pharmacy**

The University of Texas at El Paso (UTEP) School of Pharmacy (SOP) rests at the US-Mexico Border and serves a primarily Latina/o, lower-income student and patient demographic. The UTEP SOP is positioned to provide the region with a critically needed Doctor of Pharmacy program to increase public access to quality pharmaceutical care. The UTEP SOP is uniquely capable of positively impacting a historically underserved population and will be a different school of pharmacy. Throughout the four-year PharmD education, the SOP will develop culturally-astute pharmacists who have technical competency in Spanish and are resourceful clinicians. The SOP staff, faculty, and leadership team are dedicated to its mission to be a pioneer in the advancement of pharmacy education through Innovation, Diversity, Engagement, Access, and Leadership (IDEAL). We are committed to developing pharmacists who are generalist practitioners, problem-solvers, practice ready, and team ready. The SOP will provide an innovative curriculum rooted in the foundation of pharmaceutical sciences while addressing the pharmacy-related public health and research needs of the region.

The SOP's mission is closely aligned with the mission of UTEP and other UTEP professional and graduate programs to engage in strong collaborative and supportive relationships for education and research across the university. By expanding its current infrastructure, the UTEP SOP can provide an exceptional four-year pharmacy education with graduates who can serve a critical and acute need in and beyond Far West Texas—we will be a bridge for “access and excellence” in pharmacy education to serve a 21st century demographic.

**UTEP School of Pharmacy Vision**

To be a pioneer in the advancement of pharmacy education through Innovation, Diversity, Engagement, Access, and Leadership (IDEAL) in our community and beyond.

**UTEP School of Pharmacy Mission**

To bridge borders to achieve access and excellence by transforming pharmacy education, patient care, community engagement, research, and leadership for a 21st century demographic.
**UTEP School of Pharmacy Goals**

**Pharmacy Education**

To provide PharmD students with excellent educational experiences that positively shape the practice of future pharmacists.

**Patient Care**

To provide high quality, patient-centered care that meets the needs of the patient and diverse communities.

**Community Service**

To act as ambassadors in the community through activities beyond the university setting.

**Research**

To conduct community-based participatory research and evidence-based research to advance the practice and science of pharmacy.

**Leadership**

To excel in the SOP’s development beyond all accreditation standards to positively impact students, the community, and all stakeholders through best practices in curriculum development and assessment.

**UTEP School of Pharmacy Student Outcomes**

Students are expected to meet the Center for the Advancement of Pharmacy Education (CAPE) learning outcomes (2013), adopted by The Accreditation Council for Pharmacy Education (ACPE).

These student outcomes should be achieved by the end of the student’s PharmD term via the pharmacy curriculum, service learning experiences, interprofessional education, co-curricular experiences, leadership opportunities, Capstone projects, and community involvement.

**UTEP School of Pharmacy Diversity & Social Justice Statement**

The UTEP School of Pharmacy (SOP) is committed to working with our health care and community partners to build health equity and a socially just health system in the Paso del Norte region and beyond. To do so, SOP is dedicated to actively engage with the community via its mission of excellence in pharmacy education through Innovation, Diversity, Engagement, Access, and Leadership (IDEAL).

**SOP recognizes that social determinants of health are at work in our communities.** These determinants have historically led to disparities and inequities in access to quality care and healthcare education. We have the responsibility and opportunity within the public higher education system to address pharmacy workforce equity, to be integrated into the health care system, and to engage actively in our communities. In our efforts to work toward health equity, we strive to improve access of our community to pharmacists who can improve patient care, engage in community education, participate in local and regional health initiatives, serve communities with low health care access, conduct applied research, and be leaders in the healthcare team.
SOP respects the diversity of cultures and identities. We educate the pharmacy community to integrate culturally and linguistically competent skills into practice that can also be applied to the global community.

SOP values the role of civic engagement as a tool to navigate across cultures and work toward a socially just health-care system and society. We integrate cross-cultural and interprofessional experiences to build these skills to be active contributors of the community.

SOP celebrates the binational and bicultural nature of the region and sees it as an asset to meet the needs to a 21st Century demographic. We, the SOP students, faculty, staff, and supporters, share in this commitment.

Notice of Non-Discrimination

The policy of the SOP is to ensure equal opportunity. The SOP, in compliance with applicable federal and state laws and regulations and national accreditation requirements, does not discriminate on the basis of race, color, national origin, sex, sexual orientation, age, religion, handicap, or status as a veteran in any of its policies, practices or procedures. This includes, but is not limited to admissions, employment, financial aid, and educational services.

The SOP complies with Section 504 of the Rehabilitation Act and does not discriminate on the basis of an individual’s handicap in its admission, accessibility, treatment, and employment of students in its programs and activities. The SOP provides accommodations to students with disabilities, as defined under the law, who are otherwise qualified to meet the institution’s academic requirements and technical standards. The Center for Accommodations and Support Services (CASS) provides assistance and programs that benefit individuals covered under the statute. For additional information, contact the CASS office at (915) 7475148.

Accreditation

Southern Association of Colleges and Schools Commission on Colleges

The University of Texas at El Paso is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, masters, and doctoral level degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of The University of Texas at El Paso.

Accreditation Council for Pharmacy Education

The University of Texas at El Paso School of Pharmacy Doctor of Pharmacy program was granted Pre-candidate status by ACPE Board of Directors on July 11th, 2017.

For a Doctor of Pharmacy program offered by a new College or School of Pharmacy, ACPE accreditation is a multi-year process that generally involves three steps: Precandidate Status, Candidate Status, and Accredited Status.

Precandidate Status indicates a developmental program that is expected to mature in accord with stated plans and within a defined time period. Precandidate Status is awarded to a new program of a College or School of Pharmacy that meets all eligibility criteria but has no students enrolled. This status authorizes the program to admit its first class.
Candidate Status is awarded to a Doctor of Pharmacy program that has been previously awarded Precandidate status and that has students enrolled, but has not yet had a graduating class.

Accredited status is awarded to a program that has successfully achieved Precandidate and Candidate statuses, met all ACPE standards for accreditation, and has graduated its first class.

Graduates of a class designated as having Pre-Candidate or Candidate Status have the same rights and privileges of those graduates from a fully accredited program. ACPE conveys its decisions to the various boards of pharmacy and makes recommendations in accord with its decisions. It should be noted, however, that decisions concerning eligibility for licensure by examination or reciprocity reside with the respective state boards of pharmacy in accordance with their state statutes and administrative rules. For an explanation of the ACPE accreditation process, consult the Office of the Dean or the Accreditation Council for Pharmacy Education, 135 South LaSalle Street, Suite 4100, Chicago, Illinois 60503, 312-644-3575; FAX 312-664-4652; website www.acpe-accredit.org
Code of Ethics for Pharmacists

PREAMBLE

Pharmacists are health professionals who assist individuals in making the best use of medications. This Code, prepared and supported by pharmacists, is intended to state publicly the principles that form the fundamental basis of the roles and responsibilities of pharmacists. These principles, based on moral obligations and virtues, are established to guide pharmacists in relationships with patients, health professionals, and society.

I. A pharmacist respects the covenantal relationship between the patient and pharmacist.

Considering the patient-pharmacist relationship as a covenant means that a pharmacist has moral obligations in response to the gift of trust received from society. In return for this gift, a pharmacist promises to help individuals achieve optimum benefit from their medications, to be committed to their welfare, and to maintain their trust.

II. A pharmacist promotes the good of every patient in a caring, compassionate, and confidential manner.

A pharmacist places concern for the well-being of the patient at the center of professional practice. In doing so, a pharmacist considers needs stated by the patient as well as those defined by health science. A pharmacist is dedicated to protecting the dignity of the patient. With a caring attitude and a compassionate spirit, a pharmacist focuses on serving the patient in a private and confidential manner.

III. A pharmacist respects the autonomy and dignity of each patient.

A pharmacist promotes the right of self-determination and recognizes individual self-worth by encouraging patients to participate in decisions about their health. A pharmacist communicates with patients in terms that are understandable. In all cases, a pharmacist respects personal and cultural differences among patients.

IV. A pharmacist acts with honesty and integrity in professional relationships.

A pharmacist has a duty to tell the truth and to act with conviction of conscience. A pharmacist avoids discriminatory practices, behavior or work conditions that impair professional judgment, and actions that compromise dedication to the best interests of patients.

V. A pharmacist maintains professional competence.

A pharmacist has a duty to maintain knowledge and abilities as new medications, devices, and technologies become available and as health information advances.

VI. A pharmacist respects the values and abilities of colleagues and other health professionals.

When appropriate, a pharmacist asks for the consultation of colleagues or other health professionals or refers the patient. A pharmacist acknowledges that colleagues and other health professionals may differ in the beliefs and values they apply to the care of the patient.

VII. A pharmacist serves individual, community, and societal needs.

The primary obligation of a pharmacist is to individual patients. However, the obligations of a pharmacist may at times extend beyond the individual to the community and society. In these situations, the pharmacist recognizes the responsibilities that accompany these obligations and acts accordingly.

VIII. A pharmacist seeks justice in the distribution of health resources.

When health resources are allocated, a pharmacist is fair and equitable, balancing the needs of patients and society.

Adopted by the membership of the American Pharmacists Association October 27, 1994.
http://www.pharmacist.com/code-ethics
Oath of a Pharmacist

"I promise to devote myself to a lifetime of service to others through the profession of pharmacy. In fulfilling this vow:

- I will consider the welfare of humanity and relief of suffering my primary concerns.
- I will apply my knowledge, experience, and skills to the best of my ability to assure optimal outcomes for my patients.
- I will respect and protect all personal and health information entrusted to me.
- I will accept the lifelong obligation to improve my professional knowledge and competence.
- I will hold myself and my colleagues to the highest principles of our profession’s moral, ethical and legal conduct.
- I will embrace and advocate changes that improve patient care.
- I will utilize my knowledge, skills, experiences, and values to prepare the next generation of pharmacists.

