

RESEARCH COMPLIANCE & REGULATORY SERVICES

RCRS

Fundamental to Credibility and Sustainability

Faculty, staff, and students conduct research spanning federal regulations, ethical standards, and international boundaries yet many are unaware of the requirements that protect both the researcher and the institution.

Research Compliance & Regulatory Assurances exists to ensure that all research activities at UTEP meet the highest standards of integrity, safety, and regulatory compliance.

Building Partnerships

- Community-Based Organizations
- Educational Institutions & School Districts
- Public Health Agencies
- Nonprofits & Coalitions
- Government Programs
- University Research & Outreach Initiatives

UTEP RESEARCH & INNOVATION

HOW WE SUPPORT

Research Compliance

Promotes and ensures standards of research integrity

- Provide guidance in areas of biological, animal, and human subjects research
- Deliver superior customer service to faculty, staff, and students related to research compliance
- Reduce administrative burden for faculty researchers

Laboratory Animal Resources

Advocates humane animal care and use in support of research

- Provide quality animal and veterinary care
- Advise and educate researchers on animal experimentation and housing issues
- Promote best practices for responsible care and use of animals

Research Protections

Enhances research security, protection, and compliance

- Provide guidance in areas of export control, security, integrity, and undue foreign influence
- Educate faculty, staff, and students on ethical research integrity
- Increase awareness of potential domestic and international threats to research security
