

Direct Loan Servicers

The U.S. Department of Education uses several loan servicers to handle billing and other activities regarding William D. Ford Federal Direct Loans. These servicers are responsible for providing borrowers with information about all aspects of loan repayment. Borrowers make their payments to their loan servicer. Contact your loan servicer to confirm your contact information or create an account on their website to stay informed of your loan balance, payment due date and important loan data. If you do not know who your loan servicer is login at studentaid.gov to see your assigned loan servicer.
