Student Life

Stud. Media & Pub.

The information on this report is not inclusive of all departments in the Student Engagement unit within the Division of Student Affairs. Departments within this unit define, track and report data in a variety of ways. In some cases, data on this report is not collected by all departments. Data was collected for each semester

independently. Totals listed are combined from both semesters and may not be unique. In the summer of 2017, the Office of Student Life and SELC merged. We are revisiting all definitions for each section of data collected and are streamlining a more accurate method for collecting it.

New Programs

Departments constantly seek creative ways to connect with students through programs that engage them, collect their feedback, and develop their skills. These are some of the new programs that accomplished these goals.

Stud. Media & Pub.

- **High School Journalism Workshop:** Local students learned and developed skills needed to work in college student media.

Residence Life

- **Life Coffee House:** Residents showcased their talents with singing, playing instruments, and other talents.

Student Life

- **Arbor Day:** In support of a greener and healthier world, students planted over 300 plants and 3 large trees on campus.

SELC

- **Finals Week Programming:** Over 25 events were hosted for students to participate in during finals week to help relieve stress.

Study Abroad

The global awareness gained from studying in another part of the world is a unique and life-changing experience. Here are some of the places our students studied this year.

Locations include: South Korea, Czech Republic, Mexico, England, Spain, Australia, Estonia, France, Germany, Italy, New Zealand, Scotland, Switzerland, Argentina, China, Costa Rica, Cuba, Morocco, and Poland