I take these vows voluntarily with the full realization of the responsibility with which I am entrusted by the public.”

The revised Oath was adopted by the AACP House of Delegates in July 2007 and has been approved by the American Pharmacists Association.

UTEP SOP Office of Student Affairs Vision & Mission

Vision

The vision of the SOP Office of Student Affairs (OSA) is to implement, produce, and assess the SOP IDEAL that is student oriented and student success driven. The OSA is first and foremost an advocate for student ideas and needs that provides a support structure that challenges students to become pharmacy leaders and innovators for the 21st century.

Mission

The mission of the SOP OSA is to be a student-centered office that works to provide access to meaningful and formative student experiences that will enhance UTEP Pharmacy students’ educational and professional lives.

Services

In order to meet the mission of the SOP OSA, the OSA provides the following services:

- Inform and support to pre-pharmacy students and prospective students who are interested in or applying to the UTEP School of Pharmacy
- Recruit and outreach highly qualified prospective students in the local, regional, national, and international level that meet the mission and vision of the School of Pharmacy
- Orient admitted and matriculated students into the School of Pharmacy via Pre-Orientation and Orientation activities
- Co-lead, with the Office of Experiential Education, the Study Away component of the SOP Curriculum
- Co-lead, with the Co-Curriculum Team, co-curricular activities
- Support student organizations
- Collaborate with the Student Excellence Team and the Associate Dean of Academic Affairs to facilitate retention, academic and professional progression, and graduation of SOP students via student success initiatives
- Offer a broad range of student services in collaboration with university partners (e.g., Office of Financial Aid, Office of Scholarships, University Career Center, University Counseling Center)
- Manage student issues and handle student complaints

Professional and Technical Standards for Admission, Matriculation, Progression, and Graduation

The following attributes are required for admission, matriculation, progression, and graduation from the UTEP School of Pharmacy (SOP). Students who have concerns about meeting the following requirements should contact the UTEP Center for Accommodations and Support Services (CASS) and the SOP Office of Student Affairs.

• **Ethical.** Students must demonstrate and exhibit professionalism and ethical decision-making in all interactions, whether they are in the classroom, laboratory, experiential site, or any other event where the student is representing UTEP, the SOP and/or the pharmacy profession. Students must be able to comply with the legal requirements and background checks established by the Texas State Board of Pharmacy and SOP Criminal Background Check Policy and Drug Screen Policy. Students must conduct themselves according to the principles set in the “Oath of a Pharmacist” while accepting the responsibilities as part of their development into pharmacists.

• **Social and Behavioral.** Students must demonstrate the emotional health, mental acuity and maturity necessary to exercise ethical judgment and utilize their intellectual skills to their full ability. Students must demonstrate integrity, compassion, empathy, and sensitivity to work with diverse cultures. Students must be able to develop effective professional relationships with patients, their families/caregivers, and colleagues. Students must demonstrate the ability to tolerate stressful and demanding environments and maintain adequate function and completion of assignments despite the fluctuating nature of the work environment.

• **Intellectual, Conceptual, Integrative, and Quantitative.** Students must demonstrate the ability to accurately measure, calculate, analyze and interpret large amounts of information, assimilate that data into problem solving, and then apply that learned information to a variety of situations. Students must demonstrate the ability to adapt to different learning and practice environments. Students must exhibit attention and alertness to surroundings and the ability to pro-actively apply quick critical thinking to patient care problems. Students must be committed to the necessary study time and to the SOP curriculum, experiential, and co-curricular requirements.

• **Communication.** Students must demonstrate the ability to communicate, effectively and sensitively in individual conversation and in groups. Students must be able to communicate via verbal and written forms to elicit information, document data, and provide clear, concise, and accurate responses. Students must be able to prepare and deliver formal papers, presentations, and engage in community outreach events. Students must also be able to learn and utilize technical language in real-world settings as well as use basic resources to navigate across diverse languages and cultures, which will be learned via the SOP coursework.

• **Observation and Sensory.** Students must demonstrate the ability to observe demonstrations, lectures, and experiments in individual and group settings. Students must be able to observe a patient accurately with their combined senses including vision, hearing, smell, and touch. Students must be able to read to interpret information from prescriptions and medication-related labels.

• **Motor.** Students must demonstrate the sufficient motor function and physical coordination necessary for performing basic classroom and pharmacy-related functions. Students must be able to participate in large and small group discussions, practice and perform physical assessment skills (e.g., manually measuring blood pressure, auscultating heart and lungs), perform injections (e.g., vaccines) and functions related to emergency management, prepare all routine types of medications including sterile and non-sterile compounding, and deliver direct patient care as appropriate to the pharmacist’s contemporary role in society.

For more information regarding Professional Technical Standards see:

Office of Experiential Education (OEE) Student Compliance

Immunization Requirements

Students are required to complete the following immunizations and titers/tests prior to entering school:

- TB Skin Test (Tuberculin) (All TB skin tests should be completed prior to receiving Varicella and/or MMR vaccines. Failure to comply may result in a false negative TB skin test result.
  - For individuals who have never been tested or have received a negative result before:
    - Initial 2-Step TB Skin Test (TST) must be completed. Initial test will be administered, and individual must return to clinic in 48-72 hours later to receive results. Results will be recorded.
    - If first TST returns negative, individual must receive a second TST between 7-21 days after the initial test was administered. Second TST will be read 48-72 hours after administered. Results will be recorded.
  - If an individual received a positive result on initial TST, do not receive the second test. Individual will need a Chest X-Ray (CXR) and annual clearance/TB assessment form completed by a Health Care Provider. Office of Experiential Education may provide the form required to be completed. We have also attached this form to these documents. A CXR report must be attached to form and signed by a healthcare provider.
  - Any individual who receives a positive TST, will be required to complete an annual clearance/TB assessment form instead of the annual TST.
  - Any individual who initially completed the 2-step and received negative results will need to complete an annual TST for the remainder of the time enrolled in pharmacy school.

- Tdap vaccine (tetanus, diphtheria, and pertussis)
  - Individual must have documentation of receiving vaccine at age 11 or older and a Td or Tdap every 10 years after.
  - Required documentation to be provided must be for most recent Tdap/Td

- Varicella immunity titer
  - Student must receive IgG titer, not IgM. IgG will provide results showing immunity against the disease.
  - If results return positive, no additional testing or vaccine is required.
  - If results return negative, two doses of Varicella vaccine are required (at least, 28 days apart); once this series is completed, no additional tests or vaccines are required.
  - Lab report must be provided.

- MMR (measles, mumps, rubella) immunity titer
  - Student must receive IgG titer, not IgM. IgG will provide results showing immunity against the disease.
  - If results return positive, no additional testing or vaccine is required.
  - If results return negative, two doses of MMR vaccine are required (at least, 28 days apart); once this series is completed, no additional tests or vaccines are required.
  - Lab report must be provided.

- Hepatitis B vaccine series and immunity titer
  - Student must receive IgG titer, not IgM. IgG will provide results showing immunity against the disease.
  - If results return positive, no additional tests or vaccines are required.
  - If results return negative, individual must complete a series (3 vaccines total) and receive a HepB Titer 4-6 weeks after the third dose is administered.
- Proof of completed series and lab report must be provided.

- **Annual Flu vaccine**
  - Must include LOT # of vaccine. A current vaccination must be received between October 1 through March 31, and annually thereafter.
  - A declination will be accepted and must be signed by a health care provider.
  - Due to the time frame provided, this is the one of the acceptable items that is allowed to be pending on first day of class.

Vaccinations and screenings are obtained at the student’s expense. A student’s health insurance may cover these services. Students who fail to submit documentation will not be permitted to participate in the required direct patient care components of the PharmD program.

Student must provide the SOP a copy of the results for all items listed above. All immunizations requirements are provided at the UTEP Student Health and Wellness Center or can be provided at the health care provider of your choice.

**Certification and Liability Insurance:**
Students are required to provide proof of documentation of the following prior to entering school.

- American Heart Association (AHA) CPR/BLS - please take note that only Healthcare Provider Training will be accepted. Should you decide to take a hybrid course, only one with live skills demonstration will be accepted.
- City Wide Orientation
  - Student must go to [http://www.epcc.edu/cwo/Pages/default.aspx](http://www.epcc.edu/cwo/Pages/default.aspx) to access the on-line presentation. At the end of the presentation, the student must complete the online exam. A certificate of completion will be provided.
- State Issued ID
- Proof of Personal Health Insurance - must be active on first class day
- Pharmacy Tech/Pharmacy Tech Trainee (if applicable) (REFER TO LICENSURE BELOW)

**Drug Screen and Background Check Requirements**

- 10-panel drug screening
- Criminal Background check

Please take note that a student may be asked to complete additional items specific to the requested rotation site

**Tuition & Fees**

Tuition and fees are set by the university and approved by The University of Texas System Board of Regents. See the [Student Business Service's](https://www.utep.edu/studentbusiness/) Tuition and Fees Schedule for the most accurate information.

**Mandatory fees** include:

- Library Fee
Students in the PharmD program are also responsible for a major fee that students pay every semester that provides for supplies, preceptor training, drug testing and background checks, accreditation requirements and other initiatives that impact all students.

Students facing financial difficulty can use the following services:

**UTEPS EASY PAY INSTALLMENT PLAN**

Tuition can also be paid via the UTEP Easy Pay Installment Plan. To use the UTEP Easy Pay Installment Plan contact the UTEP Student Business Services. The UTEP Easy Pay Installment Plan allows students to pay 20% of the tuition and fees at the beginning of the semester. The remainder is billed in four equal monthly payments. There is a convenience fee of $20.

