

INTERNSHIP REPORT

June 1, 2024 – May 31, 2025

Internship Report

The University Career Center manages student self-reported work experiences that offer students the opportunity to gain valuable employment skills. Internships are high-impact practices that combine classroom knowledge with practical application, allowing students to explore career options, gain experience, and expand their professional networks. A key differentiator between internships and a short-term job or volunteer work is the intentional “learning agenda” incorporated into the experience.

This report focuses on **non-credit** paid and unpaid internships based on student self-reported data provided to the University Career Center for the 2024-2025 academic period. For-credit internship data included in this report is provided by the UTEP Office of the Provost and Vice President for Academic Affairs. Student employment data is provided by the UTEP Vice President for Business Affairs Office. Both are summarized on page 3 as supplemental information.

This report captures the periods of Summer 2024, Fall 2024, and Spring 2025 (June 1, 2024, to May 31, 2025).

Definitions

Internship: A high-impact practice that integrates knowledge learned in the classroom with practical application and skills development in a professional setting.

Cooperative Education (Co-op) Alternating/Parallel: A structured program that integrates academic study with work experience in a student's major, either through alternating semesters of full-time study and work or by working concurrently with classes. While the terms co-op and internship are often used interchangeably by employers, some maintain traditional co-op programs that differ from single-term internships.

Fellowship: A major-related work experience for graduate students, often connected with research or graduate study.

For-credit Internships: Internships that provide students with the opportunity to gain hands-on experience relevant to their majors while earning academic credit, fulfilling requirements set by an academic college.

UTEP Student Employment: On-campus job opportunities provide valuable employment skills and work experience that may not be directly related to a student's major.
