**Note:** Attrition is calculated by (1) dividing the high school enrollment in the end year (12th grade) by the high school enrollment in the base year (9th grade); (2) multiplying the results from Calculation 1 by the ninth grade enrollment in the base year; (3) subtracting the results from Calculation 2 from the 12th grade enrollment in the year; and (4) dividing the results of Calculation 3 by the result of Calculation 2. The attrition rate results (percentages) were rounded to the nearest whole number. Data for 1990-91 and 1993-94 are not available.

- **Testing Requirements:** Prior to 1997, all new students in Texas public institutions of higher education were required to take the TASP test during their first nine hours of college enrollment. In 1997, the law was changed to require that all new students
- **Placement in Developmental Education Courses:** State Law requires that every student who fails any one of the three sections of the basic college skills exam will be placed into developmental courses until the student passes that specific section, thereby

**Therefore, the above enrollment figures represent duplicate head counts;** i.e., a student can be simultaneously enrolled in more than one developmental education course and may repeat a course in subsequent semesters.
