

REGISTERING FOR COLLEGE OF SCIENCE LINKED LECTURES AND LABS

BIOLOGY

Add both the lecture's Course Registration Number (CRN#) and the lab CRN# to your GoldMine worksheet, then add the class.

Some labs for BIOL 1307 & 1308 are FYRIS labs and registration is restricted to those students participating in FYRIS. In GoldMine these sections generally have a subject title under the course name.

CHEMISTRY

CHEM 1305-1105 & 1306-1106: You must add three (3) registration numbers (CRN#) to your GoldMine worksheet BEFORE adding the class, eg:

A lecture listed as CHEM 1305 for 3 credit hours (SCH)

+

A workshop listed as CHEM 1305 for 0 SCH

+

A Lab listed as CHEM 1105 for 1 SCH

Pick the 3 SCH lecture first. It will tell you which linked seminars and labs you can choose from. Some labs for freshman chemistry are are FYRIS labs and registration is restricted to those students participating in FYRIS.

For all other Chemistry courses with labs you must add both lab and lecture to your worksheet to add the course.
