GRADUATE STUDENTS

1. ATTEND A PROFESSIONAL DEVELOPMENT SEMINAR
   Learn about the tools and resources available through the graduate school’s professional development workshops.

2. PARTICIPATE IN THE GRADUATE STUDENT RESEARCH EXPO
   The Research Expo is an annual event that offers graduate students the opportunity to present their original research in a local academic conference environment before they travel to a national or international academic or professional conference.

3. INCREASE YOUR KNOWLEDGE
   and explore your options by researching and evaluating the professional job market.

4. NARROW YOUR FOCUS
   Set goals by naming your target industries and the specific companies within those industries for which you have an interest in working. Determine the necessary training, experience, knowledge, and education needed.

5. DEVELOP AND IMPLEMENT A CAREER PLAN AND JOB SEARCH STRATEGY

6. ATTEND EMPLOYER INFORMATION SESSIONS AND CAREER FAIRS
   Click the Career Center’s Recruiters on Campus and Career Fairs links for more information.

7. MARKET YOURSELF
   and build a contact network by conducting informational interviews with professionals (including faculty) from your field of interest. Create your LinkedIn profile.

8. PRACTICE YOUR INTERVIEW SKILL
   with the Career Center and participate in mock interview coaching sessions. Register and attend the “Mastering the Interview” workshop.