**EMERGENCY TUITION LOAN**

An Emergency Tuition Loan can be requested via the UTEP Student Business Services. The Emergency Tuition Loan can be used for academic-related expenses. Payments are due in four (4) installments of 20% each, each month of the long semester starting on September or February, respectively. To be eligible for the Emergency Tuition Loan, a student must be enrolled for the current term, with no past due balances. Current tuition and fees, parking decal, health insurance, and meal plan that are assessed at the time of enrollment are included in this option. https://loans.utep.edu. There is a convenience fee of $20, and the interest rate is generally no more than ~$10 per month. The amount of the loan is equal to 20% of the total tuition and fees charged, as well as parking decal, health insurance, and meal plan (which is paid separately). For more information contact the UTEP Student Business Services.

**BOOK LOAN**

A book loan is a short-term loan that is available at the beginning of each semester. This is not a cash option. Funds are directed to your Miner Gold Card and can be used only at the UTEP Bookstore. Students can request a loan amount between $50-500, which is placed on the student’s UTEP ID. The funds can only be used at the UTEP Bookstore. There is a flat interest rate of $10.

**PAYDIRT EMERGENCY LOAN**

If a student is facing a financial challenge or unexpected situations (e.g., car repairs, daycare expenses, job loss) and is need of immediate assistance the UTEP Paydirt Loan is a short-term loan that can help a student stay enrolled at UTEP and continue
one’s education. The maximum loan amount for the UTEP Paydirt Loan Program is $500. Repayment of the loan is the responsibility of the student and must be paid-in-full within 90 days from the date of the signed promissory note. The UTEP Paydirt Loan will be administered by the Division of Student Affairs through the Office of Student Financial Aid.

**Orientation**

**New Student Orientation / Leadership Retreat**

A mandatory new student orientation is held a week prior to the start of the PharmD curriculum. The orientation is an opportunity to meet your fellow PharmD students, meet SOP administrators, faculty, and staff, and learn vital information for your time at the SOP.

Topics will include:

- Co-curriculum experiences
- Interprofessional Practice and Education (IPE)
- Computer training and Email set-up
- Professional Behavior
- Student Pharmacy Organizations
- Pharmacy Student Panel
- Campus SaVE Act and Title IX
- Office of Financial Aid and Student Business Services
- Student Health Insurance

**Re-Orientation**

Prior to the beginning of every semester, a re-orientation meeting will be scheduled for all returning students and appropriate faculty, staff, etc.

**White Coat**

The White Coat Ceremony is a “rite of passage” for Pharmacy students. The ceremony emphasizes the importance of the foundational mission of the program: transforming pharmacy education, patient care, community service, research and leadership to benefit a 21st century demographic.

The SOP ceremony takes place in front of family, friends, faculty, staff, and community members. The incoming students are welcomed by the Dean and then presented “cloaked,” with their first white coats. Students recite the Oath of a Pharmacist before the assembly, publicly acknowledging their new responsibilities and their willingness to assume the obligations of their new profession.

The White Coat ceremony is held after New Student Orientation as a culmination of the orientation experience and to aid in the transition into the SOP.

**Mobile Electronic Device Requirements**

To complete assignments, exams, and other forms of assessment, students of the UTEP SOP will need to meet the following requirements for mobile electronic devices. Mobile electronic devices (e.g., laptop, tablet) are required for all students to complete in class examinations. SofTest, an ExamSoft product, will be used by the UTEP SOP and can be used on most
modern Microsoft Windows based computers (i.e. purchased within the last 3-4 years). Please see specific system requirements as noted below. SofTest cannot be used on virtual operating systems such as Microsoft's Virtual Machine, Parallels, VMware, VMware Fusion or any other virtual environments.

**SofTest Windows - PC Requirements**
- Operating System: 32-bit and 64-bit Versions of Windows Vista, Windows 7, Windows 8, and Windows 10
- Only genuine, U.S.-English, French, Portuguese, Swedish, and British versions of Windows Operating Systems are supported
- ExamSoft does not support Tablet devices other than Surface Pro as detailed below
- CPU Processor: 1.86Ghz Intel Core 2 Duo or greater [CLICK HERE](#) for a list of supported processors
- RAM: highest recommended for the operating system or 2GB
- Hard Drive: highest recommended for the operating system or 1GB of available space
- For onsite support, a working USB port is required (Newer devices may require an adaptor)
- Internet connection for SofTest Download, Registration, Exam Download and Upload
- Screen Resolution must be 1024x768 or higher
- Adobe Reader (Version 9, 11, or DC) is required for exams containing PDF attachments
- Administrator level account permissions (Click [Here](#) for instructions)

**Surface Pro Requirements**
- Surface Pro 1, 2, & 4 (Non-Pro Surface devices are NOT supported)
- Surface 3 (Pro and Non-Pro devices ARE supported)
- External keyboard (USB or Bluetooth) required. Bluetooth keyboards must be paired prior to launching exam
- Hard Drive: 1GB or higher available space
- Adobe Reader XI is required for exams containing PDF attachments
- For onsite support, a working USB port is required (Newer devices may require an adaptor)
- Internet connection for SofTest Download, Registration, Exam Download and Upload
- Screen Resolution must be 1920x1080
- Administrator level account permissions (Click [Here](#) for instructions)

**SofTest Mac**
- Operating System: OS X 10.9 (Mavericks), OS X 10.10 (Yosemite), OS X 10.11 (El Capitan), mac OS 10.12 (Sierra). Only genuine versions of Mac Operating Systems are supported.
- CPU: Intel processor
- RAM: 2GB
- Hard Drive: 1GB or higher available space
- Server version of Mac OS X is not supported
- For onsite support, and in order to backup the answer files to a USB, a working USB port is required (Newer devices may require an adaptor)
- Internet connection for SofTest Download, Registration, Exam Download and Upload
- Administrator level account permissions (Click [Here](#) for instructions)

**Registration**

Students enrolled in UTEP SOP are required to register for classes through [UTEP Goldmine](#) website.

Registration opens mid-semester **PRIOR** to the semester of coursework. Courses may be added up to the date of Late Registration (approximately 2 days prior to class start until approximately 5 days after the first day of the semester). All required didactic courses **MUST** be taken for a letter grade. All experiential courses are Pass/Fail. The final Drop Deadline Date is generally during the Mid-Semester.

**Late Registration**
Any student who, with proper permission, registers after the scheduled days for regular registration will be required to pay a special charge of $20.00 for the late Web registration process, $30.00 for in-person late registration, or $50.00 on or after the first official school day of class. A new student will have the late registration fee waived as long as registration is made before the first official day of class. Late registrants are subject to the same regulations and course requirements as students who enroll on time. Classes missed because of late registration will be counted as absences, and class or laboratory work missed will be counted as a zero (0) unless the instructor grants the student permission to make up the work.

Any student who has been withdrawn and has his or her schedule reinstated after census day will be assessed a $200 reinstatement fee.

Information regarding registration (Add, Drop, etc.) and other academic-related dates is found on the UTEP Academic Calendar.
# Curriculum

## UTEP Doctor of Pharmacy Curriculum Summary

<table>
<thead>
<tr>
<th>P1**</th>
<th>P2</th>
<th>P3</th>
<th>P4</th>
</tr>
</thead>
<tbody>
<tr>
<td>18 SCH/Semester</td>
<td>17-19 SCH/Semester</td>
<td>17-19 SCH/Semester</td>
<td>42-50 credit hours (starts Summer)</td>
</tr>
</tbody>
</table>

### Track 1: Pharmaceutical Foundations (PF)
- **Principles of:**
  - Medicinal Chemistry
  - Pharmaceutics & Kinetics
  - Pathophysiology
  - Pharmacology & Toxicology
  - Clinical Chemistry
  - Genomics
  - Pharmacognosy
  - Immunology
- **Compounding Lab**
- **Integrated Skills Workshop (P1-P3)**

### Track 2: Global Health Colloquium (GHC)
- **Cultural, Literacy, & Community Health**
- **Health & Wellness Spanish - Pharm Professional**
- **Study Away (P1 or P2 Summer)**
- **Biostatics/Epidemiology**
- **Health Behavior & Perceptions Across Cultures & Life Span**
- **Spanish - Pharm Professional**
- **Capstone Project (P2-P3)**
- **Electives**

### Track 3: Patient Care, Practice, and Innovation (PCPI)
- **Patient Care & Practice:**
  - Foundations: Health Care, Pharmacy, Ethics
  - Communication & Counseling
  - Law
  - Immunizations
  - Professional Innovations Leadership & Life Skills (PILLS)
- **Patient Care & Practice:**
  - Pharmacy Informatics & Drug Information
  - Patient Safety
  - IV Admixture Lab
  - Pharmacy Law
- **Professional Innovations Leadership & Life Skills (PILLS)**
- **Electives**

### Track 4: Integrated Systems-Based Pharmacotherapy (ISBP)
- **Pharmacotherapy: Primary Care** (examples)
  - Cardiovascular
  - Endocrine
  - Gastrointestinal
  - Infectious Diseases
- **Practical Applications Workshop**
  - Patient Assessment
  - Over-the-Counter
  - Complementary Alternative Medicine
  - Point-of-Care Devices
- **Integrated Skills Workshop (P1-P3)**
- **Electives**

### Track 4: Integrated Systems-Based Pharmacotherapy (ISBP)
- **Pharmacotherapy: Specialties** (examples)
  - Advanced Cardio
  - Psych
  - Inpatient Infections
  - Oncology
- **Practical Applications Workshop**
  - Patient Assessment
  - Over-the-Counter
  - Complementary Alternative Medicine
  - Point-of-Care Devices
- **Integrated Skills Workshop (P1-P3)**
- **Electives**

### Experiential Education

**Track does not continue**
Study Away

Included in the SOP curriculum is a study away component that requires all UTEP PharmD students to participate in a short term (1-6 week) experience outside of the El Paso area. The UTEP PharmD study away component is aligned with the UTEP Edge, an institutional initiative that focuses on creating the “next generation of student engagement and professional preparation at UTEP” through curricular and co-curricular experiences including study abroad/study away. The Study Away component must be completed prior to the fall semester of the P2 year. The Study Away experiences are available during the P1 spring break, P2 summer. Faculty, staff, and/or preceptors will offer experiences that are regional (within driving distance of El Paso County), domestic (within the United States and territories), and/or international (outside of the United States). Other options include UTEP-led experiences such as a student-designed experience. Student-designed experiences are required to:

- Be at least 1 week and no longer than 6 weeks
- Have student participate in an ongoing service commitment (at least 50% of time) at an established (in existence for more than 3 years) organization that has a reporting structure (e.g., director, executive board)
- Have a service site director who must be willing to provide guidance to the student and complete and submit assessment documents
- Be in a location outside of the El Paso County boundaries
- Be completed prior to the fall semester of their P2 year

The Offices of Experiential Education and Student Affairs must approve the student-designed experience and provide guidance and support.

