

THE UNIVERSITY OF TEXAS AT EL PASO

FIRE REPORT LOG

The University of Texas at El Paso maintains a log of fires that have occurred in on-campus student housing in accordance with federal regulations (34 CFR §668.49). The UTEP Fire Log is not a complete list of all fire events that have occurred on UTEP property. “Fire” is “any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.” “Fire” does not include controlled burning, even when that event is contrary to policy, such as candles, smoking, or other open flames, when that open flame does not result in property damage.

The following definitions apply to this fire log.

“On-campus student housing” refers only to structures containing residential occupancy for students. The UTEP Fire Log does not include neighborhood centers within student housing developments, campus facilities (administrative, academic, library, student life, or support) where students may overnight on a transient basis, vehicles, locations off UTEP property, or outdoor locations of any kind.

“On-campus student housing” consists of three facilities operated by the UTEP Housing and Residential Life department (HRL). Facilities include Miner Village, Miner Heights and Miner Canyon.

This report is the “fire log” and is posted on the UTEP Police website as required by the “Higher Education Opportunity Act” (HEOA) and the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act."
