

RESEARCH RELATIONS & STRATEGY

RRS

Aligning Faculty Expertise with Mission Agencies

Advancing external research engagement through strategic opportunity identification, agreements and joint appointments, coordinated partner outreach, and mission-aligned collaboration support.

Synthesizing relationships into funded collaborations, workforce pipelines, and durable institutional partnerships.

Key Focus Areas

- Advanced Manufacturing and Materials
- AI, Cybersecurity and Scientific Computing
- Robotic and Autonomous Systems
- Energy Systems and Grid Resilience
- National Security & Defense Technologies
- Aerospace and Extreme Environment Research

UTEP RESEARCH & INNOVATION

HOW WE SUPPORT

Connect & Align

Identify and connect faculty to aligned federal and national lab opportunities

Joint Appointments

Facilitate agreements and joint appointments to accelerate collaboration

Funding Alignment

Align faculty expertise with federal funding opportunities

Agency Engagement

Coordinate strategic engagements with federal agencies and national labs

Lab Experiences

Align student interests with internships, research placements, and lab opportunities
