Limitless: 
Learn, Lead and Live without Barriers

ABSTRACT
Recent years have seen an explosion of scientific evidence showing that there is a different way to learn, lead and live, available to us all. When people take a limitless approach to learning – in mathematics and in life – different pathways open up, leading to higher, more equitable and more enjoyable achievement. Mindset messages are important but they do not take root unless they are accompanied by a different approach to mathematics and life. In this session we will consider what this different approach is. We will think together about ways to learn, lead and live without barriers.
