### QUESTIONS FOR STUDENT REFLECTION AND DISCUSSION

- What do you hope to do with your degree?
- How does your degree connect to careers or professions?
- Are you considering undertaking an internship, research work, or volunteering to learn about your career choices?
Part-time jobs are a great way for students to earn money, gain experience, develop work-related skills, and network within a student-friendly environment. Job Mine connects students to part-time jobs and internship positions both on and off campus.

Encourage students interested in an internship to connect with one of our Internship Coordinators. Internships provide students with an opportunity to apply classroom learning to real-life experiences. In addition, internships provide students with an opportunity to develop their professional networks and hone their marketable skills.