The cost of the Study Away experience is not covered by tuition and fees. This expense must be covered by the student.

CAPstone
The UTEP School of Pharmacy defines Capstone as a longitudinal scholarly project that allows students to build upon concepts throughout the curriculum. The Capstone Project will facilitate the development of students' skills in problem solving, communication, and critical thinking. Capstone experiences, and cumulative research projects, are identified as a high impact practice that support student learning. PharmD students will be introduced to research and Capstone concepts and begin exploring research interests in P1 year. During P2 year, students will complete Capstone training and Capstone Project tasks. By P3 year, students will complete the Capstone Project and present their research findings.

Experiential Education

Introductory Pharmacy Practice Experience (IPPE)

Introductory Pharmacy Practice Experiences (IPPEs) are weaved into the UTEP SOP curriculum throughout the P1, P2 and P3 years in which students can begin acquiring internship hours to apply for pharmacy licensure in Texas. Students must be registered intern-trainees (P1 year) and licensed student interns (after P1 year) with the Texas State Board of Pharmacy (TSBP) in order to participate in these courses. IPPEs are primarily experiential activities that occur in pharmacy practice sites and during OSCE activities, but may also include simulation, volunteer activities related to pharmacy practice in association with interprofessional education (IPE).

Students will participate in a minimum of 300 IPPE hours. The majority of IPPE hours are accrued via the Community IPPE and the Institutional IPPE:

Community IPPE: This is a 90-hour (2 weeks, fulltime) activity-based experience in a community pharmacy practice setting. This rotation occurs during the summer between the P1 and P2 years.

Institutional IPPE: This is a 90-hour (2 weeks, full-time) rotation designed to introduce students to the fundamentals of pharmacy practice in an institutional setting. This rotation occurs during the summer between the P2 and P3 years.

Advanced Pharmacy Practice Experience (APPE)

Students accumulate the majority of the internship hours required for licensure in Texas through the Advanced Pharmacy Practice Experience (APPE) courses, which occur during the last year (P4) of the curriculum. Students will complete a minimum of seven 6-week rotations.

The APPE rotations during the P4 year provide the UTEP SOP student with intensive involvement in ongoing professional pharmacy services; interaction with fellow students in nursing, medicine, and other disciplines; opportunities to measure one’s true capacity for professional achievement in a variety of innovative patient care environments; as well as opportunities to pursue special interests. This is a truly stimulating, exciting, and challenging experience and one to set you up for success as a future pharmacist.

Interprofessional Education (IPE)

Interprofessional Education (IPE) is defined as the “involvement of educators and learners from two or more health professions and their foundational disciplines who jointly create and foster a collaborative learning environment.” The goal of these efforts is to “develop knowledge, skills and attitudes that result in interprofessional team behaviors and competence. Ideally, interprofessional education is incorporated throughout the entire curriculum in a vertically and horizontally integrated
fashion.” According to the Interprofessional Education Collaborative (IPEC), four core practice competency domains have been identified that the UTEP SOP will integrate into its professional program.

1. **Competency Domain 1**: Work with individuals of other professions to maintain a climate of mutual respect and shared values. (Values/Ethics for Interprofessional Practice)

2. **Competency Domain 2**: Use the knowledge of one’s own role and those of other professions to appropriately assess and address the health care needs of patients and to promote & advance the health of populations. (Roles/Responsibilities)

3. **Competency Domain 3**: Communicate with patients, families, communities, and professionals in health & other fields in a responsive and responsible manner that supports a team approach to the promotion and maintenance of health and the prevention and treatment of disease. (Interprofessional Communication)

4. **Competency Domain 4**: Apply relationship-building values and the principles of team dynamics to perform effectively in different team roles to plan, deliver, and evaluate patient/population-centered care and population health programs and policies that are safe, timely, efficient, effective, and equitable. (Teams & Teamwork)

IPE is strategically threaded throughout the UTEP SOP Doctor of Pharmacy curriculum in a way that is purposeful and provides building blocks for Interprofessional practice. There are nine (9) formal IPE experiences. Introduction to IPE and IPEC competency domains will occur in the PI year through the PCPI track. In the P1 year, students experience IPE through collaborations with Texas Tech University Health Science Center (TTUHSC) Paul L. Foster School of Medicine and TTUHSC Gayle Hunt School of Nursing. The focus of the first year is to introduce concepts in IPEC and strategies and tools to enhance performance and patient safety (TeamSTEPPS®). The P2 year, IPE experiences shift focus to issues in health disparities. The health disparity experience is in conjunction with the UTEP College of Health Sciences (CHS) Rehabilitation Sciences (e.g., physical therapy) and Rehabilitation Counseling. Thereafter in the P3 year, IPE experiences return back to TTUHSC School of Medicine and School of Nursing with a focus in pharmacotherapy. In the last year (P4), the Inpatient General Medicine APPE will be designated as IPE. The coordinator of IPE, the director of experiential education, and the Inpatient General Medicine APPE coordinator will oversee IPE activities.

IPE is an essential part of the PharmD curriculum and is an essential practice to be an effective pharmacist and meet the health needs of patients.

**Co-Curriculum**

Due to the expanding role of the pharmacist, it is important to create a meaningful, professionalism-centered co-curricular plan as part of the UTEP School of Pharmacy curriculum. The goal of the UTEP SOP co-curricular plan is to ensure that all graduates will be IDEAL pharmacists.

The UTEP co-curricular thread was developed utilizing the Revised Taxonomy Model by Brown et al. This taxonomy model identifies three domains (competence, connection, character) of pharmacy professionalism. Each domain consists of five descriptive traits that support the professional development of a pharmacy student. As the student advances in the cocurricular thread, they have the opportunity to practice each professional trait with learning activities that have been identified in practice and in the curriculum. These experiences will build upon each other as the student’s skill-set is developed with more depth. These domains and traits are as follows:
### Competence

**Professional Capability**
- Self-directed learning
- Knowledge
- Applied Skill
- Proactivity
- Wisdom

**Interpersonal Compatibility**
- Compassion
- Empathy
- Self-control
- Kindness
- Influence

### Character

**Personal Reliability**
- Honesty/Integrity
- Humility
- Responsibility
- Service
- Moral Courage

---

The Co-Curricular experience will be strategically threaded throughout the UTEP SOP Doctor of Pharmacy curriculum and housed in the Professionalism, Innovation, Leadership, and Life Skills (PILLS) course. A variety of diverse co-curriculum required and optional activities have been identified. In the PI year, the PILLS course will introduce the taxonomy model and its relevance to the IDEAL pharmacist. The PILLS course, along with faculty advisors, will help track student progress. The Co-Curricular team will work closely with the UTEP Office of Civic Engagement and student organizations to identify activities for student experiences. Students are expected to meet the required co-curricular activities (RX PRO). RX PRO activities are linked throughout the curriculum. In addition, students will be required to complete seven elective co-curricular activities from the RX PRO Plus Plan (formulary of elective student activities) that must be completed between their first and last professional year. This formulary (RX PRO PLUS) of elective opportunities is available and attached to this document. Lastly, the UTEP SOP co-curricular plan closely aligns with the UTEP EDGE.

---

**Tier One**
- Career Day [Competence/Connection]
- Lunch & Learn (monthly) [Competence/Connection]
- Mentor/Guide Students [Competence/Connection]
- Food drive [Connection/Character]
- Blanket drive [Connection/Character]
- Care Packages for troops[Connection/Character]
- UTEP Volunteer for event [Connection/Character] See list for community engagement*
- Helping Pre-Pharmacy Organization with Homecoming Fair [Connection]
- Chaperoning Pharmacy candidates during admissions process [competence, connection, character]

**Tier Two**
- President of an Organization or Chair of a Committee [Competence/Character/Connection]
- Young Achievers Forum [Connection/Character]
- Mustard Seed Volunteer [Connection/Character]
- Tutoring Students [Competence/Connection/Character]
- Mustard Seed Volunteers [Connection/Character]
- Organizing a 5K Run [Connection/Character]

**RX Pro Plus Co-Curricular Activities**

- Mustard Seed Volunteer [Connection/Character]
- Tutoring Students [Competence/Connection/Character]
- Mustard Seed Volunteers [Connection/Character]
- Organizing a 5K Run [Connection/Character]
- Ronald McDonald House Activities [Connection/Connection/Character]
- Participating in 3 Health Screenings [Competence/Connection/Character]
- Officer on an Organization Committee [Competence/Connection/Character]
- Mentoring students to serve as chaperones during admissions process [Competence/Connection/Character]
- Participate in a 5K Run for Benefit and help with Fundraiser [Character/Competence]
- **Barry Coleman Advocacy Day (Local)** [Competence/Connection/Character]
- **IPE Co-Curricular activities** [Competence/Connection/Character]
- Brown Bag lunch with the Dean [Connection/Character]

---

Rx Pro Plus Co-Curricular = Total 7 Activities Required (2 in competence, 3 in connection (University, Community, Profession), 2 in character): Ideal: Pick 2 activities from each tier plus one activity from any tiers of students’ choice.
*Other activities not listed above may be considered but MUST be approved from Office of Student Affairs Office

**Faculty Advisor**

Each student is assigned a Faculty Advisor. Entering P1 students will meet their assigned advisor during new student orientation. Afterward, the advisee and the faculty advisor must meet, at minimum, once a semester during the fall and spring semesters. This meeting can be a group advising session. During the fall semester, it is suggested that the advisee meet with
their advisor prior to the enrollment period for the spring semester. This timeframe will allow the student to discuss their academic performance during the current semester and, if needed, allow time for appropriate changes to be made before the semesters end. Students may meet with their advisors as frequently as needed. Students will continue to meet with their faculty advisor until the student enters their P4 year. Once the student begins the p year, the Office of Experiential Education, preceptors, and the Office of Student Affairs will answer questions or concerns about experiential requirements, career placement, and graduation requirements.

