STUDENT SPOTLIGHT

VICTORIA VILLAGOMEZ

Clint Early College Academy - Environmental Science

"Being an early college student has taught me independence as I navigate the world of education. Although I felt lost entering college through virtual courses, I was able to find methods that would help me better understand content. I am thankful for the trust that the program has confided in me and my peers to pursue our careers at our own discretion. Exposure to a variety of fields of study in my classes has allowed me to decide upon a career that feels right for me quite soon, something I could have not done without the ECHS program."

NOE RAMIREZ

GTF Scholar: UTEP - Biological Sciences

"Here at the Early College Academic Success Center, I have learned how to manage my time more efficiently. I get motivated seeing my colleagues doing good, and it makes me stay confident. This program has helped me on finding the career that properly suits me. Being a team player here has helped me advance in my studies, since I now communicate with others easier. Each step I take, I reach my goals with the help of my family, my amazing mentor, as well as the ECHS team. Being supported by this community, will help me complete the goals I strongly have for my future without feeling overwhelmed."
