Helpful Hints:

Net worth: Value of an asset as of the date you filed the FAFSA minus debt owed on the asset. When calculating net worth, use 0 for investments or properties with a negative value.

Investment value: The current balance or market value of these investments as of the date you filed the FAFSA.

Investments: real estate (do not include the home in which you live), rental property (includes a unit within a family home that has its own entrance, kitchen, and bath rented to someone other than a family member), trust funds, UGMA and UTMA accounts, money market funds, mutual funds, certificates of deposit, stocks, stock options, bonds, other securities, installment and land sale contracts (including mortgages held), commodities, etc. Qualified educational benefits or education savings accounts (e.g., Coverdell savings accounts, 529 college savings plans and the refund value of 529 prepaid tuition plans). For a student who must report parental information, the accounts are reported as parental investments, including all accounts owned by the student and all accounts owned by the parents for any member of the household.

Investments DO NOT include: the home you live in, the value of life insurance, ABLE accounts, retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.) or cash, savings and checking accounts reported in the previous question. UGMA and UTMA accounts for which you are the custodian, but not the owner.

Business and/or farm value: includes the market value of land, buildings, machinery, equipment, inventory, etc. Business and/or farm debt means only those debts for which the business or investment farm was used as collateral.