The Faculty Advisor’s primary role is to help foster career and professional development. The Faculty Advisor will:

• Discuss career and educational plans and the skills and knowledge necessary to meet career and educational goals (students’ e-portfolio [Career RX Pro Plan] will help guide these conversations)
• Explain how the curriculum relates to future work responsibilities, skills and attitudes
• Provide academic support to aid with progression toward graduation
• Discuss different career tracks available upon completion of a Doctor of Pharmacy degree
• Collaborate with faculty, Associate Dean of Academic Affairs, OSA, practitioners and others to facilitate academic success by helping students gain access to necessary resources
• Identify appropriate school and campus resources and offer referral sources
• Understand common concerns of students
• Examine students’ progression toward career and academic goals by reviewing their portfolios
• Direct to additional mentors
• Review Co-Curricular requirements not included in the PILLS course
• Verify that Study Away component has been planned & completed by P2 Fall
• Be available to meet with advisees once each semester individually or in a group setting
• Notify the ADAA and OSA if an advisee misses a scheduled appointment or is unprepared
• Although faculty advisors should be responsive and willing to assist students to the best of their ability, advisors are not expected to be an expert in all areas and should not hesitate to refer the student to the ADAA and OSA when necessary.

Student Organizations

The SOP student organizations must be registered student organizations (RSO) and will liaise with the UTEP Student Government Association (SGA). It is an umbrella organization that works in partnership with other SOP student organizations. In addition, the SOP student organization works with other health-related associations on campus, including the UTEP Pre-Pharmacy Organization (PPO) and in the community. Students will also be represented on the SOP Committees including the Dean’s Student Leadership Committee which will have representation from every class. The SOP student organization works in alignment with the co-curriculum and in an effort to connect with the broader UTEP community via activities, events, and professional development.

Grading

GPA Calculation Policy:

All grades earned in didactic courses are averaged. A grade equal to C or better is considered passing. Any course retaken due to earning a D or F is replaced by a C if the class is successfully remediated. Grades for didactic courses are as follows:
A  4.0
B  3.0
C  2.0
D  1.0
F  0.0

Experiential course grades are only a pass or fail. Students must maintain a 2.5 average to remain in good academic standing (See “Good Standing”).

Grade Review & Grade Grievance

The UTEP SOP follows the policies and procedures in place by the UTEP Faculty Senate. The grade review policy must follow these hierarchical steps: (1) student may request the Faculty/Preceptor followed by the Course/Clinical Coordinator to review and re-evaluate an overall course grade within 30 days of the end of the semester; (2) students may seek assistance or intervention from the Chair(s) of respective academic team; (3) students may pursue a formal grade appeal process that is officially filed with the Student Grievance Committee of the UTEP Faculty Senate. The decision of the Student Grievance Committee is final.

Students should contact the UTEP Office of Student Life for specific information or download a copy of the grievance form on the UTEP Office of Student Life Web page.

A student must appeal an assignment/exam grade within 10 business days of grades being posted. A decision regarding the matter will be submitted to the student prior to the end of the semester (i.e., fall, spring, summer). The letter will be placed in the student file. Any extenuating circumstance will follow UTEP HOP/catalog.

Didactic Coursework Grades

Didactic coursework and courses are assigned letter grades. For students to progress to the next semester, they must successfully complete the course requirements while earning a grade of C or better (no grade of D or lower). If a student earns a grade below a C, the student may be eligible for remediation (See “Remediation” section).

Experiential Coursework Grades

Experiential education coursework and courses are assigned a Pass or Fail grade. A student must successfully complete the experiential requirements (e.g., IPPE, APPE) while earning a passing grade. If experiential education is part of a didactic course, then the policies will follow didactic coursework requirements. If student does not pass, they may be eligible for remediation.

Academic Progression

Progression Subcommittee

All issues dealing with misconduct, didactic and experiential education progression, and any other progression and conduct issue not outlined in the UTEP SOP Student Handbook (not including any issue handled by the UTEP OSSCR or the UTEP
Faculty Senate (a) are handled by the Progression Subcommittee, on a case by case basis.

**Good Standing**

Good Standing in the School of Pharmacy requires meeting both Academic & Professional good standing as outlined below:

**Academic**
- Maintain a GPA of 2.5 or higher
- Have no Academic Integrity issues

**Professional**
- Present themselves in a professional and courteous manner in a didactic, experiential, and study away course or component. This behavior includes, but is not limited to, not engaging in disruptive behavior in a classroom or other education setting, being appropriately dressed, using professional language and behavior, e-professionalism (e.g., social media), and other forms of professionalism.
- Present themselves in a professional and courteous manner when representing the SOP, such as national/regional/local conferences or meetings, as part of a student organization, and at health fairs and other educational health events.
- Uphold the UTEP Policies and Procedures that are outlined in the UTEP HOP, including but not limited to: academic misconduct, substance abuse, and sexual misconduct.
- Meet the requirements of the Professional Expectations and Contract, as laid out in the OEE Handbook

Not meeting the standards outlined and within the spirit of Professional Good Standing can be interpreted as Professional Misconduct.

Only students with a (1) cumulative SOP GPA of 2.75 or higher, (2) who are in professional good standing and (3) have no Academic Integrity issues are eligible to:
- be elected and/or serve as officers in the SOP (e.g., class representative, student organization),
- represent the School of Pharmacy on committees or other venues,
- participate in professional travel (e.g., conferences) to represent the School of Pharmacy, and/or receive funding for professional use.

**Encouraging Academic Success**

Successful PharmD students will:

- Use effective time management. The PharmD program should be a student’s main activity, similar to an intense work experience. This will require a student to negotiate one’s time regarding PharmD requirements and activities (e.g., classes, experiential work, rotation, study time, journal club, school organizations, etc.). Students should have a conversation early with family, spouse, children, friends, etc. regarding expectations.
- Study early and create a sound study system. Contact the Associate Dean of Academic Affairs or Director of Student Affairs for support and resources.
- Sleep
- Ask for help EARLY. If a student is struggling or need additional support, ask. SOP administrators, faculty, and staff are here to help students be successful.
If a student has concerns regarding course performance or the course material the student should immediately discuss these issues with their Course Faculty. Other resources for support/advice include: Pharmacy Faculty Advisor, SOP Director of Student Affairs, and the Associate Dean of Academic Affairs.

**UTEP Counseling and Psychological Services**, which focuses on career counseling, psycho-educational workshops, individual and group counseling, and crisis intervention, can also aid in your academic and personal success.

**The SOP Student Success Center**

The Student Success Center is available for use for: individual and group tutoring, academic workshops, financial literacy workshops, speakers, and Lunch & Learn discussions to aid in the academic and professional success of SOP PharmD students.

**If you are struggling, do not wait to get help! Here are some strategies:**

- Speaking with course faculty to identify steps for improvement
- Tutoring
- Meet with your pharmacy faculty advisor
- Coordinated study groups
- Review sessions
- UTEP University Counseling Center

**Early Intervention**

The UTEP SOP is committed to the academic and professional success of their students. To help students successfully complete their PharmD degree, the UTEP SOP has instituted an Early Alert system. The purpose of the Early Alert system is to identify PharmD students who may need additional academic support and/or student life related services. The Academic Advisor is tasked with reviewing student performance after the first round of exams to identify students who have received below a C. Students who did not successfully complete their first exam are referred to the Associate Dean of Academic Affairs and their Faculty Advisor is alerted. In consultation with the Associate Dean of Academic Affairs and their Faculty Advisor, a plan of action is created, the student is referred to the appropriate resource (e.g., tutoring, the SOP Office of Student Affairs, UTEP the Office of Financial Aid) and a follow-up date is established. Anytime a student receives a grade below a C on an exam or major project or as their final course grade, their Faculty Advisor will be notified.

In addition, the UTEP early alert system, a Blackboard plugin called the Retention Center, identifies student attendance and performance, is incorporated into our Early Alert system. Retention Center allows instructors to set thresholds for performance on each assignment and sends messages to students who fall below or above those thresholds.

**End of Course Remediation**

**Didactic Remediation**

In an academic year (Fall, Wintermester, Spring, Maymester), students who earn a grade of D or F in a required didactic course and have completed all of the course requirements (e.g., exams, projects) must remediate by July 31st before the start of the next
academic year to progress. However, if a course has established prerequisite(s) then remediation will occur before the start of the required course. The means of remediation as appropriate to the nature of the course may be considered by the instructor or course coordinator in consultation with the Associate Dean of Academic Affairs. The means of remediation must be equivalent to the means of assessment in the course.

The maximum grade that a student can earn in remediation for a didactic course is a C. Students can remediate in only two (2) courses per academic year or a maximum of four (4) times in the entire curriculum (P1-P4). Students who earn a D or F (prior to remediation) in three (3) or more didactic courses in one academic year cannot automatically progress and must present their case before the Progression Subcommittee of the Student Excellence Team prior to the start of the next semester. Students who earn a D or F (prior to remediation) in five or more didactic courses in the entire curriculum (P1-P4) are subject to the Academic Dismissal policy (See “Academic Dismissal.”) The Progression Subcommittee makes the final determination of steps for progression.

