STUDENT SPOTLIGHT

DELLA SHEETS GARCIA

GTF Scholar: UTEP - EC-6 General Education

"Being an early college student really helped me get to where I am now. It gave me the opportunity to get a head start very early on, while still giving the chance to explore different options in career paths that I could eventually go down. Of course, along that way, I decided that education would be the best path for me. And as soon as I made that decision, I was able to get started right away on classes that would help me become a teacher even sooner. Now, here I am on my way to becoming an elementary level teacher with such amazing students!"

JULIAN GARCIA

Valle Verde ECHS - Biomedical Sciences

"Valle Verde not only helped me academically, but it also helped me personally. From the very few people I could call friends and the staff I could consider as family, Valle Verde showed me beyond the end of my chapter and revealed a bright new beginning. The ECHS Accelerated Program and the achievements I have earned couldn't have been done if I wasn't strong, or creative, or unique as my sponsor Francisco Delgado would probably say. The ECHS program not only helped me get closer to my dreams of being a doctor, making me understand my work is paying off, but it also helped me grow as a person, without these friends or teachers I consider as family, I would've never been able to give this answer to anyone today, and without my parents who I deeply love, I thank them for everything."