Prior to offering remediation, the course coordinator must contact the associate dean of academic affairs with a list of student names for potential remediation. The associate dean of academic affairs will inform the course coordinator if any of the students are eligible for remediation.

The Chair of the Progression Committee will receive a report at the end of the academic year indicating the number of students who were eligible for remediation, and the number who completed remediation successfully. The Chair of the Progression Committee will inform the faculty of the total number of students that received remediation, number of students who failed remediation, and the number of students who have remediated one, two and three courses at the Faculty Assembly.

Interprofessional Practice and Education (IPE) and Co-Curricular Remediation

IPE and Co-Curricular are connected to a courses and remediation will be handled within the course.

For Co-Curricular requirements, Faculty Advisors will work with students to verify that they are meeting their co-curriculum milestones. Remediation for co-curriculum will occur in the PILLS course.

**Experiential Remediation**

Students who fail an experiential course (Community/Institutional IPPE, APPE) and have completed all the experiential requirements (e.g., attendance, assignments) must remediate the IPPE/APPE course in the final experiential session offered in the academic year or as scheduled by the Office of Experiential Education. If a student fails an APPE, the student must meet with the Progression Subcommittee, in consultation with the Office of Experiential Education, to determine any additional remediation requirements and support. If experiential education is part of a didactic course, then the remediation is as required by the didactic coursework requirements.

**IPPE Remediation**

If a student fails to successfully remediate an IPPE (Community/Institutional) course, the student cannot progress to the next academic year and must present their case before the Progression Subcommittee prior to the start of the next semester. The
Progression Subcommittee will make the final determination of steps for progression (e.g., repeating a year of instruction). A student who repeats the year and fails the IPPE again will not be allowed to remediate and is subject to the Academic Dismissal policy.

**APPE Remediation**

If a student fails two different APPEs in the P4 year or fails to remediate an APPE course, then the student will be required to present their case before the Progression Subcommittee and graduation will be delayed one year. The Progression Subcommittee will provide a plan of additional support (e.g., tutoring, repeating additional coursework, professionalism training). A student who is repeating the P4 year and who fails another APPE will not be allowed to remediate and is subject to the Academic Dismissal policy.

**Study Away**

The Study Away component should be completed before the start of the fall semester of the P2 year. If a student does not successfully complete the experience, they will have to remediate as appropriate to the nature of the experience and as determined by the Study Away lead or coordinator, in consultation with the OEE and OSA. Remediation should take place before the start of the spring semester of the P2 year (i.e., P2 winter). If a student fails to remediate a Study Away experience, the student cannot progress and must present their case before the Progression Subcommittee prior to the start of the next semester. The Progression Subcommittee will make the final determination of steps for progression.

**Course Re-takes**

Students who are required to retake a course due to unsuccessful remediation will be reviewed by the Progression Subcommittee regarding continued coursework and are subject to not progressing. If a student repeats a professional year due to unsuccessful remediation, they will maintain a minimum course load that is determined by the Progression Subcommittee.

**Other Remediation**

Any other cause of remediation not aforementioned will be discussed and presented with the Progression Subcommittee which will determine a course of action.

**Missed Coursework or Credit.**

Submission of missed or late coursework is at the discretion of the instructor and is outlined in the course syllabus. If this occurs, a faculty member may decide to grant the student an Incomplete (I) course grade. A student who has an incomplete (I) course credit is required to make up the course credit before progressing to the next semester. Missed coursework will result in course fees and potential delay in progression. A student who has earned two Incompletes (I), regardless of the grades ultimately earned, are subject to review by the Progression Subcommittee and may be placed on academic probation. The timeline for completion of work is at the discretion of the faculty member, working in collaboration with the Associate Dean of Academic Affairs, but must be resolved prior to the start of the next semester.

**Academic Probation & Dismissal**

**Academic Probation**
Students who have a cumulative GPA of less than a 2.5 or earn three (3) or more Cs in one semester are placed on academic probation. If a student has had to remediate a didactic or an experiential course, they are automatically placed on academic probation for the upcoming semester. Students are informed in writing of their status, and must meet with the Associate Dean of Academic Affairs and their Faculty Advisor who will then review the student’s portfolio and provide a recommendation for action (e.g., academic resources, OEE, OSA). The Progression Subcommittee is informed of all students on academic probation no later than at the end of each semester. A student on academic probation is required to develop an academic improvement plan in collaboration with the student’s faculty advisor and Associate Dean of Academic Affairs. A student on academic probation is expected to focus on academic improvement and is subject to the limits of Good Standing standards (See “Good Standing”).

**Returning to Academic Good Standing**

A student who successfully completes the academic improvement plan as approved by the Associate Dean of Academic Affairs and their faculty advisor, is removed from academic probation. Students will receive a letter via email from the Associate Dean of Academic Affairs indicating that they are in good standing. Documentation of this process will be placed in the student file.

**Dismissal for Academic Reasons**

The Progression Subcommittee reviews each portfolio for a dismissal decision. If a student is required to repeat a year due to failing a course with unsuccessful remediation, and then fails the second attempt at the course will dismissed from the program. Students are subject to immediate dismissal if they fail to meet the degree requirements within six years of matriculation, except for those who have been granted approved leave (e.g., military leave, medical leave).

If the student is academically dismissed, they have the right to appeal. See “Appeal of Dismissal.”

**Dismissal for Reasons of Misconduct**

Students failing to abide by the SOP policies on professionalism and/or UTEP policies on academic integrity, substance abuse, sexual misconduct and/or other relevant policies may be dismissed from the program. Each step in the mediation process of misconduct will be documented and placed in the student’s file. Any issues violating the SOP policies on professionalism within the SOP will be handled as outlined below.

**Didactic Misconduct**

If professional misconduct (e.g., disruptive behavior in classroom) occurs that is related to a didactic course, the faculty member(s) should first try to mediate directly with the student and notify the course coordinator of the issue. If the issue is not successfully mediated the course coordinator should contact the Director of Student Affairs who will work with the Associate Dean of Academic Affairs for assistance in mediation. If the issue still cannot be mediated, then the issue is submitted to the UTEP Office of Student Conduct and Conflict Resolution (OSCCR).

**Experiential Education Misconduct**

If professional misconduct occurs during Experiential Education, the Preceptor Faculty (PF) should first try to mediate directly with the student and notify the clinical coordinator of the issue. If the issue is not successfully mediated, the PF should contact the Director of Experiential Education who will work with the Director of Student Affairs and Associate Dean
of Academic Affairs to assist in mediation. If the issue still cannot be mediated, the issue is presented to the Progression Subcommittee for review, decision, and plan.

**Study Away Misconduct**

If professional misconduct occurs during the Study Away experience, the Faculty Lead (FL) will first try to mediate directly with the student. If the issue is not successfully mediated the FL, should contact the Director of Experiential Education and Director of Student Affairs who will work with Associate Dean of Academic Affairs to assist in mediation. If the issue still cannot be mediated, the issue is presented to the Progression Subcommittee for review, decision, and plan.

**Professional Conference or Event Misconduct**

If professional misconduct occurs during a professional conference or other professional event (e.g., health screening, student organization meeting), the Faculty Advisor and/or the faculty/staff member who witnessed or was informed of the incident should attempt to mediate the situation. If the Faculty Advisor or faculty/staff member is unable to mediate the situation, the Faculty Advisor or faculty/staff member should contact the Director of Student Affairs who will work with the Associate Dean of Academic Affairs to assist in mediation. If the issue still cannot be mediated, the issue will be presented to the Progression Subcommittee for review, decision, and plan.

**Violation of UTEP Policies**

Violation of UTEP policies (e.g., academic misconduct, substance abuse, sexual misconduct) will be handled by the SOP in partnership with the UTEP Dean of Students, the Office of Student Conduct and Conflict Resolution (OSCCR), and other relevant parties to ensure due process for all parties and to provide training, expert counseling, and support when managing student conduct. This includes a notice of policy violation, a hearing, and an appeal process. The process is outlined in the UTEP Handbook of Operating Procedures, Sec. II, Chapter 1.

If the SOP becomes aware of a substance abuse issue, the SOP will provide referral to the appropriate resource. Support resources may include the Pharmacists Recovery Network (PRN) and the Texas Professional Recovery Network.

**Appeal of Dismissal**

A student who has been dismissed from the program can appeal the decision.

**Appeal for Dismissal for Academic Reasons**

A student has the right to appear for a hearing before the Progression Subcommittee to appeal the dismissal. Following the appeal hearing, the subcommittee will make its decision. If the decision of the Progression Subcommittee is to uphold the dismissal of the student, the student may then appeal directly to the Dean. If the Dean upholds the decision to dismiss the student, a written appeal can be submitted to the Office of the Provost. The decision of the Provost is final.

**Appeals must be made within ten (10) business days of the date of the notification letter and should be submitted in writing to the SOP Dean via email and a hardcopy.** A receipt of delivery will be given to the student and a copy will be placed in the student’s file.

**Appeal for Dismissal for Reasons of Misconduct (non-UTEP policy)**

A student has the right to appear for a hearing before the Progression Subcommittee to appeal the dismissal. Following the appeal hearing, the subcommittee will make its decision. If the decision of the Progression Subcommittee is upheld the
dismissal of the student, the student may then appeal directly to the Dean. If the Dean upholds the decision to dismiss the student, the student is dismissed. The decision of the Dean is final.

**Appeals must be made within ten (10) business days of the date of the notification letter and should be submitted in writing to the SOP Dean via email and a hardcopy.** A receipt of delivery will be given to the student and a copy will be placed in the student’s file.

**Appeal for Dismissal for Reasons of Misconduct of UTEP policy**

The process is outlined in the UTEP Handbook of Operating Procedures, Sec. II, Chapter 1.

### Withdrawing from the School of Pharmacy

Students who chose to withdraw from the UTEP SOP must (1) submit a letter of “Notification of Withdrawal” to the Director of Student Affairs, (2) contact, in person, the Registration and Records Office, and (3) clear though the Financial Aid Office if receiving financial aid and/or student loans. Students who cannot drop in person may submit a fax with signature and picture ID to 915.747.8764 or via an e-mail using their UTEP e-mail account to records@utep.edu. International students with F or J visas must receive permission from the Office of International Programs before dropping all classes.

For specific policies regarding withdrawing due to **medical reasons**, **medical conditions of a family member**, **death of a family member**, or **death of a student**, please see the UTEP Catalog.

### Leave of Absence

**Leave of Absence Policy**

The UTEP SOP Leave of Absence Policy is as follows:

- A student is **required** to submit a SOP Leave of Absence form to the SOP OSA at least ten (10) business days prior to the start of the next semester. **Emergency requests may be considered on a case-by-case basis.**
- The OSA approves or denies the request in collaboration with the Associate Dean of Academic Affairs
- Maximum leave granted is one year (except for military service, see below) however, in exceptional circumstances student may request an extension 30 days before the end of their approved leave
- Students returning from an approved Leave of Absence must report with the SOP so that records can be reactivated and formal reinstatement occurs
- Students who request leave must be in good standing

Required information in the form includes type of leave, anticipated date of return, and approval. The form provides the student information regarding their leave, informs the UTEP SOP of the leave, and provides a plan for a student to re-enter the program successfully. Due to the integrated nature of the PharmD program, a student who is on leave for a semester may be required to retake a full academic year. Students are still required to finish the program within six years of matriculation.

### Military Leave

Students who have to withdraw because they have been called to active military service must provide a copy of their military orders covering the affected semester to the Student Business Services Office. Grades will be assigned as described below.
Military personnel can select one of the withdrawal options below according to the Texas Education Code, Chapter 54, Subchapter A, Sec. 54.006:

1. Receive a refund of the tuition and fees paid for the withdrawn semester (see NOTE below);

2. If eligible, receive grades of Incomplete (I) from instructors, with the notation Withdrawn – Military appearing on the academic transcript;

3. Receive an appropriate final grade or credit if the instructor determines that a substantial amount of coursework has been satisfactorily completed and sufficient mastery of the course material has been demonstrated. With this option, the student will not be eligible for a full refund of tuition and fees.

Request for complete withdrawals, with the required documents, related to medical reasons, medical conditions of a family member, death of a family member, active military service, and death of a student, will be accepted only if received within 90 days after the end of term for which the withdrawal is being requested. After 90 days, a full refund of tuition and fees will not be approved.

Students who withdraw to perform active military service in a combative operation outside the United States will be readmitted following military service to that program (consistent with Texas Education Code, Subchapter W, section 51.844). Any previously earned coursework will be applied toward the program and any standardized test score previously submitted will be accepted.

Readmission

A student who has left the program for reasons other than dismissal or approved leave of absence, may apply for readmission within one academic year. The student must submit a written statement identifying the reason for leaving the program and what steps they are taking to address the underlying issue(s). The Progression Committee and the Associate Dean of Academic Affairs will review the portfolio of the student applying for readmission and decide if the student is eligible for readmission and identify whether the student will need to retake courses. Students are still required to finish the program within six years of their initial matriculation.

Curriculum & Classroom Policies

Class Attendance

Attendance is mandatory at all didactic and experiential courses.

Excused Absences

Attendance is mandatory at all didactic and experiential courses. Attendance at courses and at experiential practicum is critical to success as a PharmD student and beyond. Unexcused absences are considered unprofessional behavior, will be recorded, and may have an adverse effect on a grade including a failure of a component of a course or an entire course.

To secure an excused absence, a student must submit the following information to the Director of Student Affairs:

1. Student name
2. Date of absence
3. Current courses and course instructors’ names
4. Reason for absence
It is expected that the student contact their course instructor(s)/facilitators, course coordinator and/or Director of Experiential Education (as necessary) email directly to inform them of the absence. Specifically for Experiential Education absences, students are required to contact their preceptor (i.e. phone call AND follow up email and carbon copy the appropriate Clinical Coordinator and Director of Experiential Education). The following are considered excused absences, but may require make up hours:

- Illness (personal or dependent)
- Urgent medical evaluation
- Religious observance
- Death of a family member
- Jury duty or legal matter
- Participation at a regional or national meeting
- Emergency (e.g., accident)

Specifcally for Experiential Education absences, if a student must be absent for a reason listed above, the student must work out the hours missed with the preceptor in which they were assigned to.

If a student must be absent for a reason not listed, they must meet with the Director of Student Affairs and the Associate Dean of Academic Affairs, prior to the absence to obtain an excused absence. This meeting is not a guarantee of an excused absence. Specifically for Experiential Education absences, if a student must be absent for a reason not listed above, the student will fail his/her experiential education experience and must meet with the Director of Student Affairs.

The Office of Student Affairs will review the information, obtain necessary approvals (e.g., preceptor, Director of Experiential Education) and inform the student and course instructor(s)/facilitators, course coordinator, preceptor, and/or Director of Experiential Education (as necessary). Requests for excused absences are reviewed by the Office of Student Affairs and students will be notified of approval or non-approval within three (3) business days of sending a request. Absences of more than two (2) business days or more require appropriate documentation (e.g., doctor’s note, jury certificate).

Please note:

- Requests made after the class begins will not be considered excused. This does not pertain to illness, death in the family, or other emergency. A student who is absent due to an emergency should contact the OSA and their course instructor(s)/facilitators, course coordinator, preceptor, and/or Director of Experiential Education (as necessary) within two (2) business days or as informed by the syllabus.

- Excused absences need to be requested ten (10) business days in advance (this does not pertain to illness, death in the family, or other emergency).

- Absences longer than two (2) days for illness require a doctor’s note be submitted to the Office of Student Affairs.

- The Office of Student Affairs reserves the right to request a doctor’s note in the event of a pattern of absences or any absences immediately preceding or following a holiday.

- Although the absence is excused, a student is responsible to obtain and complete any work, reading, lab, exam required. It is not the responsibility of the instructor to inform the student of any make-up work requirements. Often labs cannot be made up and it is at the discretion of the course instructor how the student will be evaluated, including but not limited to “no credit,” regardless if the absence was excused or not.

- It is the student’s responsibility, and not the course instructor/coordinator/preceptor, to make sure that the required assignments missed due to illness are completed and submitted.
• Decisions on how to make-up assignments, hours, exams, labs in the event excused or unexcused absence is at the discretion of individual course instructor/coordinator/preceptor as outlined in course syllabus.

Attending Regional/National Professional Meetings

The UTEP SOP supports and encourages student participation in professional pharmacy activities such as regional and national professional meetings. Students are required to follow the stated policy to ensure no negative consequences.

• A student who wishes to attend a national and/or regional meeting must:
  o Be in academic good standing
  o Have no behavioral sanctions
  o And, have a grade of C or above in each course during the semester of the planned meeting to attend.

• Students who do not meet the following criteria are expected not to attend any national and/or regional meeting until they do meet the criteria. They also are not eligible for any travel funds via UTEP or UTEP SOP.

• Students who wish to attend must submit the following information within ten (10) business days of the planned absence to the SOP Office of Student Affairs. **Failure to do so may impact a student's course grade(s).**
  o Student name
  o Date of absence
  o Current courses and course instructors’ names
  o Reason for absence

• Students must also inform their course instructors within two (2) week of the planned absence via email. **Failure to do so may impact a student's course grade(s).**

• Students who receive funds for travel to a regional and/or national meeting **must** attend a “How to get the most out of a conference/meeting” workshop and complete a conference meeting worksheet that will be distributed prior to the meeting. The conference meeting worksheet requires a conversation with your faculty advisor and the faculty advisor’s signature. Completed worksheets should be submitted to the SOP Office of Student Affairs within five (5) business days after the end of the meeting. **Students who do not attend the workshop and who do not submit a completed worksheet will not receive any travel funds from the SOP.**

Excused Absences for SOP-Recognized Activities

Students who will be absent while representing the School of Pharmacy officially recognized SOP activities (e.g., conference attendance, interviews, study away) must notify the Office of Student Affairs and their instructors no less than ten (10) days prior to the absence. The Director of Student Affairs will provide the student a letter of excuse for the instructors. It is the student’s responsibility to give the letter to the instructors prior to the officially recognized activity. Students following these procedures will be permitted to make up both assignments and examinations in consultation with faculty. See “SOP Excused Absences” for more detailed information.

Dead Day

This specific day will be scheduled one day after the last day of classes only during the fall and spring semesters. The following policy will be observed:

1. No classes will be held on this day, except classes which meet once a week on that day.
2. Makeup exams should be left to the discretion of each individual instructor.
3. All student work (i.e., research papers, lab reports, term paper, etc.) should be due prior to this day.
4. If a comprehensive final is given, no new material, quizzes, or exams should be given two calendar days prior to Dead Day, and attention should be given to reviewing of semester material. Implementation of this recommendation is to be left to the discretion of the individual instructor.

**Academic Integrity**

The University of Texas at El Paso prides itself on its standards of academic excellence. In all matters of intellectual pursuit, UTEP faculty and students must strive to achieve excellence based on the quality of work produced by the individual. In the classroom and in all other academic activities, students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. It is imperative, therefore, that the members of this academic community understand the regulations pertaining to academic integrity and that all faculty members insist on adherence to these standards.

Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes not limited to cheating; plagiarism; collusion; the submission for credit of any work or materials that are attributable in whole or in part to another person; taking an examination for another person; and any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the [Handbook of Operating Procedures](#) (HOP) and available in the UTEP Office of Student Life and the homepage of the [Office of Student Life](#), can result in sanctions ranging from disciplinary probation, to failing a grade on the work in question, to a failing grade in the course, to suspension or dismissal, among others. (See “Dismissal for Reasons of Misconduct”).

**Course, Experiential, and Professional Evaluations**

The SOP greatly values student evaluation of courses, instructors, experiential and professional activities to obtain information to improve the program and its curriculum. All students are expected to complete course, experiential, ad professional evaluations. Constructive feedback is taken seriously and is utilized for our continued improvement. Please refrain from inflammatory remarks as they only diminish the credibility of the evaluation and provide no actionable response. Students are encouraged to provide positive feedback to aid in identifying programmatic strengths.

**Emergency Evacuation**

In the event of an emergency evacuation, the UTEP SOP and the Campbell Building Manager have designated Gonzalos G & R Restaurant 401 E Nevada Ave, El Paso, TX 79902, on the corner of Nevada and Kansas, as our meeting location.

**Computer and Mobile Requirements**

A mobile computer or device with wireless internet access, word processing capabilities, and ability to access UTEP course management system, UTEP Blackboard®, and the School of Pharmacy examination software (ExamSoft)® is required. (See “Mobile Electronic Device Requirements”).

SOP students are also required to have a cellular phone, with or without smartphone capabilities, but with texting/SMS capabilities. SOP administration, faculty, and staff need to have immediate contact with students in case of emergencies and short-notice changes.
Student Information

Each SOP student is required to maintain a Student Information Form on file in the Office of Student Affairs. The form is distributed to incoming students during Orientation Week. This form must be kept current and it is the duty of each student to inform the Office of Student Affairs of all subsequent changes or additions. Change of name, address, telephone number(s) or emergency contact is extremely important and should be reported immediately.

Graduation

To successfully graduate from the UTEP SOP PharmD program, all candidates must have:

- Successfully completed all curricular requirements including:
  - All specified didactic and experiential coursework and requirements
  - Study Away component
  - Capstone Research project
  - Complete all required benchmark exams
- Successfully completed all co-curricular requirements including:
  - Rx Plus Pro Co-Curricular activities requirements
- Submit Student Portfolio by specified deadline to faculty advisor
- Earn a cumulative GPA of a 2.5 or higher
- Be in Good Standing (Professional and Academic)
- Submit a graduation application to the Records and Registrar’s Office by specified deadline
- Pay any required or outstanding debts to The University of Texas at El Paso.

A student who fails to meet any of these requirements WILL NOT graduate.

University Policies & Procedures

The School of Pharmacy is an academic unit of The University of Texas at El Paso. The School follows all policies and procedures outlined within the UTEP Handbook of Operating Procedures. The following sections contain student-related policy statements as written in the Handbook of Operating Procedure. Links to the full policy can be found after each statement. In the event of any conflict between the Handbook of Operating Procedures and the School of Pharmacy Student Handbook, the Handbook of Operating Procedures governs, as it is the official compilation of University policies.

It is highly recommended that Pharmacy students familiarize themselves with the policies and procedures outlined in the Handbook.

FERPA Policy Statement

It is the policy of The University of Texas at El Paso to protect the privacy and records access rights that apply to records maintained by or for the University about its current and former students of its institutions by complying with the Family Educational Rights and Privacy Act (FERPA) at all times. For more information regarding your rights under FERPA, please see UTEP Handbook of Operating Procedures Section II, Chapter 6 Educational Records.

Non-Discrimination Policy Statement
The University is committed to providing equal opportunity to all employees and individuals seeking employment or access to its programs, facilities or services, and will not discriminate against these persons on the basis of race, color, national origin, sex, religion, age, disability, genetic information, veteran’s status, sexual orientation, or gender identity.

The full policy can be viewed at the UTEP Handbook of Operating Procedures Section VI Chapter 1 Equal Opportunity/Affirmative Action/Non-Discrimination Policy. To file a complaint, please follow the procedure outlined in Section VI, Chapter 1.4 of the Handbook of Operating Procedures. Please contact the School of Pharmacy Director of Student Affairs for more information.

Accommodations for Students with Disabilities Policy Statement

The University of Texas at El Paso is committed to providing reasonable accommodations and auxiliary services to students with documented disabilities in order to provide them with equal opportunities to participate in programs, services, and activities in compliance with sections 503 and 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act (ADA) of 1990 and the Americans with Disabilities Act Amendments Act (ADAAA) of 2008. Reasonable accommodations will be made unless it is determined that doing so would cause undue hardship on the University.

The full policy can be viewed via the UTEP Handbook of Operating Procedures Section VI, Chapter 2 Accommodations for Individuals with Disabilities Policy. Students and Applicants for Admission Students and applicants for admission requesting eligibility for accommodation and services can initiate a request for accommodation(s) by contacting the Director of the Center for Accommodations and Support Services.

Sexual Harassment & Sexual Misconduct Policy Statement

The University of Texas at El Paso is committed to maintaining a learning and working Ac that is free from discrimination based on sex in accordance with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; and the Campus Sexual Violence Elimination Act (SaVE Act). Sexual misconduct is a form of sex discrimination and will not be tolerated. As stated in the definition, sexual misconduct includes sexual harassment, sexual violence, sexual assault, stalking, domestic violence and/or dating violence. Individuals who engage in sexual misconduct and other inappropriate sexual conduct will be subject to disciplinary action.

For a full description of the policy please see the UTEP Handbook of Operating Procedures Section VI, Chapter 3 Sexual Harassment and Sexual Misconduct. To file a complaint or report a violation, please follow the outlined procedures in Section VI, Chapter 3.3. Please contact the School of Pharmacy Director of Student Affairs for more information.

Alcohol, Drug, & Smoking Policy Statements

The University of Texas at El Paso enforces all state and federal laws or regulations which regulate and control the sale or use of alcohol on campus, including those pertaining to the possession of alcohol by minors. For full policy, see the UTEP Handbook of Operating Procedures Section II, Chapter 1.2.2.2.

Any student who is found responsible for the illegal use, possession and/or sale of a drug or narcotic is subject to discipline. For more information, see the UTEP Handbook of Operating Procedures Section II, Chapter 1.2.2.2.
The University of Texas at El Paso are now a smoke and tobacco-free campus. The use of tobacco products (including but not limited to, cigarettes, cigars, pipes, water pipes (hookah), bidis, kreteks, electronic cigarettes, smokeless tobacco, snuff, chewing tobacco or all other tobacco products) as well as smoking or use of any smoking device, by students, faculty, staff, and visitors is prohibited at all times on University Property including all grounds, sidewalks, parking areas, structures, and buildings, whether or not signs are posted. For the full policy, please see the UTEP Handbook of Operating Procedures, Section IX, Chapter 8 Smoke and Tobacco Free Policy.

**Concealed Handguns & Weapons Policy**

Pursuant to Subchapter H, Chapter 411 of the Texas Government Code, individuals licensed by the State to carry a concealed handgun (License Holder) may carry a concealed handgun in approved areas on the University Campus beginning August 1, 2016.

The use, possession, display or storage of all other weapons, simulated weapons, explosives, or fireworks on the University Campus is prohibited and subject to appropriate disciplinary and/or criminal sanctions.

10.1.3 Individuals who observe a violation of this policy are required to report the incident immediately to the University Police Department (UTEPPD) at 915-747-5611 or 911. UTEPPD will investigate the incident and when applicable forward potential violations to the University’s Office of Human Resources or Office of Student Conduct and Conflict Resolution (OSCCR). For the full policy, please see the UTEP Handbook of Operating Procedures, Section IX, Chapter 10 Concealed Handguns and Weapons Policy.

**Complaint Procedures**

**Accreditation Council for Pharmacy Education (ACPE) Student Complaint Process**

Complaints regarding the School of Pharmacy, as it relates to the Accreditation Council for Pharmacy Education (ACPE) standards, policies, or procedures, may be reported to ACPE. The procedure to submit complaints is available on the ACPE website.

**UTEP School of Pharmacy Complaint Procedure**

For complaints unrelated to the ACPE standards, policies, or procedures, the UTEP School of Pharmacy’s administration encourages students to contact the appropriate SOP member to resolve the issue.

If the concern involves a pharmacy course, the student is encouraged to discuss the concern and/or resolve the issue with the following individuals, in order:

1. Instructor
2. Chair member associated with that course or Director for Experiential Education (IPPE or APPE)
3. Associate Dean for Academic Affairs

If the issue is in regards to a grade, please see the UTEP Grade Review Process Policy

If the concern does not involve a course, the student is encouraged to bring concerns to the appropriate individual:
The School of Pharmacy students are also encouraged to seek guidance from their faculty advisor regarding concerns and for questions regarding the complaint process.

If the above communications do not resolve the student’s concern, the student may contact the Dean.

**Student Email Policy**

The SOP community is expected to utilize electronic communication among students, faculty, staff, and administration because of its convenience, speed, cost-effectiveness, and environmental advantages of using e-mail rather than printed communication. Email is the official means for communication within the UTEP SOP. This includes communication from instructors, coordinators, preceptors, other faculty, staff, and administrators. UTEP Information Technology Services (ITS) assigns all enrolled students an official University e-mail address. It is to this official address that the SOP will send e-mail communications. It is the responsibility of the student to check their email regularly: every 24 hours during the semester, including weekends, once a week at minimum during academic breaks.

A student may have email electronically redirected to another email address. If a student wishes to have email redirected from their official address to another email address, they may do so, but at the student’s own risk. The SOP is not responsible for the handling of email by outside vendors or by departmental servers. Having email redirected does not absolve a student from the responsibilities associated with communication sent to the student’s official email address.

Faculty determine how email will be used in their classes. Faculty expect that students' official email addresses are being accessed, and faculty may use email for their courses accordingly.
